Title IX Compliance Officer: director of Human Resources,
1600 Pierce Street, Denver, CO 80214, 303-753-6046.
ACADEMIC CALENDAR 2008-2009

Fall 2008 Semester
- Fall semester begins: September 2
- Thanksgiving break: November 27-28
- Fall semester ends: December 19
- Graduation: December 20

Spring 2009 Semester
- Spring semester begins: January 5
- Presidents Day (holiday – no classes): February 16
- Spring semester ends: April 24
- Graduation: April 25

Summer 2009 Term
- Summer term begins: May 11
- Memorial Day (holiday – no classes): May 25
- Independence Day (holiday – no classes): July 3
- Summer term ends: July 31
- Graduation: August 1

MISSION STATEMENT OF THE COLLEGE

Rocky Mountain College of Art + Design’s mission has several aims, all consistent with its founding in 1963 as a community of “creatives”: to instill a passion for creativity, innovation, excellence and lifelong learning in both the Fine and Applied Arts; to nurture the individual talents of each student as s/he completes a formal program of study; to integrate critical thinking, analysis and scholarship into the refinement and application of each student’s skills and creativity; to contribute in socially responsible ways to the local, global and professional communities.

Rocky Mountain College of Art + Design (RMCAD) is committed to serving diverse populations and the diverse learning and creative styles of its students, as one of the nation’s premier Art and Design colleges. RMCAD is dedicated to the support of student learning in all of its functions; by providing students with a practicing art, design and humanities faculty of the highest quality, supported by contemporary technologies and a highly competent and dedicated professional staff in a safe, dynamic and inspirational learning environment.

MESSAGE FROM THE PRESIDENT

When my father, Philip J. Steele, founded Rocky Mountain College of Art + Design in 1963, his dream was to provide students with an education based on traditional art and design principles, in an environment that fostered personal meaning and growth. From years of working as an artist and teacher, my Dad understood how essential it is that students have the opportunity to study with professional artists and designers. He knew that the best instructors are those who can serve as mentors to students while encouraging them to push the boundaries of creativity.

The College continues to champion this vision today. Having served as President of RMCAD for nearly 25 years, I am confident our long history of successful alumni is testimony to you that our educational philosophy really works. Our curriculum is specifically designed to facilitate your transition from the classroom to your chosen profession.

At RMCAD your life’s mission is our life’s mission, and your success is our success. If your lifelong passion is to be one of the truly creative professional artists and designers of tomorrow, then your place is at Rocky Mountain College of Art + Design today.

Sincerely,
Steven M. Steele
President, Rocky Mountain College of Art + Design

History of The College
Rocky Mountain College of Art + Design was founded in 1963 by Philip J. Steele. Mr. Steele saw a need to provide students with a liberal arts education based on traditional art and design principles. The Steele family has maintained the College continuously since its founding, committed to Philip Steele’s vision of artistic expression rooted in academic excellence.

The Rocky Mountain School of Art, Inc., doing business as Rocky Mountain College of Art + Design, is a Colorado corporation approved as a private college by the Colorado Commission on Higher Education.

Location
RMCAD is located on twenty-three wooded acres at the foot of the Rocky Mountains in Denver, Colorado, in the west-central part of the metropolitan area. Looking east from the campus one can see downtown Denver’s skyline, and looking west, the Rocky Mountains. With a population of over two million people, Denver offers a multitude of ways to spend free time; from museums to concert halls to shopping centers and entertainment districts.

College Facilities
RMCAD’s distinctive campus includes eighteen historical buildings built in a variety of 20th century architectural styles. The fully wireless campus offers over 100 workstations for student use, utilizing both popular Windows and Mac platforms. Several “compact labs” are department specific. All labs are connected to print centers, scanners and network storage. Most of RMCAD’s computer labs are designed for multi-use by all departments, with specific labs designated for 3-D and 2-D animation, video and sound, multimedia, computer-aided drafting, and advanced special effects.

Special learning facilities include a woodshop, ceramics studio, photography lab, professional sound studio, auditorium, galleries, audiovisual theater, large meeting rooms and a Library/Resource Center. The Philip J. Steele Gallery features a rotating schedule of exhibitions that includes a mix of student, faculty and alumni work, as well as displays by community groups to exhibitions by well-known visiting artists. Students can relax or study in the student lounge, take a break between classes on the grassy lawns under 100-year-old trees, shop in the college bookstore or grab an espresso and a bite to eat at the Underground Café.

Sustainability Initiative

Mission Statement
The natural and built environments within and beyond RMCAD are fundamental aspects of our unique campus community. As a local and global environmental citizen, RMCAD recognizes its responsibility to lead by example by sustainably developing and maintaining our campus environments to provide safe, healthy, inspiring learning and working conditions for students, faculty and staff.

RMCAD believes that understanding and concern for sustainability issues and environmental responsibility provide the foundation for a dynamic sense of campus cohesion and community. The College is committed to promoting environmental awareness through its academic programs as well as through its activities on campus and beyond, enabling RMCAD to become an institution where all students, faculty, and staff are provided opportunities to become environmentally literate and where environmental leadership is seen as a continuous, participatory process of learning. Achieving these goals will be an ongoing challenge that will evolve as we become more environmentally aware and educated as a community.

Institute for Experimental Studies (IES)
A world of flux and change demands skills to match. Changes in technology and taste, shifts in demographics and power, environmental challenges and demands necessitate adaptive skills and thinking in form and content. Rather than a set of rules applied to static states, The Institute for Experimental Studies (IES) seeks to explore new territories and create new terrain. Inserting itself into the flow of events through lectures, projects, grants, and other emerging forms, IES provides RMCAD students with opportunities to challenge and develop their thinking at the unknown frontier of the new. Itself an experiment in form and content. Rather than a set of rules applied to static states, IES cooperates with RMCAD departments in the coordination of experimental courses where students develop individual projects, participate in collaborative projects, and study cutting edge concepts. Events and lecture programs aim to link today’s leading thinkers, theorists, and researchers in the arts, sciences, and the humanities. Experimental workshops focusing on theory, conceptual development and current issues explore diverse approaches to creating art and design.

Some of the Institute’s previous experiments have allowed students to:
• Stay abreast of the latest art and design world developments
• Broaden the understanding of art and design into other disciplines
• Meet, communicate with, and show work to top artists, designers and professionals worldwide
• Work closely with faculty in developing an innovative style
• Use and become proficient with emerging technologies
• Explore non-traditional materials and techniques
PROGRAMS + BFA REQUIREMENTS

RMCAD offers the following Bachelor of Fine Arts (BFA) degree programs:

- Animation: Two-Dimensional
- Animation: Three-Dimensional
- Art Education: Painting
- Art Education: Sculpture
- Art Education: Illustration
- Graphic Design + Interactive Media
- Illustration (optional: Children’s Book Illustration)
- Area of Specialization
- Interior Design (optional: Green Design Area of Specialization)
- Fine Arts: Painting + Drawing
- Fine Arts: Sculpture
- Fine Arts: Photography + Video Art

Philosophy of Learning

While traditional educational approaches of lecture, demonstration, teaching by example, and presentation of studio technique are used, RMCAD is responsive to the contemporary climate of the art and design disciplines. Classroom methods incorporate the newest processes and ideas to challenge students in an atmosphere that encourages experimentation with media not yet established as art material. As a result, graduates are both versatile and qualified to produce complete, professional quality work.

The strength of all of RMCAD’s art and design programs is realized in the development of each student’s perceptual, technical, and creative abilities. This approach and rigor enables students to realize success in a challenging and competitive marketplace, and helps ensure professional opportunities for each student after graduation. Emphasis is placed on skills that include consolidating ideas into visual form, rendering artwork, sharpening communication skills, developing creative concepts, and improving career skills.

The RMCAD faculty is composed of a dedicated group of professional educators, artists, and designers who determine the college curriculum and play a significant role in the content, development, and structure of the courses they teach.

FOUNDATION STUDIES

Each RMCAD student, regardless of major, is required to take foundation coursework. The Foundation Studies Department teaches courses to all RMCAD students based on the simple philosophy that any student who is willing can learn the skills and principles necessary to be successful in the visual arts. The Foundation Studies faculty strives to develop artists and designers as individuals with an awareness of their impact on community and environment. The departmental curriculum is designed to be progressive in nature, with ideas developed, integrated and incorporated by students from one class to the next. The course work is designed to help students develop an eye for creativity, self expression and innovation. Studio projects and assignments challenge students to explore materials and techniques and encourage a wide range of results based on the same task. Courses in Foundation Studies are designed to provide a thorough understanding of the fundamentals of art and design through background, theory, and practice.

The faculty is dedicated to preparing students for successful entry into all majors offered at RMCAD. Foundation Studies seeks to instill in students the development of technical, conceptual, problem-solving, verbal and intuitive skills, and an understanding of issues of sustainability necessary for future success in the visual arts. During their first year, students develop the vocabulary to critique their own work and that of others in a professional manner. Later, principles of visual composition, observation, history, theory, practice, and critical thinking are integrated within students’ understanding of their role as professional artists and designers.
LIBERAL STUDIES
The Liberal Studies are an integral part of each student’s educa-
tion at RMCAD. From the first-year Philosophy of Art + Design
course, through sequential courses in art history and the humani-
ties, as well as special units in natural science, social science and
mathematics, RMCAD students spend four years immersed in the
history, development and current state of human thought. The goal
of the Liberal Studies curriculum is to provide students with an
intellectual and ethical basis for lifelong learning and global citizen-
ship, while guiding their growth in the communication skills critical
for professional success in the information age.

Importantly, a RMCAD education gives students a meaningful
humanistic context for their development as artists. It is the posi-
tion of the College studio and academic faculty that artists and
designers who are aware of and conversant in the important ideas
of civilization—across time and cultures—will have much to say in
their chosen fields and in their own work. Conversely, students who
lack the richness of a liberal arts education will be lacking in their
ability to respond and contribute creatively to the world around
them.

The Liberal Studies curriculum is designed and taught by sea-
soned educators and professionals in the context of small classes.
Faculty members are passionate about what they teach and impart
that passion to their students.

Liberal Studies Overview
(Art Education excepted)

Communication + Critical Thought: 6 credits
The following courses are required, and are taken in sequence:
WO 1020  Written + Oral Communication 3
WO 1025  Written + Oral Communication Lab 0
WO 1060  Philosophy of Art + Design 3

Art + Design History: 12 credits
The following courses are required:
AH 1010  Art + Design History 1: Ancient to Medieval 3
AH 1020  Art + Design History 2: Renaissance to Contemporary 3
AH 2010  History of Art + Design in the Nonwestern World 3
AH 3010  Advanced Studies in the History of Art + Design 3

Humanities + Contemporary Thought
Seminars: 9 credits
The following courses are required, and are taken in sequence:
HU 2010  Humanities Seminar 1 3
HU 2050  Humanities Seminar 2 3
HU 4000-level Seminar in Contemporary Thought 3
Choose one: 3 credits
HU 4015  History and Theory of the Body 3
HU 4020  Theatre Studies 3
HU 4030  Identity and Power 3
HU 4035  The Cultural Politics of Consumption 3

Social + Behavioral Sciences: 6 credits
Choose six credits in Social + Behavioral Science:
SBS 2010  Anthropology 3
SBS 2020  Social Psychology 3
SBS 3030  World Belief Systems 3
SBS 3040  Biological Anthropology 3

Physical + Natural Science: 3 credits
Choose three credits in Physical + Natural Science:
NS 2015  Climate Change 3
NS 2020  Earth Science 3
NS 2030  Life Science 3
NS 3050  Human Ecology 3

Mathematics: 3 credits
Choose three credits in Mathematics:
MA 1210  Basic Mathematics 3
MA 1215  Applied Mathematics 3
MA 1220  Financial Principles + Practices 3
ANIMATION

Animation merges the arts of writing, storytelling, design, illustration, sculpture, theater, photography and filmmaking with the technology of computers. The departmental curriculum is designed to balance the aesthetic, social and critical aspects of visual communication with the realities of the professional production environment. Courses focus on basic tools such as the evolution of a concept, storyboarding, scriptwriting, character design, choreography and environment. These tools give students the ability to create personality, rules, atmosphere and events, elements which define the world of an animated film.

Within the department there are two majors: Two-Dimensional Animation, focusing on drawn animation and other handmade styles of this art form, such as stop motion; and Three-Dimensional Animation, which utilizes the computer as the animator’s primary tool. The 2-D Animation majors use traditional drawing skills to create character, perspective, emotion and personality, with the computer playing a secondary production role. The 3-D Animation majors merge the creative process with the pragmatic, technological side of animation. The choice of either major allows students to focus on developing the specific skills needed as early in the curriculum as possible, while still offering the opportunity and encouragement to explore subjects in the other major later on.

The Animation Department faculty strives to teach students about the rich history of animation, keep them informed about current developments in the industry, and help them imagine and create the complex and ever-changing future of animation. Graduates of RMCAD’s Animation Department are well prepared to become independent artists, animators and producers.

The following are recommended:
AN 3380 Scriptwriting for Animation 3
AN 4310 Design + Animation for Games 3
AN 4350 Experimental Computer Animation 3
AN 4480 Advanced Scripting 3

Total credits required 120
ART EDUCATION

Throughout history, artists have shared their expertise, knowledge and skills to motivate others to learn about, think about, and make art. The Art Education program at RMCAD is designed to further that ideal and to develop, with effective and appropriate techniques and knowledge, the capabilities of those who choose to teach.

Within the department there are three majors: Art Education/Painting + Drawing, Art Education/Sculpture, Art Education/Illustration. Art is approached as a visual language, a language with the vocabulary of line, shape, mass, texture, space, color, value, and a grammar controlled by rhythm, movement, balance, proportion, emphasis, variety and unity. The mission of the department is to create articulate and judicious art educators who make informed and active judgments and who contribute to the global community. RMCAD Art Education majors develop their ability to communicate ideas, experiences and events at a sophisticated level, through an undergraduate education focused on creativity, innovation, leadership, conceptual thinking, and technical expertise.

RMCAD graduates in Art Education are prepared to apply for a K-12 teaching license in art with the Colorado Department of Education. The RMCAD program accords with the Colorado Performance-Based Standards for Teachers of the Colorado Department of Education (CDE): literacy, content standards, performance standards, assessment, general knowledge of art, pedagogy, democratic principles, educational governance, and careers in teaching. Coursework supports the Statutory Performance Measures of the Colorado Commission on Higher Education and the Model Content Standards of the CDE and the National Art Education Association.

RMCAD Art Education graduates are leaders, innovators, and thinkers poised to enrich the profession. They can inspire young learners to become communicators and critical thinkers, able to reason and analyze; researchers; problem solvers; group contributors; and socially responsible people who defend their values. Educated to be life-long learners, graduates are conversant with technology, the language, concepts and skills of art, the history of ideas and events, and the cultures of the world.

FINE ARTS
The Fine Arts Department educates and develops in future artists the conceptual and technical abilities necessary to pursue professional careers in art. The curriculum addresses the cross-disciplinary approaches that have become the mainstay of cutting-edge, contemporary art, as well as the specializations within contemporary art. Courses provide a broad range of studio and educational experiences that foster artistic, professional, and personal growth. Core courses stress the fundamental principles of art, and encourage the assimilation of personal ideas, global thinking, and varying approaches and technical skills for the creative process. Students identify their individual educational goals through core courses; elective courses subsequently permit a customized learning experience. Customized learning allows students to concentrate on painting, sculpture, drawing, ceramics, photography, videography, or multi-disciplinary studies.

Within the interdisciplinary RMCAD philosophy, beginning Fine Arts students study the human form, drawing, painting, sculpture, photography, and design concepts. Using a variety of materials, visual skills and technical skills are expanded and explored. As the program becomes more intense, students progress to more advanced problems in concept and composition in their chosen discipline. Advanced coursework provides for in-depth artistic development, expression, and increasingly advanced visual and conceptual stimuli: contemporary figurative work, nonobjective work, abstraction, installation, large-scale projects, and expanded definitions of art in contemporary terms. Personal and group critiques offer informed analysis of student work. Form and content, structured experimentation, and theoretical and philosophical areas of study provide the advanced student with a basis for developing a lifelong personal visual vocabulary.

The Fine Arts faculty is composed of practicing artists who exhibit a diversity of interests, objectives, experiences, and expertise. The creative atmosphere of the studio classroom is enhanced by visiting artists, gallery/museum visits, and field trips to artists’ studios and regional public art collections. Fine Arts graduates are well prepared for careers in the arts and for graduate studies. Equally important, they are able to make unique, informed, active judgments and to use their art to affect the future of the world around them.

FINE ARTS
2008-2009 BFA Degree Requirements
Liberal Studies: 39 credits
Please refer to the Liberal Studies section for specific course requirements.

Foundation Studies: 18 credits
FD 1010 Digital Image Making 3
FD 1115 Visual Design 1 3
FD 1275 Drawing 1 3
FD 1375 Drawing 2 3
FD 1370 Life Drawing 1 3
FD 1990 Freshman Portfolio Review 0
FD 2120 Visual Design 2 3

Fine Arts Core Requirements: 27 credits
FA 1150 Introduction to Painting 3
FA 1250 Introduction to Sculpture 3
FA 1410 Basic Photography 3
FA 2015 Seminar in Modern + Contemporary Art 3
FA 2020 Form and Content 3
FA 4660 Experimental Studies 3
FA 4990 Professional Practices 3
FA 4991 Senior Studio 3
FAC 1265 Ceramic Sculpture 1: Handbuilding 3

Students choose either the Painting, Sculpture, or Photo + Video Art Core

Painting Core: 12 credits
FAP 2150 Painting 1: Painting Practicum 3
FAP 3100 Painting Sophomore/Junior Portfolio Review 0
FAP 3150 Painting 2 3
FAP 3170 Figure Painting 3
FAP 4050 Painting 3 3
FAP 4000 Painting Senior Portfolio Review 0

OR

Sculpture Core: 15 credits
FAS 2250 Sculpture 1: Sculpture Practicum 3
FAS 3200 Sculpture Sophomore/Junior Portfolio Review 0
FAS 3250 Sculpture 2: Exhausting the Metaphor 3
FAS 3270 Sculpture Investigations 1 3
FAS 4100 Sculpture Senior Portfolio Review 0
FAS 4150 Sculpture 3: Directed Studies 3
FAS 4810 Sculpture Investigations 2 3

OR

Photography + Video Art Core: 12 credits
FAV 2245 Photography 2 3
FAV 2570 Digital Color Photography 3
FAV 2320 Introduction to Video Art 3
FAV 3100 Photo/Video Soph/Junior Portfolio Review 0
FAV 3480 Intermediate Video Art 3
FAV 4000 Photo/Video Senior Portfolio Review 0
**Studio Electives: 21-24 credits**

A minimum of 12 credits must be in upper division (3000 or 4000 level) courses. Studio electives may also include any non-required FAP or FAS Core courses.

**Ceramics**

- FAC 3250  Ceramics Sculpture 2: Tools, Tech, Process 3
- FAC 3450  Ceramic Sculpture 3: New Directions in Clay 3
- FAC 4910  Advanced Ceramic Sculpture 3

**Figure Studies**

- FA 3060  Experimental Figure Studies 3
- FD 1380  Life Drawing 2 3
- IL 2550  Life Drawing 3: Human Anatomy 3

**Experimental Media**

- FA 3015  Contemporary Art Studio 3
- FA 3172  Experimental Drawing 3
- FA 3610  Installation 3

**Photography**

- FAV 2245  Photography 2 3
- FAV 2570  Digital Color Photography 3

**Two-Dimensional Media**

- AE 3250  Printmaking 3
- FAP 4991  Adv. Painting: Senior Studio up to 6 credits

**Three-Dimensional Media**

- AE 3230  Jewelry 2
- AE 3245  Fibers Studio 2
- FAS 4992  Adv. Sculpture: Senior Studio up to 6 credits

**Video**

- DM 2120  Raster Image Processing 3
- FAV 2320  Introduction to Video Art 3
- FAV 3480  Intermediate Video Art 3
- FAV 4991  Adv. Photo + Video Senior Studio up to 6 credits

**Other Options**

Choose up to two electives (6 credits) outside of the Fine Arts Department, as long as prerequisite requirement(s) have been met.

**Total credits required** 120
**GRAPHIC DESIGN + INTERACTIVE MEDIA**

Discovery, inspiration, creativity, ideas. Used separately these are powerful words, but integrated into a process of critical thinking, research, observing and innovation they create new opportunities for design students at Rocky Mountain College of Art + Design. The Graphic Design + Interactive Media program combines theory and practice to challenge students to discover their own individual design expression, and at the same time prepares them for today’s new business environment. With the development of new technologies and interactive media, the global marketplace is changing the role of the contemporary designer. RMCAD recognizes and embraces this enormous potential by combining these technologies with a classical art education founded in drawing, sociology, photography, theory and form.

Graphic Design + Interactive Media students learn to evaluate research and understand design problems by creating processes for design solutions that can be used throughout their careers. They will enter a profession that plans and executes the design of visual communication according to the needs of audiences by learning from the experiences that people have. Students use research methods drawn from sociology and anthropology, resulting in rich descriptions of people’s behavior, interactions and environmental conditions. By integrating this research into the process of design and user needs, students create new insights, identify opportunities and design meaningful solutions to business problems. The goal is to educate future design professionals who leave the program with an in depth understanding of visual communications theory and real life practice through observing, questioning, synthesizing and developing innovative but effective ideas.

Outside design professionals are brought in for workshops, presentations and advanced teaching engagements throughout the program and deliver hands on experiences with real projects. Presentation of concepts and ideas allows students to learn the importance of talking about the value of design and how it can be used in real business scenarios. Real deadlines and budgets are developed in order for students to learn how projects are managed from beginning to end. By partnering with non-profit and business communities, students have the opportunity to interact with professionals and design final solutions that are targeted to meet the clients’ needs. Annual award shows are used as class assignments and many graduates have been recognized with design excellence awards worldwide. International instructors and visiting faculty bring a broader exposure to students throughout their four years at RMCAD.

RMCAD's Graphic Design + Interactive Media program follows a strict and logical sequence of specific studio courses, which increase in difficulty. Students who do not transfer or receive portfolio credit for any of the courses below will require a minimum of seven terms to graduate. The courses in this sequence build upon the knowledge and skills acquired from previous courses, and therefore must be taken in the following order:

- **Semester 1**: FD 1010 Digital Image Making and FD 1115 Visual Design 1
- **Semester 2**: DM 1120 Electronic Page Layout and GD 1020 Design Concepts/Methods
- **Semester 3**: DM 2110 Vector Illustration, DM 2120 Raster Image Processing and GD 2440 Typographic Design
- **Semester 4**: GD 2520 Sign + Symbol
- **Semester 5**: GD 3020 Visual Sequencing
- **Semester 6**: GD 3040 Design Systems
- **Semester 7**: GD 4020 Experience Design
ILLUSTRATION

Illustration students develop the classic skills of drawing and painting to tell stories through innovative pictures, often applying computer technology to express their ideas meant to communicate to a global audience. Diverse clients hire illustrators for their professional skills to collaborate with movie directors, book authors, animation studios, television, advertising agencies, toy manufacturers, video gaming corporations, children’s book publishers, comic book studios, graphic designers, greeting card companies, and a host of many other businesses whose needs depend on imaginative visual thinkers.

The Illustration Department provides an exceptional program in the visual arts that emphasizes the significant issues necessary to work professionally. The department’s primary objective is to develop conceptual, technical, and business skills necessary to ensure the success of each student. Faculty who are experienced professional illustrators teach students the principles of visual communication through studio courses emphasizing visual perception, aesthetic awareness, conceptual problem solving, and the mastery of skills in drawing and painting using both traditional and digital media to promote imaginative illustrations.

The Illustration Department offers an area of specialization with two advanced courses in Children’s Book Illustration. With a well-prepared portfolio and commitment to the profession, RMCAD graduates are well-qualified to begin focusing their careers in one of the variety of opportunities available to them.

PROGRAMS + BFA REQUIREMENTS
INTERIOR DESIGN

Interior design shapes human experience and enhances quality of life through the creation of environments that are sustainable, meaningful, innovative, and functional. RMCAD’s interior design graduates create spaces that are as aesthetically pleasing as they are healthy and resource efficient, while promoting the health, safety and welfare of the public as well as all of the Earth’s species.

In accordance with the accreditation standards of the Council for Interior Design Accreditation (CIDA), the Interior Design program prepares students to contribute to society as skilled, ethical, environmentally responsible professional designers committed to improving the health, safety and welfare of the public. This philosophy holds that the built environment is central to many quality of life issues including physical and emotional health and well-being, productivity, resource efficiency, environmental conservation, and aesthetic experiences. As the world’s cultures become increasingly complex and interdependent and natural resources become increasingly diminished and degraded, the demands upon the built environment to meet a wide range of physical and psychological needs also increase. In order to create interiors that support the growing and diverse needs that human beings have of their environments it is essential that interior design students acquire and develop an understanding of the dynamic reciprocity between people and environments. The program addresses this dynamic relationship through an interdisciplinary orientation, drawing upon research and practice from related disciplines of art, architecture, environmental design, landscape design, sustainable design, industrial design and graphic design.

Additionally, the program includes relevant information from the social and natural sciences of psychology, sociology, anthropology, ecology, and biology as part of the interior design profession’s expanding knowledge base. This philosophical foundation is synthesized with the technical, practical, ethical, and professional knowledge and skills necessary to fully prepare students, as part of an integrated design team, to think critically and holistically about design problems and to develop effective, creative, socially and environmentally responsible design solutions.

The mission of the Interior Design program is to provide a comprehensive educational experience that prepares students to be creative, responsible, ethical, interior designers who are qualified to successfully enter the design profession, gain the necessary experience to successfully complete the NCIDQ examination, and contribute to the health, safety and welfare of society and the planet. The program prepares students to draw upon critical and analytical thought processes in order to meet the current demands of professional practice and engender them with the means to develop life-long learning skills to positively impact the future of interior design.

The Green Design Area of Specialization option allows students to investigate and apply advanced studies in green/sustainable design using methods, products, and processes that minimize the ecological impact of design and construction upon the earth and its species.

Requirements for
Area of Specialization in Green Design:
Students are responsible for formally declaring the Green Design Area of Emphasis, with the Registrar’s Office prior to enrolling in ID 3810 Office Design or in ID 3860 Restaurant + Retail Design. Students must officially declare the Green Design Area of Specialization in order for it to be indicated on permanent student records. The two courses below are taken in lieu of 6 credit hours of

**Studio Elective Requirements:**

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ID 3200 Green Design 2</td>
<td>3</td>
</tr>
<tr>
<td>ID 4200 Green Design 3</td>
<td>3</td>
</tr>
</tbody>
</table>

In addition to the required coursework,
1. Students must complete a total of no less than 3 major design projects emphasizing green design solutions within the following courses: Residential Design, Restaurant and Retail Design, Office Design, Special Use Design.
2. Students must focus upon innovative green design solutions within Design Thesis and Senior Project.

**RMCAD's CIDA-accredited (Council for Interior Design Accreditation) Interior Design program follows a strict and logical sequence of specific studio courses, which increase in difficulty. Each course in this sequence builds upon the knowledge and skills acquired from previous courses and therefore must be taken one per term in the following order:**

- **Semester 1:** ID 1820 Drafting
- **Semester 2:** ID 2850 Basic Space Planning
- **Semester 3:** ID 2860 Residential Design
- **Semester 4:** ID 3810 Office Design* 
- **Semester 5:** ID 3860 Restaurant + Retail Design* 
- **Semester 6:** ID 4870 Special Use Design
- **Semester 7:** ID 4990 Senior Design Project

*Courses #4 and 5 are interchangeable in the sequence. The prerequisites for both courses are the same; therefore either course may be taken directly after ID 2860 Residential Design. Students who do not transfer or receive portfolio credit for any of the above courses will require a minimum of seven terms to graduate.
Continuing Education
Rocky Mountain College of Art + Design offers continuing education programs for the non-traditional student. Geared toward design professionals, art educators and high school students but open to the general public, these courses are designed to sharpen participants’ art and design skills. Created with the student’s busy schedule in mind, CE courses are non-credit and short. Class length varies from two weeks to fifteen weeks or one day weekend workshops. There are also week-long courses during the summer term.

Professional Development Programs for Adults
Professional development opportunities include certificate programs, specialized courses, and weekend workshops. The Certificate Programs are designed to be completed within one term. Specialized courses and workshops are available in Interior Design, Web Design and Graphic Design. Art Educators licensed in the State of Colorado can receive Continuing Education Unit contact hours for all non-credit Continuing Education courses. Weekend workshop topics include illustration, animation, painting, and drawing.

High School Programs
The Pre-College Art + Design Academy is designed specifically for high school students who are serious about art and design and want to build on their existing skills. Programs include classes and workshops offered year round, and art camps during the summer months. High school students looking for intensive week-long art and design programs can register for a Summer Camp or an Intensive workshop. Areas of study include illustration, graphic design, animation and foundation studies.

Current course offerings can be found by visiting www.rmcad.edu and clicking on ‘Continuing Education or High School Programs, or by calling 800.888.ARTS or the Continuing Education office directly at 303.225.8570.

SBS Social + Behavioral Science
WO Communication + Critical Thought

Definitions
Prerequisite: A course that must be taken prior to a given course.
Co-requisite: A course that may be taken before or at the same time as a given course.
Concurrent Requisite: A course that must be taken at the same time as a given course.

Independent Study
Independent Study is a course intended to give upper-level exceptional students an opportunity for individualized and specialized study in an area of art or design not offered in the regular curriculum. The purpose is to explore an area of personal interest related to a student’s major field of study, wherein the teaching and learning occur outside of a formal classroom setting. A Junior or Senior level student with a GPA of 3.5 or higher may petition to take one three-credit Independent Study course as part of the degree program. The Independent Study Proposal Form must be accompanied by a syllabus created by the instructor and student, including a course description, calendar, rationale, goals and objectives. The course number for all Independent Study courses is 3990; and the prefix reflects the program of study under which the course is instructed (e.g., AN 3990, FA 3990).
Art + Design History
AH 1010
Art + Design History 1: Ancient to Medieval (3 credits)
In the first of four required courses in the history of art and design, students explore the major artists, movements and artistic themes of the Western tradition, beginning with Prehistoric art and concluding with the Gothic in the late thirteenth century. Lectures and readings examine ways in which artists conceive of religion, society, politics and the role of men and women within their historical and stylistic context. In addition, the course considers various media and materials, such as painting, sculpture, and architecture, and the fundamentals of design and composition. At the conclusion of this course, students will recognize a broad range of artists, works, and styles from ancient to medieval art. Further, students will learn to conduct research within the discipline of art history, and write knowledgeably on topics from ancient to medieval art.
Prerequisite: none

AH 1020
Art + Design History 2: Renaissance to Contemporary (3 credits)
In the second of four required courses in the history of art and design, students explore the major artists, movements and artistic themes of the Western tradition, beginning with the Renaissance and concluding with contemporary art of the twenty-first century. Lectures and readings examine ways in which artists conceive of religion, society, politics and the role of men and women within their historical and stylistic context. In addition, the course considers various media and materials, such as painting, sculpture, and architecture, and the fundamentals of design and composition. At the conclusion of this course, students will recognize a broad range of artists, works, and styles from Renaissance to contemporary art. Further, students will learn to conduct research within the discipline of art history, and write knowledgeably on topics from Renaissance to contemporary art.
Prerequisite: AH 1010 Art + Design History 1: Ancient to Medieval

AH 2010
History of Art + Design in the Nonwestern World (3 credits)
In the third of four courses focusing on the history of art and design, students study the painting, sculpture, craft, architecture and design of Africa, India, Southeast Asia, China, the Pacific, and the Americas. Students encounter appropriate works from the prehistoric period to the present, exploring the cultural, religious, political and historical circumstances of their creation. Nonwestern art and design are studied both in their own national and cultural contexts and from the perspective of the European cultures.
Prerequisite: AH 1020 Art + Design 2: Renaissance to Contemporary

AH 3010
Advanced Studies in the History of Art + Design (3 credits)
In the last of four required courses, students concentrate on one topic in the history of modern and contemporary art and design. Advanced studies are designed to allow students to focus intensively on theories, issues, and theoretical frameworks that define twentieth and twenty-first century art and design. Lectures, readings and assignments emphasize research, writing, and oral presentations. Topics vary from one semester to another. Sample topics include: Modern Latin American Art, Abstract Expressionism, The History of Photography, Modern German Art. At the conclusion of this course, students possess a deeper understanding of art historical movements, methods, and theories. Further, students refine and deepen their research and writing skills, researching and writing knowledgeably on topics from the course.
Prerequisite: AH 2010 History of Art + Design in the Nonwestern World

Humanities + Contemporary Thought Seminars
HU 2010
Humanities Seminar 1 (3 credits)
This is the first of three courses in which students examine important intellectual and social currents of the past in order to develop a broad context and perspective from within which to evaluate their culture, their own work as artists, and their lives as human beings. Students read primary source materials from a wide range of disciplines, including philosophy, social and political history, drama, poetry, fiction, music, sciences and religion. The goal of this course is not to provide full historical “coverage,” but to give students a basic intellectual vocabulary with which to engage in honest self-examination and thoughtful, reflective discourse.
Prerequisite: WO 1060 Philosophy of Art + Design

HU 2050
Humanities Seminar 2 (3 credits)
This is the second in a series of three courses in which students examine important intellectual and social currents of the past in order to develop a broad context and perspective from within which to evaluate their culture, their own work as artists, and their lives as human beings. Students read primary source materials from a wide range of disciplines, including philosophy, social and political history, drama, poetry, fiction, music, sciences and religion. The goal of this course is not to provide full historical “coverage,” but to help students develop increasingly sophisticated intellectual vocabulary with which to engage in honest self-examination and thoughtful, reflective discourse.
Prerequisite: HU 2010 Humanities Seminar 1
HU 4015
Seminar in Contemporary Thought: History and Theory of the Body (3 credits)
Students examine important intellectual and social currents of the past in order to develop a broad context and perspective from within which to evaluate their culture, their own work as artists, and their lives as human beings. In this final course, students focus on contemporary intellectual debates within aesthetic and social theory. At the conclusion of the course students will have developed paradigms to understand the body from a variety of forms and across disciplinary and institutional contexts.
Prerequisite: HU 2050 Humanities Seminar 2

HU 4020
Seminar in Contemporary Thought: Theatre Studies (3 credits)
Students examine important intellectual and social currents of the past in order to develop a broad context and perspectives from within which to evaluate their culture, their own work as artists, and their lives as human beings. In this final course, students focus on contemporary intellectual debates within aesthetic and social theory. At the conclusion of the course students will have developed a heightened awareness of theatre through a multi-disciplinary study, incorporating both theoretical perspectives and practical experiences.
Prerequisite: HU 2050 Humanities Seminar 2

HU 4030
Seminar in Contemporary Thought: Identity and Power (3 credits)
Students focus on contemporary intellectual debates within aesthetic and social theory. “Identity and Power” examines the role of society and culture in the construction of gender and ethnic differences in the American historical and contemporary contexts. As a result of work in this course, students will: know the history of the feminist movement and the civil rights movement in the United States from the 1800’s to the present; understand the impact of these movements on politics and self-identity; critically examine the role of society and culture in the construction of gender and ethnic differences; understand and use social theory to explore social inequalities.
Prerequisite: HU 2050 Humanities Seminar 2

HU 4035
Seminar in Contemporary Thought: The Cultural Politics of Consumption (3 credits)
This is the third in the series of three courses in which students examine important intellectual and social currents of the past in order to develop a broad context and perspective from within which to evaluate their culture, their own work as artists, and their lives as human beings. This seminar focuses on the activity of consumption in a variety of forms, emphasizing the various relations of human beings to the goods they produce, desire, exchange, and use. In this final course of the Humanities series, students focus on contemporary intellectual debates within aesthetic and social theory. Thus students develop a broad familiarity with the nineteenth century rise and twentith century development of economic trends and their impact on philosophical, historical and social relations. Further, students gain a greater awareness of the complexities of economic structures and systems that permeate every aspect of contemporary culture.
Prerequisite: HU 2050 Humanities Seminar 2

Mathematics
MA 1210
Basic Mathematics (3 credits)
For students who need a fresh start, this course will cover the basic mathematical concepts and skills that are relevant to anyone. This course starts with elementary mathematical operations, followed by the basic concepts of functional analysis, graphs, algebra, geometry, trigonometry, probability and statistics. Concepts will be introduced with examples that emphasize problem solving using visualization of the problem. Applications will address the many manifestations of mathematical laws in nature. Intended for those with little mathematical background. At the conclusion of the course, students will be able to solve simple mathematical equations, use and understand graphical methods, understand the mathematics of patterns found in nature and art, and appreciate the relevance of mathematics to everyday life: general scientific issues, polls, finance and business.
Prerequisite: none

MA 1215
Applied Mathematics (3 credits)
This course introduces students to aspects of mathematics that are particularly relevant to art and design. A basic knowledge of mathematics is required (first year of high school level). Topics include: numeric and geometric patterns in art and nature (Fibonacci series, tiling), symmetry, perspective, polyhedra, equations and graphs of trajectories, computer graphics, and fractals. At the conclusion of this course, students will be able to apply mathematical equations to solve problems related to the topics listed above.
Prerequisite: none

MA 1220
Financial Principles + Practices (3 credits)
Students are exposed to the principles and practices of financial management in the contemporary world. Topics include basic financial concepts and tools, business plans, financial statement analysis, and working capital management investment strategies. Students set an earning goal and design a business plan and investment strategy to reach that goal.
Prerequisite: none

Physical + Natural Science
NS 2015
Climate Change (3 credits)
This course examines climate change from the perspective of several scientific disciplines. The class will introduce students to scientific thinking with concepts from plant ecology, glaciology, earth science and meteorology. Students will learn how scientists have begun to understand the earth as an integrated system. Special note will be taken of features in the intermountain West such as snowfields, glaciers, gas, oil and coal fields and emerging trends in energy use. At the conclusion of this course students will have the tools to critically evaluate climate issues using scientific principles to critique a rapidly evolving world of conscious consumerism and energy use.
Prerequisite: WO 1060 Philosophy of Art + Design
**NS 2020**  
**Earth Science (3 credits)**  
This course introduces students to the major processes responsible for the physical appearance of our planet and for the changes in our environment. Through the study of minerals and rocks, and through field trips to explore the striking geology of Colorado, students study plate tectonics, volcanism, oceanography and ecological issues. Students explore the connections between art and design and earth science.  
*Prerequisite: WO 1060 Philosophy of Art + Design*

**NS 2030**  
**Life Science (3 credits)**  
Students explore the basic aspects of life on Earth, including its requirements and patterns; its basic units; the organization of the living world; and the interdependence of living organisms. The concepts of flow of matter and energy; heredity and natural selection; population dynamics; and community interactions are also examined. Field trips and case studies are used to evaluate the living world. After completion of this course, students will be able to understand how biology explains the living world, and to address the questions of evolution and ethics that face the world today.  
*Prerequisite: WO 1060 Philosophy of Art + Design*

**NS 3050**  
**Human Ecology (3 credits)**  
Human Ecology examines our relationship to the environment through an analysis of our historical and theoretical understanding of the relationship amongst the environment, our biology, and our cultures and through a review of ecological principles and terms. Topics will include, amongst others, disease, sustainability, famine, and pollution at the local and global levels. At the conclusion of the course, students will be able to knowledgeably discuss and write about the key theories in ecological anthropology, including the historical contexts in which they arose and environmental issues within the contexts of politics, economics, culture, and the environment.  
*Prerequisite: WO 1060 Philosophy of Art + Design*

**Social + Behavioral Science**

**SBS 2010**  
**Anthropology (3 credits)**  
Anthropology is the study of human beings throughout time and across space. In this course, students explore human evolution, our place in the animal kingdom, our knowledge of others, and our knowledge of ourselves through a focus on specific peoples and cultures. Students also critically evaluate our perceived understanding of other cultures and the role of that understanding in our own culture. Outcomes: Students will learn about a variety of cultures; grasp and use the principles governing the discipline of anthropology, including its methods of research and writing.  
*Prerequisite: WO 1060 Philosophy of Art + Design*

**SBS 2020**  
**Social Psychology (3 credits)**  
Students investigate the multitude of environmental elements that contribute to the development of the personality or the “self.” Humans are born into a preexisting world of social demands and expectations, and so each person’s entry into and journey through that world shapes the personality in many ways; the individual journey takes place in the midst of social forces over which one has little or no control. This course provides an understanding of the balance between the internal workings of individuals and the external forces surrounding them.  
*Prerequisite: WO 1060 Philosophy of Art + Design*

**SBS 3030**  
**World Belief Systems (3 credits)**  
Students explore the nature and function of belief structures or “world views.” The dynamic, living relationship between a religious organization or world view and its immediate cultural environment provides a “living laboratory” for the study of beliefs and believers. Students will gain initial exposure to Hinduism, Buddhism, Taoism, Confucianism, Judaism, Christianity, and Islam. The course focuses on the understanding of basic tenets of, as well as the similarities and differences between, belief systems and on developing tolerance for others’ views.  
*Prerequisite: WO 1060 Philosophy of Art + Design*

**SBS 3040**  
**Biological Anthropology (3 credits)**  
Biological Anthropology examines human biology and genetics within an evolutionary framework. Beginning with basic genetics, students explore how we are similar to other animals and how we are unique. From this foundation, the uses, ramifications, and ethics of our knowledge of our biology and genetics will be studied and discussed. At the end of the course students will be able to knowledgeably discuss and write about biological anthropology, genetics and related ethical implications; human evolution; and our biological and genetic adaptations to the environment.  
*Prerequisite: WO 1060 Philosophy of Art + Design*
Communication + Critical Thought  
**WO 1020**  
Written + Oral Communication (3 credits)  
This is the first course in the Liberal Studies sequence and serves as an introduction to college-level reading, writing, discussion and presentation. Relying upon significant works from our intellectual tradition as stimuli, students will increase their writing skills using a number of different genres and further develop oral communication skills commensurate with those required at the college level.  
**Prerequisite:** must be taken concurrently with choices for their own academic careers.  

**WO 1025**  
Written + Oral Communication Lab  
Written and Oral Communication Lab is designed to promote student success in college. By focusing on strategies and skills critical to academic progress and to personal adjustment, students become successful in college and throughout adult life. Six major topics such as research methods and are addressed within the Lab curriculum. Each topic is introduced within a large group session, then explored in depth within small group sessions. Students attend twelve sessions altogether, with the first session scheduled during Week 3 of the semester. At the conclusion of the labs students will demonstrate increased understanding of what academic success entails and be empowered to make appropriate choices for their own academic careers.  
**Prerequisite:** must be taken concurrently with WO1020 Written + Oral Communication

**WO 1060**  
Philosophy of Art + Design (3 credits)  
In this second and final course in freshman reading and writing, students explore major paradigms of aesthetic theory. Building upon the work of WO 1020, WO 1060 challenges students to greater complexity of thought and greater competency in verbal and written argumentation. Together, WO 1020 and WO 1060 provide the foundations for the rest of the Liberal Studies curriculum. Thus students will develop information literacy and research abilities, will critically examine the understanding of their own aesthetic, and will foster appropriate levels of communication necessary to proceed in their college careers.  
**Prerequisite:** WO 1020 Written + Oral Communication and WO1025 Written + Oral Communication Lab

Art Education  
**AE 2210**  
Introduction to Art Education (3 credits)  
Field experience/observation hours: 30 clock hours in a public or private school setting. The goal of this lecture/field experience class is to introduce philosophical issues about art education, and to anticipate the practical application and resolution of these issues. It is a philosophical investigation of the historical, social, political, psychological, and educational concepts, pursued to practical ends. A translation of theory to practice structures the course. Additional concepts address legal responsibilities and educational advocacy. Students research introductory and basic elements of curriculum design, lesson/unit plans, and assessment strategies. They generate applicable and pedagogically sound solutions addressing whom to teach, what to teach, how and when to teach. Students will author content and performance standards and design assessment tools that confirm learning. The course will test the student's own beliefs about art and education against the thoughts that others have documented in addressing art and education issues. At the conclusion of this course, students will be familiar with leaders in art education and the issues and debates that currently define the field. Utilizing classroom observations and hands-on teaching practice, students will gain the knowledge to engage in learning and teaching as a reflective and active process. They will also have the ability to write lesson and unit plans, and practice effective assessment strategies for K-12 students.  
**Prerequisite:** must be an Art Education major

**AE 2220**  
Philosophy of Art + Education (3 credits)  
Field experience/observation hours: 30 clock hours in a public or private school setting. This course discusses and analyzes some philosophical issues in art and education, and their historical context. Students analyze the differences between and similarities among many philosophies, and examine how each led to and affect one another as well as society and culture. At the conclusion of this course, students will develop an individualized philosophy of art and education. Students will be able to identify theories and philosophies in action through readings, discussions, and field observations in K-12 classrooms, and they will better understand current debates in art education and how they affect society and culture.  
**Prerequisite:** WO 1060 Philosophy of Art + Design; must be an Art Education major

**AE 2230**  
Psychology of Creativity (3 credits)  
Field experience/observation hours: 30 clock hours in a public or private school setting. This course offers an in-depth study of the aspects of the human personality that support or block creative impulses. The material includes discussion of well-known creative people in all disciplines including science, literature, music, and art. Students examine how both positive and negative aspects of personality influenced these creative people’s work. Students will explore the influence of culture and social standards on creativity and will further understand their own personal creative process and style. At the conclusion of this course, students will be able to apply the principles of psychology to the process of creativity. Through assignments, papers, observations, and readings, students will understand the complexity of creative thinking and how it applies in K-12 art education.  
**Prerequisite:** WO 1060 Philosophy of Art + Design; must be an Art Education major
**AE 2240**

**Instructional Technology (3 credits)**

Students learn applications that support instruction and enhance student learning, including the use of the computer as an image-making tool. Skills at various levels include: technical use of the computer, spreadsheets, databases, presentation software, and use of the internet. At the conclusion of the course students will be able to use the computer for a variety of teaching situations, track and analyze student progress, prepare and deliver visual presentations.

*Prerequisite: none; must be an Art Education major*

---

**AE 3220**

**Teaching in a Multicultural Environment (3 credits)**

Field experience/observation hours: 30 clock hours in a public or private school setting. This course will prepare students for teaching in the culturally rich environment of America’s schools. Students will understand the accepted definition of diversity and how to deliver content that assures successful outcomes to all learners. Students will learn how race, culture, and immigration affect society. Specific areas of study will include the contributions of Native American, African, Hispanic, and Asian cultures to the United States’ democratic society, and how work, leisure and essential belief systems affect the individual learner, as well as group culture. At the conclusion of this course, students will be able to define what culture is, and how culture affects and is affected by education; differentiate between additive and transformative multicultural curricula; and develop lesson plans that address the needs of diverse learners.

*Prerequisite: WO 1060 Philosophy of Art + Design; must be an Art Education major*

---

**AE 3230**

**Jewelry (2 credits)**

This metal working and jewelry making course has an emphasis on K-12 projects. Professional applications include basic fabricating, forging, lost-wax casting, stone setting, soldering, joining, fastening and forming, patinas and other surface treatments. At the conclusion of this course, students will understand basic jewelry techniques and develop projects for utilization in the K-12 classroom.

*Prerequisite: FD 2120 Visual Design 2*
AE 3280
Statistics: Assessing Learning + Teaching (3 credits)
Field experience/observation hours: 30 clock hours in a public or private school setting. The course introduces basic statistics principles and applies them to the purposes for and approaches to assessment, both traditional and alternative. Study includes quantitative and qualitative methods for assessing student performance in art and design, as well as, course and program effectiveness. Included are basic statistical principles. Various assessment strategies documented in the RMCAD assessment/evaluation model are analyzed. Proficiencies are determined by measuring the student's ability to organize data, plan teaching effectiveness, devise and demonstrate assessment and evaluation instruments and methodologies. At the conclusion of this course, students will have learned basic statistical methods for data collection and analysis for the purpose of assessing teaching and learning in K-12 schools. Students will also become familiar with how to assess their own teaching skills and to recognize the importance and methods of assessing student learning in the classroom.
Prerequisite: AE 2210 Introduction to Art Education; must be an Art Education major

AE 4240
Classroom Management (3 credits)
Field experience/observation hours: 30 clock hours in a public or private school setting. The goal of this course is to enable teacher candidates to design, organize, and facilitate positive learning environments. They observe, document, devise, and discuss consistent teacher behaviors that produce high levels of student involvement in classroom activities and minimal amounts of student behaviors that interfere with work. Proficiencies are determined by the candidate's ability to plan and design clear expectations about appropriate and inappropriate behavior, efficient use of time, room organization, traffic pattern, dissemination of materials, cleanup, and project storage. Study includes the teaching cycle, teacher threat cycle, positive characteristics of classroom managers, and prescriptions for effective management of the classroom and instruction. Legal rights, due process, and school governance augment the course objectives.
Prerequisite: AE 2210 Introduction to Art Education; must be an Art Education major

AE 4250
Student Teaching: Elementary (7 credits)
Field experience/observation hours: 300 clock hours in a public or private school setting. This is an extended field experience and mentorship. The student teacher spends a minimum of six weeks in an elementary school setting and a minimum of nine weeks in a secondary school. The student teacher has the opportunity to implement their teaching abilities in actual school classrooms. The student teacher is observed, guided, and coached by a cooperating teacher in the accredited public or private school and a supervising teacher from the college. The cooperating teacher has a minimum of three years experience in teaching art. Responsibility for taking over the teaching by the RMCAD student teacher is gradually increased, allowing growth in a safe, supervised environment. The student teacher will keep a reflective journal and learning portfolio as an assessment instrument and a future resource. Feedback is consistently given and documented. A summative evaluation of the student teacher's performance establishes proficiencies, which are translated into a Pass/Fail grade. The student teaching seminar is taken concurrently. Longer student teaching experiences can be implemented if agreed to by both the cooperating teacher and the student teacher; however, maximum credit hours awarded for elementary are seven and for secondary are eight.
Prerequisites: All AE courses, field hours completed and all required studio classes. Concurrent requisite: AE 4260 Student Teaching: Secondary and AE 4930 Student Teaching Seminar; must be an Art Education major

AE 4260
Student Teaching: Secondary (7 credits)
Field experience/observation hours: 300 clock hours in a public or private school setting. Please refer to AE4250 for the course description.
Prerequisites: All AE courses, field hours completed and all required studio classes. Concurrent requisite: AE 4250 Student Teaching: Elementary and AE 4930 Student Teaching Seminar

AE 4930
Student Teaching Seminar (2 credits)
This capstone, culminating course is taken concurrently with student teaching. Student teachers share experiences, challenges, celebrations, concerns, and strategies from their student teaching assignments. The course content is based on real-life, ethnomethodographic experiences and events that impact philosophy, theory, and practice. Other seminar objectives include career opportunities, interview strategies, résumé critique, and portfolio assessment. Proficiencies are determined by quantity of participation and quality of shared insights, observable application of discussions and solutions, and the demonstration of knowledge, skills, and strategies that make up the content of all art education and education course work.
Concurrent requisite: AE 4250 Student Teaching: Elementary and AE 4260 Student Teaching: Secondary

Animation
AN 1310
History of International Animation (3 credits)
This course explores the evolution of the animation art form, its ways of expression, the power of its language, symbolism, variety of mediums, communication of ideas, political viewpoints, creation of impact and mood. Students study the visual and design styles of both commercial and independent animation from America, Western Europe, Eastern Europe, and the Far East. At the conclusion of this course, students will understand the art of animation from its early roots through the present, having studied the development of animators, studios, technologies, styles, business, and the influence of social/political change.
Prerequisite: none
AN 2230
Fundamentals of Animation (3 credits)
This course focuses on gaining an understanding of the basic principles of movement, which form the foundation of both 2-D and 3-D animation. Students analyze motions of people and objects, and translate that knowledge into animation. Motion attributes such as gravity, weight, spacing and timing are studied, in order to create animation that is believable and that expresses mood and personality through a character's individualized movement. Also discussed are various technical aspects of animation filmmaking, typical production workflows, and standard industry terms and tools. At the conclusion of this course, students will have a clear understanding of motion dynamics and the associated practices and principles of animation that provide a strong foundation for their continuing animation studies.
Prerequisite: none

AN 2330
Experimental Animation/ 2-D + Mixed Media (3 credits)
This course begins with a broadened definition of the word “animation”: a viewpoint of the animator as artist, and an emphasis on the importance of the concepts an animator brings to explorations of frame-by-frame filmmaking. Hands-on experimentation includes a variety of non-standard techniques and materials: pixilation, painting and scratching on film, cut-out collage animation, sand or gravel animation, silhouette animation. Students study the work of early and contemporary experimental animators. By the conclusion of the course, students have learned to utilize numerous innovative methods for creating animation and developed their ability to integrate an experimental approach when working with more conventional 2-D and 3-D animation production techniques.
Prerequisite: AN 1310 History of International Animation

AN 2340
Tools + Techniques of Contemporary Animation (3 credits)
Students are introduced to the digital tools necessary to integrate animated, live action and still imagery into a final video production. Techniques include image capture and manipulation, matte generation and keying, keyframe animation using layered digital images, color correction and special effects. Students each create a customized interactive DVD, using rendered class productions. At the conclusion of this course, students will have learned to composite a variety of digital elements, correct and eliminate inherent problems, and enhance the video imagery with effects.
Prerequisite: FD 1010 Digital Image Making

AN 2360
Drawing + Acting for Animation (3 credits)
Drawing and Acting for Animation requires a solid understanding of human and animal anatomy and behavior. Within the course, students work in a studio life-drawing environment, and participate in field trips focused on the outdoor lab, character model building and sculpture. Simplified drawing technique is examined, along with character behavior as it applies to “moving drawings,” with an emphasis on mass, volume, structure, and design. By the end of the course, students have learned the value of solid character structure, how to create drawings that convey emotion and how to more effectively create key poses and realistic facial and body expressions.
Prerequisite: AN 2310 Creative Visualization and AN 2230 Fundamentals of Animation

AN 2370
3-D Computer Animation Modeling (3 credits)
The methodology and technique of modeling for three-dimensional animation -- space, form and surface -- are introduced in this course. Students are introduced to a 3D animation environment and strategies for model creation of animate and inanimate forms, with which anything imagined can be created. By the conclusion of the course, students have completed the first step in building a 3D skill set, evidencing expertise in the design and creation of 3D model geometry.
Prerequisite: FD 1010 Digital Image Making

AN 2420
Animation Sound Design + Video Production (3 credits)
Students learn sound design and production for creation of dialogue, sound effects, and music tracks. Recording techniques for the creation of these audio elements are studied and practiced. Video production, including DV camera operation and non-linear editing will be studied in the second half of the term. Sound and video editing as well as pre-visualization software are used to link and finish these elements of the animation post-production process. At completion of the course, students will demonstrate an understanding of the fundamental principles of video editing and sound design, and their practical application to an understanding of animation production. Through numerous tutorials and individual projects, students will evidence comprehension and creative application of course material.
Prerequisite: AN 2340 Tools + Techniques of Contemporary Animation
AN 3000
Animation Sophomore/Junior Portfolio Review
(non-credit graduation requirement)
Students who have completed 60 – 90 credit hours must participate in a First Animation portfolio review. Each student’s portfolio is critiqued for style, creativity, composition, color, execution and presentation of the work, with direction of how to improve the work.
Prerequisite: FD1990 Freshman Portfolio Review

AN 3305
Animation Media Delivery Techniques (3 credits)
The final step in the animation creation process is the delivery to an audience. Students may study HDTV, IMAX, multi-view dimensional imaging, rapid prototyping, mobile video and robotics. They participate in studio work applying their own animation techniques to some of these new formats. At the conclusion of the course, students will have developed strategies and experience in assessing future technologies and integrating them into their own animation work flow.

AN 3310
Character Animation + Motion Studies (3 credits)
This class continues to develop the student’s skills in motion analysis. More advanced action and movement concepts are introduced. Further study of human and animal locomotion is covered. Students are encouraged to develop some of their own characters in the latter half of the course and will begin to investigate personality and emotion in their animation. Other subjects covered during this class will be dialogue or lip sync and effects animation, such as fire, smoke, rain and snow. At the conclusion of this course, students will have a greater understanding of weight, motion, timing, and various aspects of drawing as they relate to believable character animation.
Prerequisite: AN 2360 Drawing + Acting for Animation

AN 3320
2-D Computer Animation (3 credits)
This course deals with the preproduction, scanning, digital ink and paint, and postproduction techniques of traditional hand-drawn animation. Individual projects include work with digital camera moves, 3-dimensional space, sound editing and scene timing. Each project is designed to be suitable for a demo reel, encouraging students to challenge and exceed current expectations of their abilities. At the conclusion of this course, students have a body of work that represents attention to professional 2D computer production techniques, and several creative shorts appropriate for demo reels. Students must demonstrate an ability to adhere to a demanding schedule and evidence an understanding of 2D digital pre-production and post techniques, as well as creative filmmaking and direction.
Prerequisite: AN 2340 Tools + Techniques of Contemporary Animation

AN 3341
2-D Animation Thesis 1 (3 credits)
Students direct their knowledge of 2-D hand layout and drawing, scanning, digital ink and paint knowledge into designing, planning, and producing a high quality animation, including sound and computer post-production. At the conclusion of the course, students will have completed a schedule of milestones, including script/storyboard, schedule development, design and layout of characters and sets, acquisition of music, effects and dialog, and the production of an animatic of the story. Subsequently, within AN 3840, students will produce and post the film.
Prerequisites: AN 1310 History of International Animation

AN 3342
3-D Animation Thesis 1 (3 credits)
Students direct their knowledge of 3-D computer modeling, surfacing, lighting into designing, planning and producing a high quality animation, to include sound and computer post-production. At the conclusion of the course, students will have completed a schedule of milestones, including script/storyboard, schedule development, design and modeling of characters and sets, acquisition of music, effects and dialog, and the production of a pre-visualization of the story. Subsequently, within AN3840, students will produce and post the film.
Prerequisite: AN 2420 Animation Sound Design + Video Production

AN 3350
Stop Motion Animation (3 credits)
Using clay figures and wire armature puppets, students will explore the world of stop motion animation. Application of fundamental animation principles in a stop motion setting is emphasized, along with expression of personality through movement. Students will gain experience with techniques and concepts for lighting dimensional characters and sets, and will analyze outstanding examples of stop motion animation. At the conclusion of this course, students will have learned how to: build a puppet suitable for animation; operate a camera and software for capturing their work; achieve smooth movement and believable timing in stop motion animation.
Prerequisite: AN 2420 Animation Sound Design + Video Production

AN 3360
3-D Computer Animation Concepts + Techniques (3 credits)
Students who have become skilled in traditional 3-D computer modeling methodologies and skills are introduced to intermediate and advanced levels. Concepts and techniques required for forthcoming productions are practiced using the high-end power of 3-D computer animation.
Prerequisites: AN 2230 Fundamentals of Animation and AN 2370 3-D Computer Animation Modeling

AN 3380
Scriptwriting for Animation (3 credit elective)
This course is designed to give students an opportunity to experience another facet of animation pre-production: the script. Students develop a rough story idea, including characters, settings, conflicts, resolutions, and develop of a final, 22-minute script. Several smaller creative assignments lead to the final project. At the conclusion of the course, students will understand how to write a short script, have a body of creative pre-production suitable for animation development, and understand the aspects of storytelling that make a film memorable and successful.
Prerequisite: AN 2310 Creative Visualization
AN 3660
3-D Computer Animation Lighting + Materials (3 credits)
The class is for the advanced study of 3-D lighting techniques and materials creation. 3-D students study lighting theory as it relates to the synthetic animation environment, range from a photo realistic style to 3-D cell shading style. Materials creation techniques range from photographing the real world for textures, to sophisticated procedural shader network design. Upon completion of this course, students will understand and employ the art and science of creating and manipulating lighting and surfaces in a 3D animation environment. Prerequisite: AN 3360 3-D Computer Animation Concepts + Techniques

AN 3720
3-D Computer Animation Motion Studies (3 credits)
Students learn how to animate and analyze 3D movement as a means of expressing weight, gravity, dynamics and choreography of human and animal motions, as well as the influence of physical laws upon them. Studies include key framing, inbetweening, creative phrasing and timing, and use of the many tools available in a 3D environment. Upon completion of this course, students will have gained practical knowledge of the technical requirements necessary to produce believable character animation. In addition, they will have gained valuable insight in terms of creative thinking and how to impart personality, expression, and emotion into a 3D character. Prerequisite: AN 3660 3-D Computer Animation Concepts + Techniques

AN 3840
2-D/3-D Animation Thesis 2 (3 credits)
This second thesis class provides students with continued opportunity to create and produce an animated film that further expands their styles, skills and techniques. Students utilize pre-production progress gained within AN 3341 and AN 3342. Following the schedules developed in Thesis I, students are able to successfully complete the animation production process. Using the plan visualized through the animatics, students work through tasks and problems as each shot is animated and rendered. Post production includes editing the shots, syncing all sound and music and final delivery and projection of the film. At the conclusion of the class, students have completed the process of animation production and the film envisioned in Thesis I. Prerequisites: AN 3341 2-D Animation Thesis 1 or AN 3342 3-D Animation Thesis 1

AN 4000
Animation Senior Portfolio Review (non-credit graduation requirement)
The Senior Portfolio Review is scheduled at the end of the term preceding the final term of study. The review begins students’ preparation for the graduation exhibition and for transition from the academic environment to the professional world. The student’s demo/graduation show reel is critiqued by department faculty, as well as discuss about their post graduation plans. Prerequisite: AN 3000 Animation Sophomore/ Junior Portfolio Review

AN 4010
Animation Layout + Production Design (3 credits)
Students explore different stylistic approaches for individual animated productions, and design original characters and environments. Areas of study include perspective, character and prop model sheets, background and character layouts, and proportion sheets (for multiple characters in a production). In addition, students produce full color samples of their master backgrounds and color keys of the main characters. Upon completion of this course, students will have a greater working knowledge of perspective and composition, knowledge of how these pertain to cinematic motion and design, and several finished works for their portfolios. Prerequisite: AN 310 Character Animation + Motion Studies or AN 3720 3-D Computer Animation Motion Studies

AN 4130
Business, Ethics + Copyright for Animation (3 credits)
Students learn about business practices in the animation industry, including business organization and operation as employer or employee, studio specialist or freelance generalist. Current and historic developments in copyright law are studied, as well as the ethical/non-ethical uses of animation. At the conclusion of this course, students will have assessed their animation education through the lens of the reality of the business world, and assessed their expectations for a career in animation. Students will understand the realities of the budgeting process, learned procedures for legal use and protection of copyright, and developed an understanding of the ethical use of this art form. Prerequisite: AN 1310 History of International Animation

AN 4310
Design + Animation for Games (3 credit elective)
This elective is an introduction to the arena of interactive game design. Students create digital animations that may be used in game design and creation. At the conclusion of the course, students understand the foundations of good game design, including story development, level design and modeling, lighting and texturing. Prerequisite: AN 3360 3-D Computer Animation Concepts + Techniques

AN 4330
Animation Collective 1 (3 credits)
This course is designed to simulate a real production studio environment. Students work together to produce a high-quality short film. Together, students combine their ideas into a cohesive theme, using skill sets learned in previous courses. Students’ collective knowledge is used to develop an idea, write the script, produce a storyboard, and design the look and feel of the animation. Students experience the importance of successful leadership and team member interactions. At the conclusion of the course, students will have completed the pre-production necessary for AN 4445 Collective 2. Prerequisite: AN 3840 2-D/3-D Animation Thesis 2

AN 4350
Experimental Computer Animation (3 credit elective)
Advanced students explore their creative ideas by stepping outside the boundaries of digital animation technology and art through the historic study and creation of unique animation. This experimental course allows the exploration of various forms of computer animation as a means of expression. Upon completion of the course, students will have expanded their artistic style through the creation of a finished animation. Prerequisites: AN 4420 3-D Advanced Dynamics + SFX
AN 4420
3-D Advanced Dynamics + SFX (3 credits)
Explosions, waterfalls, and flocking birds are just a few of the effects students will learn to create using 3-D dynamics and Special Effects. Harnessing the power of physics and mathematics to control the creation and motion of particles, students will learn to simulate and recreate forces of nature. Once the motion is created, light, color, and texture is applied through software and hardware rendering. These effects are then rendered and combined to create state of the art digital effects composites. At the conclusion of this course students are able to manipulate forces, light, particles, materials, cloth, hair and fluids to solve visual problems in SFX.
Prerequisite: AN 3660 3-D Computer Animation Lighting + Materials

AN 4440
3-D Advanced Character Creation Methods (3 credits)
Students assimilate their traditional abilities and character animation skills into the third dimension. They are exposed to advanced 3-D computer character animation methodology, including advanced modeling, UV mapping, rigging and advanced animation controls such as scripting and expressions. This is considered a Technical Director level class and is very advanced. Upon completion of this course, students understand the workflow of character setup, and have the skills and methodology to develop a functional and clean model with the appropriate control feature rig for any production.
Prerequisite: AN 3720 3-D Computer Animation Motion Studies

AN 4445
Animation Collective 2 (3 credits)
Following AN 4330 Animation Collective 1, this course focuses on completion of the animation production and post-production, including key-frame character animation, effects animation, rendering, editing, and final sound. Students learn the value of cooperation for achievement of a goal, and gain experience in conflict resolution. At the conclusion of the course, the collective team will have successfully completed a high-quality film suitable for entry in film festivals.
Prerequisite: AN 4330 Animation Collective 1

AN 4460
2-D/3-D Advanced Compositing (3 credits)
Students study compositing techniques for matting 2-D and 3-D animation with live action. Techniques include blue/green screen set-up, lighting and camera techniques, using 2D/3D, motion tracking and compositing software. Students explore necessary pre and post-production project planning strategies to ensure seamless results invisible to the viewer. This is an advanced class/ Technical Director level. At the conclusion of the course, students will have practical experience in visualizing, planning, and executing original and innovative approaches to the seamless combination of different layers of art, as well as a finished piece representing the work.
Prerequisite: AN 3320 2-D Computer Animation or AN 3660 3-D Computer Animation Lighting + Materials

Digital Media

DM 1120
Electronic Page Layout (3 credits)
An introductory, interdisciplinary course that addresses the principles of page layout through the use of digital technology. Areas of study will include page layout, page systems, typographic hierarchy, type and image, and the use of grids. At the conclusion of this course the students will demonstrate a basic understanding of typography, paragraph formatting, and grid structures, as it pertains to desktop publishing.
Prerequisite: FD 1010 Digital Image Making

DM 2120
Raster Image Processing (3 credits)
An introductory, interdisciplinary course that introduces the student to an industry-based image manipulation processing program. The designer, illustrator, or fine artist can use the program as a paint, prepress, color correction, and darkroom system. Numerous image effects are possible after black/white or color images have been scanned and/or electronically created. At the conclusion of this course the student will have a proficient understanding of raster images, how they are created, manipulated and output to print or web environments.

DM 3105
User Prototyping (3 credits)
This is a foundation design course that establishes a set of best practices allowing the student to approach digital media through a user centered lens. Students research and explore a variety of pre-visualization methods that are inherent in the online digital environment, merging new tools like user interface, interactivity, visual sequencing and storytelling into their final projects. At the conclusion of this course students will gain a thorough understanding of paper prototyping, user testing, and pre-visualization methods for onscreen environments creating a user centered design foundation for digital media.
Prerequisites: DM 2110 Vector Illustration, and DM 2120 Raster Image Processing
DM 3110
Electronic Prepress
(3 credit elective)
This course will address the industry standard techniques and practices used to prepare files for professional output by a printer or service bureau. It will explore printing techniques and terms associated with designing and producing technically correct files. Field trips to various professional environments will be included for the student to become familiar with what tools and services are available and appropriate for a variety of situations. At the conclusion of this course the student will understand basic printing techniques and terms pertaining to prepress and be able to design and produce technically correct files. Prerequisites: DM 1120 Electronic Page Layout, DM 2110 Vector Illustration, and DM 2120 Raster Image Processing

DM 3115
Web Design (3 credits)
This intermediate course uses the knowledge from DM 3105 User Prototyping and focuses on taking the principles from traditional graphic design and applying them to the online environment. Students are introduced to site architecture, concept mapping and digital code. Web sites will be tested and used for optimal browser display, information architecture and user needs. At the conclusion of this course, students will have gained an understanding of the common challenges of creating and designing interactive media through prototyping, flowcharting, pre-production, production and execution of a final website design. Prerequisite: DM 3105 User Prototyping

DM 3130
Digital Editing (3 credits)
This intermediate course builds on the knowledge of DM 3105 User Prototyping and introduces digital tools to create real time non-linear editing for video and sound. Students learn to use and design digital tools for online environments and apply them to projects that integrate sound, motion and writing. Through the introduction of history, research and storytelling, students create final video and sound productions that will be used for pre-production, production and post-production design projects. At the conclusion of this course, students will have gained an advanced understanding of digital media design through the time based storytelling, theory, pre-production, production and post-production techniques. Prerequisite: DM 3105 User Prototyping

DM 4310
Motion Design
(3 credit elective)
Further enhancing the skills acquired in Digital Editing for broadcast animation. This course is an advanced process in designing and developing 2-D motion graphic titles. Students script, animate, produce and composite sequences for television and film. At the conclusion of this course students will gain enhanced knowledge of the process for designing and creating broadcast digital media projects through the use of scripting, animation, sequencing, titling and final production. Prerequisite: DM 3130 Digital Editing

DM 4320
Interaction Design
(3 credit elective)
This advanced course brings together the tools learned in previous digital media courses. Students will create and design dynamic interactive websites using the new tools of information architecture, animation, digital code and advanced motion design. At the conclusion of this course, students will have increased understanding of information processing and skills in rich media; will have animated and coded a motion interface introduction for online media; and will have designed a functional interactive website. Prerequisite: DM 3115 Web Design

DM 4420
Media Design
(3 credit elective)
Converging multiple skill sets from the interaction and motion design classes into one integrated project approach. This course is the finalization of the Digital Media series. Students design and develop a variety of projects that are versatile across various on-screen environments. At the conclusion of this course students will demonstrate an advanced ability to use all the tools of digital media in previous prerequisite classes and integrate them into a final design project that merges across all areas of the interactive environment. Prerequisites: DM 4310 Motion Design and DM 4320 Interaction Design

Fine Arts
FA 1150
Introduction to Painting
(3 credits)
An introduction to the tools, materials and processes of painting including: building stretcher frames, stretching and preparing the canvas and paint application with various brushes and tools. Topics include: the cultivation of self-expression through exploring basic painting techniques and developing art literacy, including terminology; through critical review and discussion. Upon completion of this course, students will be technically prepared to undertake projects in higher level painting courses. Students will demonstrate in critiques and projects their knowledge of canvas and panel construction, painting techniques, light and color, and an introductory knowledge of contemporary art trends. Prerequisite: none

FA 1250
Introduction to Sculpture
(3 credits)
This course is an introduction to a wide variety of the processes, materials and conceptual aspects of 3-D art making. Students learn to engage their art making in a three-fold approach: critical thinking as a process, attention to materials knowledge and exposure to contemporary and historical artists through lectures. Students investigate formal aspects of sculpture as well as the development of ideas. They expand written and oral communication skills regarding aesthetics and art as they develop and employ research methods by which to nourish their art making. As well, they explore a variety of new working methods: individual, small group and class collaboration. At the conclusion of this course, students will have worked with wood, fibers, metals and other alternative forms to create a coherent body of work. Prerequisite: none
FA 1410
Basic Photography (3 credits)

This course is an introduction to black and white photography; from a working knowledge of the camera through film processing to printing in a darkroom using traditional light sensitive materials. Students will be introduced to the history of photography – its approaches and trends – resulting in a basic knowledge of photography and its relationship to contemporary art. They will begin to explore the relationship between this acquired knowledge in photography and the individual and then begin to apply this knowledge to a realized personal vision through critical thinking and seeing. At the conclusion of this course, students will have a broad understanding of B&W photography and its relationship to contemporary art and will have created a thoughtful portfolio of photographs. Students will need a manual 35mm camera and should expect to spend $100-$150 in materials for this class.

Prerequisite: none.

FA 2015
Seminar in Modern + Contemporary Art (3 credits)

This lecture course focuses on issues, art movements, and criticism from 1950 to the present. Students investigate art through the writings of artists and critics that correspond with, but are not limited to, movements that include: Abstract Expressionism, Pop Art, Minimalism, Earth Art, Process Art, Conceptual Art, Feminist and other political art movements, Video and Multimedia work. Students study important issues and philosophies in contemporary art. Discussions are led by visiting lecturers, and field trips are taken to museums, galleries, and artists’ studios. Course work includes a research project covering contemporary artists and issues.

Prerequisite: AH 1020 Art History 2: Renaissance to Contemporary.

FA 2020
Form and Content (3 credits)

Students thoroughly analyze the total organic structure of a work of art and its meaning. The class also studies light and space in relation to both two and three dimensions. Psychology, theory, history, design, and aesthetics are investigated as tools to develop a visual vocabulary. At the conclusion of this course, students are expected to demonstrate knowledge of visual vocabulary, formally and in relationship to content in class projects.

Prerequisite: none.

FA 3015
Contemporary Art Studio (3 credit elective)

Students investigate contemporary movements and concepts including happenings, installation, performance, new figuration, and postmodern aesthetics in studio projects that reflect knowledge and insights gained from a series of panel discussions led by college faculty, critics, and visiting artists. These studio projects culminate in a major research project covering contemporary artists and issues as they relate to the student’s own artistic vision.

Prerequisite: FA 2015 Seminar in Modern + Contemporary Art

FA 3060
Experimental Figure Studies (3 credit elective)

Students are encouraged to explore and develop innovative approaches to formal and conceptual content while expanding their range of materials and techniques for expressing the figure. Emphasis is on increasing an awareness of contemporary modes and on continuing to build a thorough understanding of traditional approaches to figurative drawing.

Prerequisite: FD 1380 Life Drawing 2

FA 3172
Experimental Drawing (3 credit elective)

The focus is on an individually oriented pursuit of drawing. The sense of artistic discovery is enhanced by the development of a series of drawings in which sources in contemporary art history, along with an awareness of selected materials and media, are combined with a more conceptual, creative process. Extreme departures in scale, surface tool, and medium are investigated.

Prerequisite: FD 1275 Drawing 1

FA 3610
Installation (3 credit elective)

This course traces the origins of installation art as early as 1923 when El Lissitzky created sculptures that occupied the corners of his “Proun Rooms”. In this advanced level studio course, students investigate contemporary and other historical artists who work in this genre. Students work on and off-campus to create their own installation-based works. Field trips are taken to view locally exhibited examples of installation art. At the conclusion of this course, students understand the vernacular of installation art, and create their own installation-based work confidently.

Prerequisite: FD 2120 Visual Design 2. Non-Fine Arts majors accepted upon department Chair’s or department Head’s approval. Must be a junior or a senior.

FA 4660
Experimental Studies (3 credits)

Students explore definitions and applications of contemporary sensibilities. The merging of existing art forms into innovative and experimental approaches, including the utilization of new technologies, also blends into considerations of site and audience in this multi-dimensional course. At the conclusion of this course, student projects will exhibit awareness of current art practices, increased art literacy, and the role of technology and experimentation in contemporary art.

Prerequisite: none

FA 4990
Professional Practices (3 credits)

This course prepares fine art majors with essential knowledge and practical strategies necessary to effectively seek out venues for their own art, which include gallery representation, co-operative and alternate spaces, commissions, government grants, competitions, residencies and graduate schools. The class visits area artists’ studios, galleries, art centers and museums. Students are exposed to working professionals such as critics, art administrators, gallery directors and museum curators. At the conclusion of the course, students will have created a professional-grade portfolio, which includes artist statement, resume, and photography of artwork. Students use their portfolios to submit applications to exhibitions, residency programs, grants and graduate schools. Students also learn how to properly display, store and ship art using sound archive methods.

Prerequisite: must be a junior or senior. Non-Fine Arts majors accepted upon department Chair’s or department Head’s approval.
FA 4991
Senior Studio (3 credits)
This course allows students to work independently with the instructor assisting as needed. Personal interpretations of the meaning of art are encouraged. Emphasis is placed on incorporating design elements, material handling, technique, concept development and expression, and in the meaning of the work presented. In-depth individual and group critique analysis is expected.
Prerequisite: must be a junior or senior.

Fine Arts: Ceramics
FAC 1265
Ceramic Sculpture 1: Handbuilding (3 credits)
Students explore basic hand-building techniques using ceramic materials to make sculpture and vessels. Emphasis is placed on individual style and how clay can be used as a vehicle for expression. Students make work from low-fire clay using a combination of coil, slab, and texturing techniques, surface slips and glazes. An introduction to ideas about sculpture, the vessel, and the Raku process are presented through slide lectures and research assignments. At the conclusion of this course, students will be well-versed in hand-building techniques, basic glaze formulation, and firing of electric and Raku kilns. Students will learn to develop strategies to translate an idea into sculptural form.
Prerequisite: none

FAC 3250
Ceramic Sculpture 2: Tools, Techniques, Process (3 credit elective)
This course focuses on using the potter’s wheel as a tool to make functional and sculptural forms. Emphasis is placed on combining and altering forms made on the wheel, experimenting with low-fire clays, surface slips and glazes, and developing critical skills for looking at art. Students research the works from historical time periods and of contemporary clay artists. At the conclusion of this course, students will understand the immense possibilities of using the wheel and the clay process, and its application to their personal vision.
Prerequisite: FAC 1265 Ceramic Sculpture 1: Handbuilding

FAC 3450
Ceramic Sculpture 3: New Directions in Clay (3 credit elective)
Students incorporate contemporary ceramic sensibilities and techniques into their own work. These methods are explored from the perspective of new directions in contemporary ceramics and the larger art world. Press molds, two-part molds and slip-casting techniques are introduced as well as thinking skills to juxtapose forms into more complex content. Students are introduced to high-temperature clays and the gas reduction kiln. At the conclusion of this course, students will be well-equipped to make work using modular building techniques that foster an individual, innovative creative practice.
Prerequisite: FAC 1265 Ceramic Sculpture 1: Handbuilding

FAC 4910
Advanced Ceramic Sculpture (3 credit elective)
Students investigate sculptural form and space through the clay process. Diverse, individually-developed projects allow the student to further investigate the technical properties of various clays, surface applications, and firing processes. Emphasis is placed on the development of an individual aesthetic and conceptual vocabulary. Students will look at works in both the historical and contemporary art worlds. This course is designed to give the student ample opportunity to experiment and to direct his or her vision.
Prerequisites: FAC 3250 Ceramic Sculpture 2: Tools, Techniques, Process; and FAC 3450 Ceramic Sculpture 3: New Directions in Clay

Fine Arts: Painting
FAP 2150
Painting 1: Practicum (3 credits)
Students deal with intermediate painting issues as they continue to develop skills in their chosen media. The course includes exploration of the human figure and the landscape as they student the relationship between figure and ground. As students begin to define their individual directions, creative integration of concept, drawing, painting, color, composition become important concerns. At the conclusion of this course, students are expected to demonstrate knowledge of research skills and its application to individual process.
Prerequisite: FA 1150 Introduction to Painting

FAP 3100
Painting Sophomore/Junior Portfolio Review (non-credit graduation requirement)
Students who have completed over 60 credit hours (Junior year) are required to participate in a mid-career portfolio review before reaching 90 credits (Senior year). This review is designed to identify students’ strengths and weaknesses so that they may address both in their upcoming major course work.
Prerequisite: FD1990 Freshman Portfolio Review

FAP 3150
Painting 2 (3 credits)
In this course the emphasis is on dealing with contemporary issues while further defining individual directions. Craft, content, and the dialogue between the artist and the viewer are emphasized. A broadening of format, image, and theme allows the students to independently analyze and develop within their chosen painting media and forms. At the conclusion of this course, students are expected to have obtained sufficient technical ability to undertake more advanced work.
Prerequisite: FAP 2150 Painting 1: Painting Practicum

FAP 3170
Figure Painting (3 credits)
The theme of figure is utilized as a point of departure. Issues of craft, content, and the dialog between the artist and the viewer are emphasized. A broadening of format, image, and theme allows students to independently analyze and develop their own painting media and forms.
Prerequisite: FAP 2150 Painting 1: Painting Practicum

FAP 4000
Painting Senior Portfolio Review (non-credit graduation requirement)
All Seniors who are ready to graduate are required to participate in a departmental Senior portfolio review. This pre-graduation portfolio review is an initial step in preparing students for both their graduation exhibition and their movement from the academic environment into the professional world.
Prerequisite: FAP 3100 Painting Sophomore/Junior Portfolio Review; Must be a junior or senior.
FAP 4050
Painting 3 (3 credits)
Students research advanced contemporary issues while refining a personal visual vocabulary. Emphasis is on building a stylistically coherent body of work evolving out of concepts explored in previous courses. At the conclusion of this course, students will have a working knowledge of contemporary painting practices and its application to their individually derived content.
Prerequisite: FAP 3170 Figure Painting, or FAP 3150 Painting 2

FAP 4991
Advanced Painting: Senior Studio (1-6 credit elective)
Students paint independently with the instructor assisting as needed. Personal interpretations of the meaning of art are encouraged. Topics include: painting materials and handling, design elements, color, and compositional devices.
Prerequisites: FAP 3170 Figure Painting, or FAP 3150 Painting 1

Fine Arts: Sculpture
FAS 2250
Sculpture 1: Sculpture Practicum (3 credits)
Students develop practical skills to successfully execute, exhibit, and document their art works. The course includes honing visual thinking skills, understanding real-world concerns, documenting works with digital and slide formats, and becoming more self-aware of their process through readings about contemporary artists and writing exercises. At the conclusion of the course, students will be able to construct various exhibition devices, be well-versed with the tools and techniques in the metal and wood shops, and have a strong understanding of the conceptual and technical consistencies in their individual process.
Prerequisite: FA 1250 Introduction to Sculpture

FAS 3200
Sculpture Sophomore/ Junior Portfolio Review (non-credit graduation requirement)
Students who have completed over 60 credit hours (Junior year) are required to participate in a mid-career portfolio review before reaching 90 credits (Senior year). This review is designed to identify students’ strengths and weaknesses so that they may address both in their upcoming major course work.
Prerequisite: FD1990 Freshman Portfolio Review

FAS 3250
Sculpture 2: Exhausting the Metaphor (3 credits)
In this course, students define their individual direction as they investigate more closely the issues that pertain to their work. Through the activity of locating a topic (or topics) of interest, students “exhaust the metaphor” in their work through the development of sound research methods and exploration of various new and traditional sculpture techniques. At the conclusion of this course, the student will be able to demonstrate research skills through written papers and oral presentations. Students will demonstrate, through formal critiques, increased technical skills that are applied to topic(s) of research within a series of sequential sculpture projects.
Prerequisite: FAS 2250 Sculpture 1: Sculpture Practicum

FAS 3270
Sculpture Investigations 1 (3 credits)
This is the first of a two-semester course sequence of sculpture investigations and is designed to further expand awareness of materials and concepts available in the discipline of sculpture. Each semester, contemporary and/or traditional materials and methods are introduced. Topics may include, but are not limited to: kinetic and robotic art, public art, earth art, fibers, interactive art, sound and light, and figure sculptures. At the conclusion of this course, students are versed in the topic of the semester’s coursework, and can create work that demonstrates this knowledge.
Prerequisite: FAS 2250 Sculpture 1: Sculpture Practicum, Non-Fine Arts majors accepted upon Department Chair’s or Department Head’s approval

FAS 4100
Sculpture Senior Portfolio Review (non-credit graduation requirement)
All Seniors who are ready to graduate are required to participate in their departmental Senior Portfolio Review, which is always the last day of the term preceding the final term of study. This pre-graduation portfolio review is an initial step in preparing students for both their graduation exhibition and their movement from the academic environment into the professional world. Participation in the Senior Portfolio Review is mandatory.
Prerequisite: FAS 3200 Sculpture Sophomore/Junior Portfolio Review

FAS 4150
Sculpture 3: Directed Studies (3 credits)
Through advanced research, students consider contemporary issues while refining a personal visual vocabulary. Emphasis is on content, idea development and process. At the end of this course, students have progressed their art towards a coherent body of work, evolving out of concepts explored in previous studies. Individual influences and sources are researched and investigated. Extended studies include in-depth readings, reports and visits to area art venues.
Prerequisite: FAS 3250 Sculpture 2: Exhausting the Metaphor

FAS 4810
Sculpture Investigations 2 (3 credits)
This is the second of a two-semester course sequence of sculpture investigations and is designed to further expand awareness of materials and concepts available in the discipline of sculpture. Each semester, contemporary and/or traditional materials and methods are introduced. Topics may include, but are not limited to: kinetic and robotic art, public art, earth art, fibers, interactive art, sound and light, and figure sculptures. At the conclusion of this course, students are versed in the topic of the semester’s coursework, and can create work that demonstrates this knowledge.
Prerequisite: FAS 2250 Sculpture 1: Sculpture Practicum, Non-Fine Arts majors accepted upon Department Chair’s or Department Head’s approval.
FAV 2245
Photography 2 (3 credits)
This course is a continuation of the Basic Photography class. Students are expected to have a working knowledge of beginning photographic techniques (camera operation, exposure, developing, printing, finishing and presentation). Photography 2 focuses on controlling all aspects of photographic image making. Designed to put the student firmly in command of the mechanics of photography, this course explores contrast control, the zone system, exhibition size and scale, different papers and film, toning, studio lighting and alternative cameras. At the conclusion of this course, students have focused their personal creative vision and presented this knowledge in a refined and thoughtful portfolio.
Prerequisite: FA 1410 Basic Photography

FAV 2320
Introduction to Video Art (3 credits)
This course introduces video as a medium for artistic expression and social inquiry. In this introductory course in digital video production and non-linear editing, students produce short works and are introduced to a range of approaches including experimental, documentary, and installation. Recent and historical trends in the medium are covered through the viewing of work by media artists of the past 40 years. At the conclusion of this course, students have a working knowledge of this medium and its history.
Prerequisite: FA 1410 Basic Photography

FAV 2570
Digital Color Photography (3 credits)
This course is designed for students to learn to make, control and manipulate photographs with the aid of a computer. Students will need a digital camera to produce their own images, and the use of scanned and appropriated imagery is explored. Attention is given to refining technical skills in Adobe Photoshop but the major concern will be the ongoing development of skills in critical thinking and the realization of a personal vision. At the conclusion of this course, students will have a working knowledge of the history of color fine arts photography and its application to their personal vision.
Prerequisite: FA 1410 Basic Photography and FD 1010 Digital Image Making

FAV 3100
Photo + Video Sophomore/Junior Portfolio Review (non credit graduation requirement)
Students who have completed over 60 credit hours (Junior year) are required to participate in a mid-career portfolio review before reaching 90 credits (Senior year). This review is designed to identify students' strengths and weaknesses so that they may address both in their upcoming major coursework.
Prerequisite: FD 1990 Freshman Portfolio Review

FAV 3480
Intermediate Video Art (3 credits)
This course continues the practice of video as an artistic medium; expanding the use to include longer format pieces, installation and interdisciplinary strategies. Further refinement of digital editing techniques and studio production are emphasized. At the conclusion of this course, students are expected to have achieved a level of technical competence necessary to undertake a more ambitious work.
Prerequisite: FAV 2320 Introduction to Video Art

FAV 3100
Photo + Video Sophomore/Junior Portfolio Review (non credit graduation requirement)
All Seniors who are ready to graduate are required to participate in a departmental Senior portfolio review. This pre-graduation portfolio review is an initial step in preparing students for both their graduation exhibition and their movement from the academic environment into the professional world.
Prerequisite: must be a junior or senior

FD 1010
Digital Image Making (3 credits)
This course introduces students to the use of the computer as an image-making tool used across all art/design disciplines. Students are introduced to Photoshop and Illustrator techniques as well to printing and type management. At the conclusion of this course students will demonstrate their ability to solve visual, compositional, and technical problems on Mac/PC platforms.
Prerequisite: none

FD 1115
Visual Design 1 (3 credits)
This course investigates the language, theories, and practices of color and two-dimensional design in the visual arts. This course familiarizes students with the basic relationships between color and compositional practices such as space, unity, emphasis, balance, rhythm, and proportion.
Prerequisite: none
FD 1275
Drawing 1 (3 credits)
This course investigates the creative possibilities found in the act of drawing and thinking. Students draw from seen and invented subject matter to practice with conceptual ideas, experimental materials, and techniques. Drawing exercises emphasize composition, positive/negative space, figure-ground relationship, and multiple points of view. At the conclusion of this course students demonstrate improved ability to implement creative, expressive, and personal solutions to visual problems.
Prerequisite: none

FD 1375
Drawing 2 (3 credits)
This course introduces students to methods of structural-based drawing through rigorous observational practices. With an emphasis on composition, ideas such as light, shade, value contrast, tone, proportion, texture, mass, volume, and technique are introduced. Utilizing the study of natural and man-made objects, students become familiar with one, two, and three point perspective. At the conclusion of this course the students demonstrate improved knowledge and skills in translating what is observed from life into 2-D picture plane.
Prerequisite: FD 1275 Drawing 2c

FD 1370
Life Drawing 1 (3 credits)
This course focuses on the basic anatomy of the human figure. Students improve their understanding of figure drawing through the study of skeletal structures and muscle masses. Issues such as foreshortening, accurate proportion, lighting, and composition are explored.
Prerequisite: none

FD 1380
Life Drawing 2 (3 credits)
This course introduces students to expressive issues in drawing the human figure. Students learn to analyze the figure in terms of planes, masses, shapes, action, proportion, rhythm and personal mark making. Areas covered include: gesture, quick sketch, long poses, foreshortening and composition.
Prerequisite: FD 1370 Life Drawing 1

FD 1990
Freshman Portfolio Review (non-credit graduation requirement)
This is a non-credit portfolio review taken by all Freshmen at the end of their second semester of study. Attendance at the Freshman portfolio review is mandatory as this is a graduation requirement.
Prerequisite: two semesters of Foundation study

FD 2120
Visual Design 2 (3 credits)
This course explores theories and practices of three-dimensional design. Students use a variety of materials, processes, and techniques to explore fundamental issues such as volume mass, gravity, tension, compression, light, color, and structure.
Prerequisite: FD 1115 Visual Design 1

Graphic Design + Interactive Media

GD 1020
Design Concepts/Methods (3 credits)
This is a survey course for freshman intending to pursue a major in Graphic Design + Interactive Media. Students are introduced to professional graphic design organizations such as American Institute of Graphic Arts (AIGA) and the design offices of practicing professionals. At the conclusion of this course, students successfully complete a broad range of 2 and 3-dimensional studio projects that demonstrate proficiencies with research methods, problem analysis, brainstorming strategies, team interactions, and graphic visualization techniques.
Prerequisite: none

GD 2440
Typographic Design (3 credits)
This formative course is an in-depth examination of the elements and principles of typography via hand-assembled and digital studio projects. Reader and audience demographics are also thoroughly covered. At the conclusion of this course, students demonstrate conceptual and technical proficiencies with letterform structures, legibility, readability, text manipulation, typographic space, and communication hierarchies.
Prerequisites: FD 1115 Visual Design 1 and DM 1120 Electronic Page Layout

GD 2450
History of Graphic Design (3 credits)
This seminar and research course covers developments in visual communications from the prehistoric period to the present. The course begins with the origins of the spoken and written word, symbols and signs, and the development of printing and typography. Topics include the Bauhaus and the origins of design education, the impact of world wars on visual communication, and changing technologies including computers and multimedia design. Key 20th century designers and typographers are studied in depth. The course consists of slide and video presentations, seminars, and research and studio projects.
Prerequisite: WO 1060 Philosophy of Art + Design

GD 2520
Sign + Symbol (3 credits)
Graphic design principles, elements, and methodology are addressed in this introductory course. Major topics include anatomy of visual form, simplification, typography, sequence, composition, and basic graphic communication theory. Projects are designed to build sound conceptual thinking and practical expertise by making use of brainstorming, sketching, visual diagramming, and computer generated imagery. Projects are directed towards the understanding of signs, symbols, pictograms, logos, and logotypes. At the conclusion of this course, students working as individuals and in teams demonstrate a basic understanding of graphic design principles and methodology.
Prerequisites: DM 2110 Vector Illustration, DM 2120 Raster Image Processing, GD1020 Design Concepts/Methods, and GD 2440 Typographic Design

GD 3000
Graphic Design + Interactive Media Sophomore/ Junior Portfolio Review (non-credit graduation requirement)
Students who have completed over 60 credit hours are required to participate in the Mid-Career Portfolio Review before reaching 90 credits. This review is designed to identify students’ strengths and weaknesses so that they may address both in their upcoming major course work.
Prerequisite: FD1990 Freshman Portfolio Review
GD 3020
Visual Sequencing (3 credits)
The significance of design research, analysis, and demographics are addressed in this advanced course. Using concepts and principles from the previous course, students research and explore more complex multi-page visual communication problems. Principles and elements include: conceptual development, grid systems, sequencing, typographic hierarchy, and text/image integration. Working in teams and as individuals, students are introduced to written, verbal, and visual presentation techniques in order to articulate why specific solutions have been employed to solve graphic design problems. At the conclusion of this course students demonstrate the ability to conceptualize, design, and execute more complex communication projects.
Prerequisite: GD 2520 Sign + Symbol

GD 3040
Design Systems (3 credits)
This intensive course focuses on the principles and elements of brand marks and identity systems. Students work as individuals and in teams to engage in long-term projects that address the significance of brand design, applications, and identity management. Company mission, goals, and objectives are researched, investigated, and presented in detail. Content hierarchy, complex grid systems, typographic hierarchy, text/image integration, and color identification are explored in depth. Students also examine 20th century and contemporary branding systems. At the conclusion of this course via long-term projects, students demonstrate the conceptual and technical ability to establish, define, and design a graphic standards system.
Prerequisite: GD 3020 Visual Sequencing

GD 3440
Experimental Typography (3 credits)
This advanced course addresses in-depth relationships between form and content in typographic communication. Elements and principles such as contrast, scale, space, rhythm and sound are fully examined. Students work as individuals and in teams with a wide range of hand-assembled and digital media. Contemporary typographers are studied and inform the studio projects. At the conclusion of this course, students understand both abstract and objective forms of typography.
Prerequisite: GD 2440 Typographic Design

GD 3470
3-D Packaging (3 credits)
Students utilize both traditional and digital media as an introduction to the skills necessary for designing packaging graphics and preparing accurate mock-ups as practiced within the graphic design industry. Content includes basic concept rendering, developing die-cut patterns, model-making and mock-up techniques, and both visual and verbal presentation skills. The course includes visits to package design and fabrication facilities in the Denver area.
Prerequisites: FD 2120 Visual Design 2, DM 2110 Vector Illustration and DM 1120 Electronic Page Layout

GD 4000
Graphic Design + Interactive Media Senior Portfolio Review (non-credit graduation requirement)
All Seniors who are ready to graduate are required to participate in a departmental Senior portfolio review, which is always on the last day of the term preceding the final term of study. This pre-graduation portfolio review is an initial step in preparing students for both their graduation exhibition and their movement from the academic environment to the professional world.
Prerequisite: GD 3000 Graphic Design + Interactive Media Sophomore/Junior Portfolio Review

GD 4020
Experience Design (3 credits)
This integrated course fully explores the significance and impact of experience design. Moving beyond traditional graphic design concepts, this course strives to create experiences beyond products and services. Students work as individuals and in teams on multi-faceted projects that address: way-finding, environmental graphic design, information architecture, and fabrication connections and resources. Students address issues such as: product or service life cycles, user interfaces, and the creation of environments that connect on an emotional or value level to customers. As in previous courses, students sharpen analytical, verbal, written, and visual presentation techniques.
At the conclusion of this course, students demonstrate a sound knowledge of research and user centered design via studio projects and client/user presentations.
Prerequisite: GD 3040 Design Systems

GD 4501
Topics in Graphic Design (3 credits)
An alternative to the Internship Honors Course, Topics 4501 offers seniors the opportunity to enhance their conceptual thinking, research methodologies, communication skills, and technical expertise. At the conclusion of this course, students will have successfully researched, organized, and produced a comprehensive graphic design project for later inclusion in their senior graphic design portfolio. In order to qualify, students submit a portfolio of previous work and provide a preliminary plan of study to the department chair and advisor for approvals. Students must plan carefully one semester in advance in order to qualify for this course. All reviews and paperwork must be completed by the end of the registration period that precedes the term in which the class will occur.
Prerequisite: GD 3040 Design Systems. Written approval by the instructor, departmental Chair, and the Vice President for Academic Affairs.

GD 4970
Internship Honors Course (3 credits)
An honors program that enables qualified Seniors to work within established graphic design studios, advertising agencies, and new media facilities. Seniors must have a cumulative 3.0 grade point average and have completed all required forms and documentation. Upon acceptance, the College guides a candidate into the best possible student/professional connection. The planned program of activities is controlled by RMCAD, not by the officials of a job establishment. Class attendance is on a weekly basis and is regularly scheduled to provide for interaction between Internship sponsor, instructor, and student. Appropriate assignments are required for completion of the course. Students who do not meet the above criteria are required to take GD 4501 Topics in Graphic Design.
Prerequisite: Must be a senior with approval of the Graphic Design departmental Chair
GD 4980
Senior Graphic Design Seminar (3 credits)
This course investigates seminal issues and ideas in graphic design. Topics include the changing role of the graphic designer in contemporary culture, conflicts between commercial practice and social responsibility, and practical issues as they relate to securing a professional position in the field. Visiting designers contribute to a thought provoking seminar environment. At the conclusion of this course, students have successfully completed a thesis project, writing portfolio, and marketing materials. Prerequisite: GD 4000 Graphic Design + Interactive Media Sophomore/ Junior Portfolio Review, and must be a senior

GD 4990
Graphic Design Graduation Portfolio (3 credits)
The designer’s portfolio of work is the employer’s primary tool for assessing the skills and talents of a prospective employee. The portfolio is the art student’s most important asset in successfully gaining employment upon graduation. Portfolio class explores these issues as well as what constitutes a professional-looking portfolio, who should see it, and how to arrange appointments. Instructors assist the students in selecting artwork for refinement and inclusion in the portfolio and in assembling the portfolio for maximum effect. Prerequisite: GD 4000 Graphic Design + Interactive Media Senior Portfolio Review

Interior Design

ID 1680
Introduction to Interior Design (2 credits)
This course is an introduction to the interior design profession and practice. The course introduces students to the design process, fundamental skills, principles, and theories related to the interior environment and human behavior within as variety of contexts. Students learn vocabulary and terminology related to the profession of interior design and architecture. Upon successful completion of this course, students will have broad perspective awareness of the processes, practices, terminology and skills necessary for continued study; and a foundation for the ethical approach to creating interior environments. Prerequisite: none

ID 1780
Green Design 1 (2 credits)
This course presents an introduction to the philosophical and practical principles of green design. Students gain knowledge of environmental issues, sustainability, and professional design standards for ecological projects, services, and materials. Green design projects are highlighted through case studies and field trips. Local resources for green design research, materials, products, and services are introduced through guest speakers and class discussions. Upon successful completion of this course, students will have an understanding of sustainable design concepts in preparation for Green Design 2 and 3, as well as their application to other courses, and will develop research skills for green design criteria necessary for all future projects. Prerequisite: none

ID 1820
Drafting (3 credits)
This introductory course covers the principles and elements of drafting as applied to interior design, architecture, and environmental graphic design. Utilizing relevant industry tools and techniques, students learn the basic techniques and methods of hand drafting including: layout and lettering, dimensioning, and the development of floor plans and elevations. Upon successful completion of this course, students will acquire the necessary hand drafting skills to apply to future courses in the curriculum and to advance to the study of Computer Aided Design (CAD). Prerequisite: none

ID 1840
Textiles (2 credits)
This course is an in-depth study of textiles, the industry that produces them and their integral relationship to interior design. Students investigate textile construction, and their use in interior design. Emphasis is on the selection of appropriate and code compliant products for environmental and life safety. Upon successful completion of this course, students will be able to recognize, categorize and evaluate different textile products to create aesthetic and functional designs appropriate for residential and commercial interiors that protect health, safety and welfare. Prerequisite: none

ID 1870
Surfacing Materials (2 credits)
This course is an in-depth study of surface materials, the industries that produce them and their integral relationship to interior design. Students investigate appropriate conventional and sustainable material choices for use in non-structural applications and examine the process of selecting and specifying appropriate materials for different interior elements. Upon successful completion of this course, students will be able to recognize, categorize and evaluate different surfacing materials to create aesthetic and functional designs appropriate for residential and commercial interiors that protect health, safety and welfare. Prerequisite: ID 1840 Textiles

ID 1890
History of Architecture + Furniture 1 (2 credits)
This course is an introduction to the history of interiors and western architecture from antiquity to the mid-19th century. Students investigate period design within the context of the cultural, economic, lifestyle, and technological issues of each era including interior and exterior architectural elements; furniture, design motifs and ornamentation; fine arts; and construction methods. Upon successful completion of this course, students will have the ability to identify style elements of architecture, furniture and ornamentation for each period studied, and to apply these skills to period renovation/ restoration, or to reinterpret historical design elements for current uses. Prerequisite: none
**ID 2000**
**Interior Design Sophomore/Junior Portfolio Review** (non-credit graduation requirement)
Students who have completed over 60 credit hours (Junior year) are required to participate in a mid-career portfolio review before reaching 90 credits (Senior year). Upon successful completion of the Sophomore/Junior Portfolio Review, students will have identified their individual strengths and weaknesses so that they may address both in their upcoming major course work. **Prerequisite:** FD1990 Freshman Portfolio Review

**ID 2830**
**Architectural Perspective + Rendering Techniques** (3 credits)
This course introduces the artistic and presentation techniques of perspective and rendering for the interior design profession. Students develop skills in both the conceptual and technical process of manually constructing one, two, and three-point perspective drawings as well as professional rendering techniques that include color palette use, light sources and shading, surface and detail indications and entourage. Upon successful completion of this course, students will understand and demonstrate the free-hand and mechanical drawing and rendering skills necessary to successfully illustrate their design solutions in presentation drawings. **Prerequisite:** ID 1820 Drafting

**ID 2850**
**Basic Space Planning** (3 credits)
Students in this course investigate three principal areas of information required for design problem solving, within the confines of introductory building code and barrier-free requirements. Emphasis is upon the study of the physical and psychological factors of design that impact people in their environment including: ergonomics, behavioral patterns, and interpersonal interaction; the programming methods of gathering and organizing data for solving design problems; and creating appropriate spatial relationships and furniture layouts for residential and commercial projects. Upon successful completion of this course, students will have the ability to space plan common residential and commercial spaces with considerations for physical and psychological factors, spatial relationships, functionality, and safety. **Prerequisite:** ID 1820 Drafting

**ID 2860**
**Residential Design** (3 credits)
This course examines the functional and aesthetic elements and considerations of design for residential environments within the context of current design philosophies and best practices. Students investigate and apply diverse design solutions through projects involving space planning, spatial development, and furniture and finish selections, as well as appropriate, professional presentation methods. Upon successful completion of this course, students will have the ability to recognize and evaluate different residential design alternatives; understand and apply aesthetic principles and human factors; utilize 2 & 3 dimensional elements and principles of design; and apply appropriate regulations, standards and codes to protect health, safety and welfare of residential clients. **Prerequisite:** ID 2850 Basic Space Planning

**ID 2920**
**History of Architecture + Furniture 2** (2 credits)
This course is a continuation of History of Architecture and Furniture 1 and examines the history of interiors and architecture of American and Western European cultures from the 19th century through Post-Modernism. Students investigate period design within the context of the cultural, economic, lifestyle, and technological issues of each era including interior and exterior architectural elements; furniture, design motifs and ornamentation; fine arts; and construction methods. Upon successful completion of the course, students will have the ability to identify style elements of architecture, furniture and ornamentation for each period studied, recognize and evaluate architectural and interior 3-dimensional principles, and apply these skills to period renovation/restoration, or to reinterpret historical design elements for current uses. **Prerequisite:** ID 1890 History of Architecture + Furniture 1
ID 3200  
Green Design 2  
(3 credit elective)  
Real-world applications of green design principles, products, and processes in the built environment are examined, through an in-depth analysis of sustainable building procedures. Also, specifications of sustainable products, and a variety of interior applications are explored. Students visit local sustainable building sites, and meet with local sustainable interior designers, architects, and building experts. Students who successfully complete this course will create sustainable design checklists for projects utilizing appropriate LEED and other green rating systems and will have developed skills in identifying, specifying and applying sustainable design strategies to both residential and commercial design projects.  
Prerequisites: ID 1780 Green Design 1, ID 1870 Surfacing Materials, and ID 2860 Residential Design

ID 3300  
Interior Design Portfolio Development  
(3 credit elective)  
This course provides students with direction and guidance for the development of their interior design portfolio. Emphasis is on the format and presentation of course work completed to date to create a comprehensive portfolio. Students will develop a variety of manual and digital methods to enhance their portfolios. Upon successful completion of this course, students will have a working portfolio that illustrates their individual skills and knowledge of interior design through completed projects in a professional format.  
Prerequisites: ID 3790 Intermediate CAD, ID 3850 Construction Documents, and ID 3980 Business of Interior Design

ID 3750  
Building Structures and Systems (3 credits)  
This course examines building structural methods and materials as well as mechanical, electrical and plumbing systems as they relate to interior design practice. Emphasis is on understanding and illustrating building construction in compliance with building and life-safety codes. Upon successful completion of this course, students will understand typical constructions materials, methods and systems as well as variations, experimental and sustainable alternatives; utilize primary reference sources for specific building systems and materials; and complete a set of residential construction documents.  
Prerequisites: ID 2860 Residential Design  
(Residential Design may be taken concurrently)

ID 3790  
Intermediate CAD (3 credits)  
This course is a continuation of Introduction to Computer Aided Design, ID 2010 and provides an in depth study of industry CAD standards and procedures using advanced application and utility functions. Emphasis is upon two-dimensional drafting and design as they relate to the interior design industry through the development of detailed CAD drawings using advanced protocols and management/distribution systems. Upon successful completion of this course, students will demonstrate competence with advanced CAD standards and procedures through the development, management and distribution of CAD documents.  
Prerequisite: ID 2010 Introduction to Computer Aided Design (CAD)

ID 3810  
Office Design (3 credits)  
Students in this course gain the technical and practical knowledge and skills necessary to design large-scale work environments. Emphasis is on advanced programming, space planning and systems, ergonomics, building system integration, finish and furnishing specification, fire and safety codes, and ADA requirements as they relate to problem solving strategies, design development and presentation. Upon successful completion of this course, students will have the ability to formulate and communicate a comprehensive design for a work environment.  
Prerequisite: ID 2860 Residential Design

ID 3850  
Construction Documents (3 credits)  
This course builds upon the skills acquired in previous courses to interpret the graphics, terms, and accepted practices necessary to prepare construction documents for commercial interior spaces. Students develop in-depth knowledge of the codes, laws, and references necessary to prepare a set of construction documents, and develop knowledge and skills required for the design of custom millwork, and the preparation of specifications and cost estimates. Upon successful completion of this course, students will have the ability to create and assemble a set of code compliant construction documents and related preliminary budget documentation.  
Prerequisites: ID 3750 Building Structures and Systems and ID 2010 Intro to Computer Aided Design (CAD)

ID 3860  
Restaurant + Retail Design  
(3 credits)  
This course introduces students to the space planning techniques, image development, merchandising, and physical and psychological considerations involved in designing restaurants and retail spaces. Students investigate the color, material, furniture, and equipment selections necessary to design restaurant and retail spaces, with emphasis upon quick problem-solving and presentation methods. Upon successful completion of this course, students will have the ability to formulate and communicate a comprehensive design for a restaurant and retail environment.  
Prerequisite: ID 2860 Residential Design
ID 3970
Lighting Layout + Design
(3 credits)
This course provides students with information necessary to select light sources that enhance the functional and aesthetic elements of interior spaces. Students learn to apply criteria related to human activity and environmental psychology in the development of appropriate lighting strategies. Emphasis is upon the understanding and application of light criteria, as well as the development of calculation methods, lighting and reflected ceiling plans, and lighting specifications. Upon successful completion of this course, students will be able to determine and design appropriate lighting solutions within the context of design standards for human wellbeing within residential and commercial spaces.
Prerequisites: ID 3810 Office Design or ID 3860 Restaurant + Retail Design (Office Design or Restaurant + Retail Design may be taken concurrently)

ID 3980
Business of Interior Design
(2 credits)
This course introduces students to the fundamental considerations and processes involved in creating and running a professional interior design business including the legal, ethical, practical and professional requirements involved in interior design practice. Students investigate types of business structures and practices, professional documents and contracts, effective marketing techniques, professional working relationships with related disciplines; principles of job cost estimating, budgeting methods, and project management methods. Upon successful completion of this course, students will have the ability to successfully assess their interior design career options and understand the principles and practices of the interior design profession.
Prerequisite: ID 3810 Office Design or ID 3860 Restaurant + Retail Design

ID 4000
Interior Design Senior Portfolio Review (non-credit graduation requirement)
All seniors who are ready to graduate are required to participate in their departmental Senior Portfolio Review. This pre-graduation portfolio review is an initial step in preparing students for both their graduation exhibition and their movement from the academic environment into the professional world. Specific portfolio requirements and schedules vary by department. Upon successful completion of the Interior Design Senior Portfolio Review, students will be able to further develop their individual portfolios for entrance into the design profession and or graduate school.
Prerequisite: ID 2000 Interior Design Sophomore/ Junior Portfolio Review

ID 4200
Green Design 3
(3 credit elective)
This course builds upon the previous Green Design courses to provide students with a working knowledge of the products, processes, and applications for sustainable interior design solutions. The course also examines how designers can quantify the impacts of their design decisions through research, and how to use this research to contribute to the body of green design knowledge. Students who successfully complete this course will understand how to use LEED rating systems, specify and describe sustainable building and interior materials in construction documents, work with local green designers, architects, and sustainability specialists in workshops, and produce a Green Design portfolio.
Prerequisites: ID 3200 Green Design 2, ID 3850 Construction Documents, ID 3810 Office Design, and ID 3860 Restaurant + Retail Design

ID 4810
Historic Preservation
(3 credit elective)
This course introduces students to the theoretical and practical aspects of historic preservation as well as the current issues affecting the design and adaptation of existing and historic buildings. Students explore the design criteria, products, sources of information, and codes and standards applicable to historic preservation through discussion, lecture, projects, and site visits. Upon successful completion of this course, students will possess an enhanced understanding of the systems, policies, laws, treatments, and practices affecting historic preservation projects.
Prerequisites: ID 1890 History of Architecture + Furniture 1 and ID 2920 History of Architecture + Furniture 2, junior or senior status

ID 4820
Advanced CAD
(3 credit elective)
This course introduces students to the skills and software for CAD based 3-dimensional computer modeling and rendering for architecture and interior design. Emphasis is upon the appropriate use of commands, routines, operations, and settings for studying and presenting 3-dimensional spaces. Upon successful completion of this course, students will understand terminology related to the software and systems studied and use those systems to develop 3-dimensional computer models to represent design solutions.
Prerequisite: ID 3790 Intermediate CAD

ID 4840
Design Research (2 credits)
Students in this course develop an understanding of research methodologies and information-gathering techniques for application to their Senior Design Project. Emphasis is upon code analysis, surveys, literature reviews, observational and case studies, and critiques. Upon successful completion of this course, students will have researched, compiled, and analyzed all information relevant to their Senior Design Project and organized it into a professional reference notebook that includes a detailed project proposal and programming analysis.
Prerequisite: ID 4870 Special Use Design (may be taken concurrently)

ID 4850
Furniture Design (2 credits)
This course emphasizes innovation and creativity in the design of functional and aesthetically pleasing furniture designs. Students investigate appropriate materials including sustainable alternatives and apply appropriate assembly and construction techniques for their designs. Upon successfully completing this course, students will understand and implement the creative, technical and practical processes involved in the design and construction of custom furniture for specific uses.
Prerequisite: ID 3850 Construction Documents
ID 4870
Special Use Design
(3 credits)
Building complexes utilizing mixed function and use are the subject of the course. The student applies previously learned information to specific design problems associated with large building complexes. Project topics include retirement centers, health care facilities, and hotels. Emphasis is upon the preservation and rehabilitation of buildings, and design solutions for special needs. Upon successful completion of this course, students will demonstrate advanced abilities to plan and implement design solutions for complex design problems.
Prerequisites: ID 3860 Restaurant + Retail Design and ID 3810 Office Design

ID 4880
Interior Design Internship Program (3 credits)
This program enables students to work with established design professionals specifically related to their career interests. Under the direction of the department Chair and the Director of Career and Alumni Services, students are carefully evaluated to facilitate the best possible student/sponsor connection, and a planned program of activities is then coordinated with the professional internship sponsor. Students are exposed to a variety of on-the-job experiences such as space planning, drafting, showroom use, presentation boards, installation supervision, and client and manufacturer interaction. Students must participate in a scheduled pre-internship seminar prior to enrolling for the Internship program. Upon successful completion of the internship program, students will have real-world experience working with a design and/or architectural firm that prepares them to successfully enter the design profession.
Prerequisites: Senior status and department Chair approval

ID 4990
Senior Design Project (3 credits)
Students independently develop and present a major design project in this course. Emphasis is upon the application of research completed in the Design Research course to a project of special interest to the student. The project must meet the program’s guidelines and departmental approval. Each student presents and defends the finished project to a jury of professional designers. Upon successful completion of this course, students will demonstrate the ability to complete a comprehensive design project illustrating all of their skills and knowledge as pre-professional designers.
Prerequisites: ID 4870 Special Use Design and ID 4840 Design Research, must be a senior in their last term (Special Use Design may be taken concurrently, although it is not recommended)

IL 2440
Typography for Illustration (3 credits)
This course examines the relationship of typographic design to illustration. Students will learn to apply the basic elements and principles of graphic design to a range of typographic projects to learn how type works with images to communicate ideas. In addition, students will discuss historical and contemporary use, examining page layout, identifying crucial relationships, with special emphasis on creative typographic design solutions. By the end of this class, students will exhibit increased abilities to arrange, design, and manipulate typography as a visual tool in order to more effectively communicate ideas.
Prerequisites: FD1010 Digital Image Making and FD2120 Visual Design 2

IL 2510
History of American Illustration (3 credits)
This course offers the beginning illustration student a broad view of the major personalities who influenced the illustration field. Examining how past illustrators conceived and produced their artwork for the mass media; this course uncovers the roots of style, and reveals the singular philosophies that shaped the major avenues of illustration. By the end of this course, students will exhibit increased skills and knowledge in reading, writing, and in employing analytical skills in evaluating the influences of the past in shaping visual storytelling styles within American culture.
Prerequisite: none

IL 2520
Illustration Media (3 credits)
Students explore a variety of media that are particularly effective for illustrators working with deadlines. The emphasis of this course is experimentation with innovative techniques using both water-based and oil media to discover new ways to express their ideas visually. At the conclusion of this course the student will have practical usage and application of various drawing and painting media. They will show a curiosity and openness to experimentation in non-traditional solutions. The student will understand efficient methods of creating images that require short deadlines.
Prerequisites: FD 1115 Visual Design 1 and FD 1360 Structural Drawing

Illustration

IL 1020
Mastering the Pencil (3 credit elective)
This course will focus entirely on finely rendered small scale pencil drawings. At the completion of this course the student will have a great appreciation of how to apply sharp focus line drawing, fundamental perspective methods, tonal emphasis, and subtle form description as it pertains to narrative illustrations.
Prerequisites: none

IL 2000
Illustration Sophomore Portfolio Review (non-credit graduation requirement)
Students who have completed over 60 credit hours (at the end of their sophomore year) are required to participate in this mid-career portfolio review. This review is designed to identify students’ strengths and weaknesses so that they may address both in their upcoming major course work. At the end of this review, students and faculty will have identified and discussed both strength and weaknesses in the student portfolios so that the students may address both in their upcoming major coursework.
Prerequisite: FD1990 Freshman Portfolio Review

IL 2020
Typo Design Lab (3 credit elective)
This course focuses on the use of typography in the graphic design process. Students will explore the use of typography in the context of various design projects. The course will cover the basic principles of typography, including the history of typography, the anatomy of type, and the use of typography in graphic design.
Prerequisites: FD1010 Digital Image Making and FD2120 Visual Design 2

IL 2510
History of American Illustration (3 credits)
This course offers the beginning illustration student a broad view of the major personalities who influenced the illustration field. Examining how past illustrators conceived and produced their artwork for the mass media; this course uncovers the roots of style, and reveals the singular philosophies that shaped the major avenues of illustration. By the end of this course, students will exhibit increased skills and knowledge in reading, writing, and in employing analytical skills in evaluating the influences of the past in shaping visual storytelling styles within American culture.
Prerequisite: none

IL 2520
Illustration Media (3 credits)
Students explore a variety of media that are particularly effective for illustrators working with deadlines. The emphasis of this course is experimentation with innovative techniques using both water-based and oil media to discover new ways to express their ideas visually. At the conclusion of this course the student will have practical usage and application of various drawing and painting media. They will show a curiosity and openness to experimentation in non-traditional solutions. The student will understand efficient methods of creating images that require short deadlines.

Prerequisites: none

IL 2000
Illustration Sophomore Portfolio Review (non-credit graduation requirement)
Students who have completed over 60 credit hours (at the end of their sophomore year) are required to participate in this mid-career portfolio review. This review is designed to identify students’ strengths and weaknesses so that they may address both in their upcoming major course work. At the end of this review, students and faculty will have identified and discussed both strength and weaknesses in the student portfolios so that the students may address both in their upcoming major coursework.
Prerequisite: FD1990 Freshman Portfolio Review

IL 2440
Typography for Illustration (3 credits)
This course examines the relationship of typographic design to illustration. Students will learn to apply the basic elements and principles of graphic design to a range of typographic projects to learn how type works with images to communicate ideas. In addition, students will discuss historical and contemporary use, examining page layout, identifying crucial relationships, with special emphasis on creative typographic design solutions. By the end of this class, students will exhibit increased abilities to arrange, design, and manipulate typography as a visual tool in order to more effectively communicate ideas.
Prerequisites: FD1010 Digital Image Making and FD2120 Visual Design 2

FD 1360 Structural Drawing
Prerequisites: FD 1115 Visual Design 1 and FD 2120 Visual Design 2
IL 2550
Life Drawing 3: Human Anatomy (3 credits)
This figure drawing course allows students to exercise and develop both observational and constructive drawing skills. Students continue their study of gesture, the effect of light and shade on form, planes, constructive anatomy techniques, and achieving effective proportion through daily drawings of the draped and undraped figure. Character development, pose, composition, and illustrative storytelling themes add interest to the studies. Students use charcoal, conté crayon, inks, and pastels on various drawing surfaces. At the end of this course students shall, in a variety of media, have improved their ability to apply perceptual, geometric/constructive, and anatomical modes to the drawing of the clothed and unclothed human figure, and be able to place figures in a coherent story-telling setting.
Prerequisite: IL 2550 Life Drawing 3: Human Anatomy

IL 2560
Still Life Painting (3 credits)
This course introduces basic oil painting materials and methods, using the still life as inspiration to develop the students’ perceptual abilities. At the conclusion of this course the student will have been introduced to and understand the basics of observational painting materials and methods in oils, using the still life as subject matter. Prequisites: FD 1380 Life Drawing 2 and FD 1360 Structural Drawing

IL 2570
Basic Illustration (3 credits)
This course is the foundation illustration course. Students learn to apply their problem-solving skills to make narrative illustrations in various media, such as pencil, pen and ink, scratchboard, charcoal and watercolor. Students are challenged to develop finished illustrations through a series of preliminary drawings which analyze and direct the meaning of the work. Projects challenge the student’s ability to create pictures that communicate to a mass audience with impact and style. Upon completion of this course, students will have the knowledge of how professional quality illustrations are produced. They will have the understanding on how to produce preliminary sketches and to develop conceptual solutions. Students will comprehend the methods and steps required in successful compositional arrangements. They will be able to take their ideas and fully render them as a finished work of art.
Prerequisite: IL 2510 History of American Illustration

IL 2570
Basic Illustration (3 credits)
This course is the foundation illustration course. Students learn to apply their problem-solving skills to make narrative illustrations in various media, such as pencil, pen and ink, scratchboard, charcoal and watercolor. Students are challenged to develop finished illustrations through a series of preliminary drawings which analyze and direct the meaning of the work. Projects challenge the student’s ability to create pictures that communicate to a mass audience with impact and style. Upon completion of this course, students will have the knowledge of how professional quality illustrations are produced. They will have the understanding on how to produce preliminary sketches and to develop conceptual solutions. Students will comprehend the methods and steps required in successful compositional arrangements. They will be able to take their ideas and fully render them as a finished work of art.
Prerequisite: IL 2510 History of American Illustration

IL 2650
Life Painting 1 (3 credits)
Students paint from live models to further develop artistic skills in this studio course. They explore the potential of the human figure as a vehicle for creative visual expression. The integration of drawing, painting, composition, color and content are important. At the end of this course the student will have created a portfolio of figure paintings demonstrating a command of color, form, gesture, and anatomy in rendering the clothed and unclothed figure. Prerequisite: IL 2550 Life Drawing 3: Human Anatomy

IL 2840
Animal Anatomy + Drawing (3 credit elective)
Students of all abilities learn wildlife sketching and drawing techniques based on comparative anatomical studies of the principle families of animals. Various resources available to the artist are explored in order to create accurate environments for animal art. Sessions take place at the Denver Zoo and the Denver Museum of Nature and Science. At the end of this course, the student shall have a developed sketchbook of animal drawings that demonstrate knowledge of the various proportions, anatomical structure, and characteristic gestures of a wide variety of animals, and a final composition project placing various animals into a storytelling picture. Prerequisites: IL 2560 Still Life Painting and IL 2570 Basic Illustration

IL 3000
Illustration Junior Portfolio Review (non-credit graduation requirement)
All Juniors are required to participate in their departmental Junior portfolio review, which occurs at the completion of the Junior year. This review enables the department to redirect students toward certain remedial tasks and helps them to focus on their professional objectives. At the end of this review, students and faculty will have identified and discussed both strength and weaknesses in the student portfolios so that the students may address both in their upcoming major coursework. Prerequisite: IL 2500 Illustration Sophomore Portfolio Review

IL 3250
Life Painting 2 (3 credits)
With emphasis on personal style, expressive approaches, and employing both the draped and undraped model, this course continues the anatomical, constructive and compositional ideas introduced in IL2650 Life Painting 1. Oils and acrylics are the primary materials used in this painting course. At the end of this course the student will have a portfolio of paintings of the model in and out of costume, demonstrating a firm grasp of a variety of techniques in oil painting. Prerequisite: IL 2650 Life Painting 1

IL 3580
Landscape Painting (3 credits)
Landscape painting continues the illustrator’s study of basic oil painting materials and methods. Students further their understanding of representational painting through both studio and location work and employing plein-air studies that observe the landscape to master traditional compositional principles. At the conclusion of the course the student will understand the basics of observational painting in oils, using the landscape as subject matter. Prequisite: IL 2560 Still Life Painting

IL 3590
Conceptual Illustration (3 credits)
The information age demands that the illustrator must absorb complicated text and summarize it with a single image. In the areas of advertising, editorial and institutional illustration, the artist does just that. This course defines and develops the necessary methods required to successfully conceive and produce powerful single image illustrations that quickly communicate to a mass audience. Studio projects will rely on the analytical method of thumbnail sketches, reference gathering, preliminary drawings, and color studies for the production of finished illustrations. At the conclusion of this course students will gain knowledge and skills in story analysis, compositional development and the production of finished illustrations in a variety of techniques. Prerequisite: IL 2570 Basic Illustration
IL 3610
Life Drawing 4 (3 credits)
A figure drawing course that utilizes pastels, watercolors, charcoal, graphite and conte crayon to exercise and develop the drawing skills of the student. Students study advanced concepts of storytelling, costumed drapery, pose, character development, composition, and continue their study of the anatomy with particular emphasis on the head and hands. Students also examine the effect of light on form. At the end of this course students will have a portfolio of drawings in different media demonstrating an improvement in the essentials of figure drawing developed in Life Drawing 1, 2, and 3, with special emphasis on the expressive possibilities of the head and hands, and in form lighting through long poses of the clothed and unclothed figure.
Prerequisite: IL 2550 Life Drawing 3: Human Anatomy

IL 3650
Children’s Book Illustration 1 (3 credit elective)
Students are familiarized with the illustrator’s role in the development and creation of a children’s book. Assignments include breaking up manuscripts, designing characters, creating a storyboard, a wrap around jacket, a 3-D page dummy and several finished pieces. Other areas covered in class are story flow, consistency, age-appropriate-ness, professional practices, working with text, design, color and composition. At the conclusion of this class the student will have an understanding of the process of illustrating a children’s picture book as well as increased understanding of storytelling, character and other basic illustration skills.
Prerequisite: IL 2570 Basic Illustration

IL 3660
Illustrating Literature (3 credits)
This course is designed to inform students about the issues involved in visual storytelling. Through a series of interpretive studio projects, students will derive their inspiration from various texts, illustrating classic short stories, poems and children's literature. By emphasizing advanced story analysis, development process, pictorial composition and color organization, students will analyze and develop a succession of narrative illustrations. At the conclusion of this class the student will have a better understanding of storytelling, understanding and interpreting text as well as other basic illustration principles such as composition, communication, drawing, character and color.
Prerequisite: IL3590 Conceptual Illustration

IL 4450
Illustration Web Portfolio (3 credits)
Today, illustrators advertise their services to clients through their web page. Knowing the history, limitations and opportunities in web design using various browsers, enables illustrators enrolled in this course to research, design, and implement a professional level web portfolio. At the end of this course the student will possess the ability to clearly communicate and interpret ideas regarding basic graphic design concepts as they relate to web-page building. Additionally, the student's web site will show effective understanding of using web-building software. Finally, the student will demonstrate the integration of knowledge from other classes to help enhance the student's web-building abilities.
Prerequisites: DM 2110 Vector Illustration and DM 2120 Raster Image Processing

IL 4550
Computer Illustration (3 credits)
This is an electronic-based, technology-driven illustration course. Projects in editorial, advertising, and book illustration are created solely on the computer, applying the software programs from previous computer classes to communicate to specific audiences. At the end of this course, the student will possess the ability to clearly communicate and interpret ideas, themes and experiences as evidenced through the presentation and content of their portfolio. The student's portfolio will show effective use of materials, processes and techniques, which display application competencies. The issues of illustration problem solving, inherent in this upper level class, will advance the student's ability to understand how to integrate intercultural ideas into their professional work. The knowledge from other courses will be synthesized and used in new learning situations meant to demonstrate analogous concepts between illustration and other subjects.
Prerequisites: DM 2110 Vector Illustration and DM 2120 Raster Image Processing

IL 4650
Children’s Book Illustration 2 (3 credit elective)
Children’s Book Illustration 2 is the second half of Children’s Book Illustration 1. Individual assignments augment the earlier course and extend the practical methods. At the conclusion of this class the student should have an increased knowledge of the process needed to complete a 32 page picture book project, as well as an increased understanding of storytelling, design, character development and other basic illustration principles.
Prerequisite: IL 3650 Children’s Book Illustration 1

IL 4990
Illustration Graduation Portfolio (3 credits)
This course allows Senior students to develop their individual illustration concepts within the boundaries of editorial, advertising, or book illustration areas. Timetables and assignment themes are self-directed in consultation with the instructor. At the end of the course, a portfolio of professional-level work is completed for display in the graduation exhibition.
Prerequisite: must be a senior in their last term
ADMISSIONS

REQUIREMENTS & POLICIES

Rocky Mountain College of Art + Design selectively admits students who have a desire to explore new possibilities, work hard to realize their personal best and who are eager to produce original, innovative work. Although a variety of evaluation criteria are necessary for a sound admission decision, evidence of potential in the College’s fine and applied art disciplines is the primary consideration in the admissions process.

U.S. Applicants

1. Application for Admission

Applicants must submit a completed Application for Admission and a $50 application fee. Applications should be typed or printed neatly, and the information provided should be thorough and accurate. Online applications may be submitted through the RMCAD website: at www.rmcad.edu. Applicants are encouraged to apply for admission as soon as possible, even if the required portfolio of work is not yet ready to be submitted (see item #3 below).

2. Transcripts

Official college or high school transcripts or GED test scores should be sent directly to the Admissions Department. Transfer students may be asked to submit a high school transcript, following RMCAD’s review of college credits completed and college GPA.

Applicants may submit an unofficial transcript at the time of Application for Admission. An unofficial transcript can be used to evaluate the admission file for acceptance. Official transcripts must be received before admitted students can be enrolled in classes.

All applicants must possess a cumulative grade point average of 2.0 or higher or a high school equivalency diploma with satisfactory GED scores. Home-schooled students must submit satisfactory GED scores or submit proof of graduation by an accrediting body that is recognized by RMCAD. Applicants who do not possess a cumulative grade point average of 2.0 or higher will be required to submit an essay explaining why their GPA is below 2.0 and how they intend to be successful in their studies at RMCAD. Following RMCAD’s review of the letter, applicants with a GPA below 2.0 may be admitted with provisional status.

Official transcripts for courses completed at colleges outside of the United States must be submitted to the College and to an approved evaluation agency before transfer credit will be evaluated by RMCAD. Applicants who have both international and U.S. transcripts should submit their international transcripts to Educational Credential Evaluators, Inc. (ECE). U.S. transcripts will be evaluated by RMCAD staff as documented in the External Credit Policy. The applicant is responsible for paying the fees for all evaluations.

Prospective students will not be admitted or scheduled for courses until the ECE evaluation is received and processed. If a prospective student has attended international schools and also schools in the U.S., all official transcripts and the ECE evaluation must be received before an evaluation will be completed by the Registrar’s Office. For this reason, early applications are strongly encouraged. Rush service is available through ECE for an additional fee.

Students who do not list all colleges attended on their application may have their admission rescinded. Credit will not be awarded at a later date from colleges not listed on the application. Contact the Admissions Department for additional information.

3. Portfolio

See the “Submitting A Portfolio” section of this publication. RMCAD acknowledges that students often enter college with varying degrees of art experience and that some applicants may not have a current or traditional portfolio. Applicants without a portfolio should ask an Admissions Counselor about substitute arrangements that may include alternative experiences or examples that illustrate an individual’s interest and potential in a professional art and design education. Students declaring Interior Design as their intended area of study are not required to submit a portfolio.

4. Interview with an Admissions Counselor

An interview with an Admissions Counselor, either in person or by telephone, is required. Through the personal interview applicants will gain a better understanding of the visual arts education at Rocky Mountain College of Art + Design. Applicants should contact the Admissions Office to schedule an interview.

5. Standardized Tests

This requirement applies to first-time freshmen applicants only (under the age of 24 years); it does not apply to transfer students, returning students or students with a prior degree. First-time freshman applicants (under the age of 24 years) must take the SAT or ACT examination and have the test score sent to RMCAD, either (a) at the time the test, or (b) included with the submission of high school transcripts. SAT and/or ACT scores are used for academic counseling and placement, and may be used as a factor in the admission decision. The RMCAD school code for the ACT is 5359 and for the SAT is 1943.

6. Personal Statement

All applicants must submit a typed personal statement, no longer than one page in length, which provides insight about why the applicant wishes to be a student at Rocky Mountain College of Art + Design. The words “Personal Statement” and the applicant’s name should be at the top of the document. The personal statement may be submitted (a) by mail with the application or, (b) by e-mail to: admissions@rmcad.edu.
International Applicants

International applicants are persons who are not residents of the United States and who already have, or will be applying for, a temporary U.S. visa (most commonly the F-1 visa).

All records should be submitted in the native language. Credentials written in languages other than English must be accompanied by a certified English translation. Translations must be literal, not interpretive.

1. Application for Admission

Applicants must submit a completed Application for Admission and a $50 application fee. Applications should be typed or printed neatly, and the information provided should be thorough and accurate. International applicants must provide their full legal name, birth date and place of birth. If applying online, this information should be entered under the comments section of the online application, and a signature page requested from the Admissions Counselor. Online applications may be submitted through the RMCAD website at www.rmcad.edu. Applicants are encouraged to apply for admission as soon as possible, even if the required portfolio of work is not yet ready to be submitted (see item #3 below).

2. Transcripts

International applicants are required to submit official transcripts to RMCAD, in addition to the completed ECE evaluation (ECE will not forward transcripts to RMCAD). Applicants must submit official transcripts from each college attended. Official transcripts for all courses completed at colleges outside of the United States must be submitted to an approved evaluation agency before transfer credit will be evaluated by RMCAD. International applicants must arrange to have transcripts translated and evaluated.

International transcripts must be evaluated by an approved organization and the applicant is responsible for paying the fees for all evaluations. The organization RMCAD currently designates for this is Educational Credential Evaluators Inc. (ECE). ECE, P.O. Box 514070, Milwaukee, WI 53203-3470, USA. Telephone: 414.289.3400. E-mail: eval@ece.org. Website: www.ece.org

ECE prepares evaluation reports that identify the United States equivalents of education completed in other countries. An online application is available at the web site listed above. Applicants should request a course-by-course evaluation for college/university studies. A general evaluation may be used for high school/secondary school transcripts. Additionally, international applicants must request that a copy of their evaluation be sent directly to RMCAD, as the default option on the ECE web site application sends an evaluation only to the applicant. ECE turnaround time is up to five weeks.

Upon receipt of the ECE evaluation, RMCAD will determine which credits will be accepted by RMCAD based on the guidelines outlined by policy. Students who do not list all colleges attended on the application may have their admission rescinded. Credit will not be awarded at a later date from colleges not listed on the application. Contact the Admissions Department for additional information. For more information about transcript evaluation agencies, contact the Admissions Office.

3. Portfolio

See the “Submitting A Portfolio” section of this publication. Students declaring Interior Design as their intended area of study are not required to submit a portfolio.

4. Interview with an Admissions Counselor

An interview with an Admissions Counselor may occur in person, by e-mail or by telephone, is required. Through the personal interview applicants will gain a better understanding of the visual arts education at Rocky Mountain College of Art + Design. Applicants should contact the Admissions Office to schedule an interview.

5. Personal Statement

All applicants must submit a typed personal statement, no longer than one page in length, that describes why the applicant wishes to be a student at Rocky Mountain College of Art + Design. The words “Personal Statement” and the applicant’s name should be at the top of the document. The personal statement may be submitted (a) by mail along with the application, or (b) by e-mail to: admissions@rmcad.edu.

6. Submit Official TOEFL Scores or Acceptable Equivalent

Since English is the language of instruction at RMCAD all students are required to be proficient in English. Non-US resident students must submit official copies of the Test of English as a Foreign Language (TOEFL) with a minimum score of 213 on the computerized test, a score of 550 on the written test, a score of 80 on the internet based test, or other proof of English proficiency. Successful completion of an English as a Second Language (ESL) course or ESL evaluation may be required as a condition of admission at the discretion of the International Student Admissions Officer. Each situation is handled on a case-by-case basis. The language requirement may be met based upon interviews with the faculty and staff, if the student’s native language is English, or if the applicant has graduated from a high school in the U.S. or obtained a degree from an accredited U.S. college or University.

7. Submit Official Financial Documents

International applicants applying for admission to the College must submit an official bank statement verifying sufficient funds to cover the cost of the attending RMCAD and living expenses for one year. Contact the Admissions Office for information on the current amount required.

8. Obtain Immigration Documents

Immigration documents will be issued once RMCAD has received all required documents and the applicant has been accepted. Once the College has accepted the applicant, he or she will be sent an I-20 form which is needed to obtain a student visa. The I-20 form can be issued only to regular full-time students admitted into a degree program. International students transferring to RMCAD from another school in the United States should contact the Admissions Office immediately to determine eligibility to transfer. It is suggested that international applicants apply at least six months prior to their intended start date.
Admittance/Acceptance
RMCAD has a continuous enrollment process. Applications are reviewed for any upcoming semester upon receipt of all admissions materials. Applicants are notified in writing of their acceptance as soon as the application requirements have been met, with most decisions made within two weeks from the date all documents are received. Students with transfer credits from accredited colleges will receive a credit evaluation prior to scheduling. All admission decisions regarding transfer credit are binding. An appeal will be heard only if a student is able to introduce new information or material that has not already been reviewed in making the original decision.

Acceptance alone does not secure enrollment in the College. Accepted students are required to sign an “Intent to Enroll” agreement and remit a deposit of $150 in order to secure a place in the incoming class and be scheduled into classes. The deposit is nonrefundable and will be applied toward the first semester bill. Students will not be scheduled into classes until the deposit is paid, financial aid paperwork is complete, and/or proof of ability to pay is provided.

Students who respond “yes” to the question on the Application for Admission form regarding criminal history will be asked to provide an explanatory statement about the nature of their offense(es) and may, subsequently, be admitted to the College on a probationary basis for the first 12 months of their enrollment.

Cancellation Policy
Prior to matriculation, applicants may cancel their enrollment in person, by telephone, or in writing before the start of classes. It will be assumed that accepted applicants who do not request cancellation before their scheduled starting date plan to attend. Refund of tuition and fees will be made within 30 days from the beginning date of the term or from the date of receipt of written notice that the student will not attend, whichever is earlier. Applicants requesting cancellation prior to the start of classes are entitled to a refund of all monies paid to RMCAD less the application fee and the nonrefundable tuition deposit.

Students who have been admitted to the College but choose not to matriculate may not defer their acceptance. They may, however, reapply for any future term by submitting a new Application for Admission (with application fee payment) and other documentation as outlined in the current admission requirements. A reevaluation of transfer credits may be required and credits previously granted may be rescinded.

Returning Students
Students who were previously enrolled at RMCAD, have not attended RMCAD for three consecutive terms or longer and wish to return, must reapply, remit the $50 application fee, submit a personal statement, and contact an Admissions Counselor to determine if other documents are needed to reactivate their file. Only students in good standing with the College will be considered for readmission. Upon readmission, students will be bound by the catalog that is in place the first term they return. Also upon re-admission, transcripts will be evaluated for any colleges attended during the student’s absence from RMCAD. Any other credits previously granted at RMCAD will be applied as is appropriate under the new catalog. Students should be aware that previously-earned credit may not always apply to their new degree requirements. Returning students will not be scheduled into classes until financial aid paperwork is complete and/or proof of ability to pay is provided.

Part-Time Degree Students
Applicants who wish to attend part time, and who declare a major in pursuit of a degree, must complete all admission requirements in order to gain acceptance as a matriculated student. Part-time students seeking a degree have priority over non-matriculating part-time students. A student is considered less than full-time if he/she registers for fewer than 12 credits. Part-time students will not be scheduled into classes until financial aid paperwork is complete and/or proof of ability to pay is provided.

Non-Degree-Seeking and Auditing Students
A student who wishes to audit or take courses for credit but not necessarily for a degree may enroll as a non-degree-seeking student. Non-degree-seeking students do not qualify for financial aid. Non-degree-seeking students who later decide to pursue a degree are required to have a minimum cumulative grade point average of 2.0, make formal application as a degree-seeking student, fulfill any additional admission requirements, and be accepted before their credit will be applied toward a degree. Non-degree-seeking students are expected to have experience commensurate with course demands and requirements. Non-degree-seeking students will not be scheduled into classes until financial aid paperwork is complete and/or proof of ability to pay is provided.

High School Dual Enrollment (Honors Program)
High school seniors exhibiting a high level of artistic skill and talent may apply for admission to take Rocky Mountain College of Art + Design credit courses while still enrolled in high school as part of the Honors Program. The level of skill and talent must be at least equivalent to that of a high school graduate.

RMCAD will accept a maximum of 6 credit hours of Honors Program coursework. Applicants must complete an application, submit an application fee and high school transcript, interview and show their portfolio in person, and arrange to have a letter of recommendation submitted by an art teacher familiar with their work. Students must also submit proof of parental/guardian permission to attend RMCAD while concurrently enrolled in high school, and proof that their high school gives permission to attend RMCAD while concurrently enrolled. If the applicant is home schooled, parental permission waives this requirement. Once accepted into the Honors Program, the prospective student will be required to submit an “Intent to Enroll” form and tuition deposit prior to being scheduled in classes.

Honors Program students can be automatically admitted as degree seeking freshmen upon meeting the balance of the admission requirements. Students will be admitted according to the program requirements of the catalog that is in place the first term of study following application/admittance. Courses completed at RMCAD during periods of dual enrollment and prior to admittance may not apply to the catalog that is in effect once admitted. Please contact the Director of Admissions for more information or to initiate a Dual Enrollment process.
VETERANS INFORMATION

Rocky Mountain College of Art + Design is approved by the Veterans Administration’s Vocational Rehabilitation Department. Veterans must make formal application to RMCAD. Applicants must report all previous education and training in order to be evaluated for transfer credit. The veteran is responsible for contacting the Financial Aid Department or the Veterans Administration in order to initiate all necessary arrangements. Training allowances from the Veterans Administration will not be granted for repeating previously completed courses. VA guidelines state that students must be enrolled in 12-18 credit hours to be considered full time, 9-11 credit hours to be considered three-quarters time, 6-8 credit hours to be considered half time and 2-5 credit hours to be considered less than half time. No benefits are granted to Veterans enrolled in less than 2 credit hours per term. Students enrolled during the summer term may contact the Financial Aid Office for VA status credit hour information.

SUBMITTING A PORTFOLIO

A portfolio is the best way for applicants to to show their work for admission to RMCAD, and for the possibility of receiving institutional scholarship aid. The portfolio should include 15 to 20 pieces of work and should be submitted in digital format. Materials should be clearly marked with the applicant’s name and should be submitted with a completed Application for Admission form. If this form has been submitted previously, indicate that. Submitted portfolios should not include original artwork, slides or photographs. Digital portfolios should not be submitted in a binder, notebook or any other nonstandard container. The portfolio should be submitted digitally: (a) on a disk (delivered via mail or in person) or (b) by e-mail to: portfolios@rmcad.edu. Portfolios may also be submitted at any RMCAD open house or portfolio event review.

Digital Photographs

Digital photographs of work can be submitted in .jpg format in RGB Color Mode (the format produced by most digital cameras). Photos should not be larger than 1280 pixels in height or width. Submit up to two photos for each 2-D work -- a picture of the whole piece, and one shot of a detailed area. Each photo should be named with the applicant’s first initial and last name, followed by a number. For example, Joe Smith should name his photos as JSmith01.jpg, JSmith02.jpg, and so on.

Videos, CDS, DVDs

Digital videos may be submitted on CD or DVD as part of the portfolio. Digital videos are especially important for students interested in studying Digital Media, Photography or Video. Digital videos may be submitted in .mpg, .mov, or .avi files with a frame size smaller than 352 x 240 pixels. File naming should follow the above procedure.

Animations

Animations may be submitted as part of a portfolio, and are especially important for students interested in studying Digital Media or Animation. Animations may be submitted as .swf files or animated .gif files, or rendered as .mpg, .mov, or .avi files with a frame size smaller than 352 x 240 pixels. File naming should follow the procedure described above.

Don’t have a portfolio?

RMCAD acknowledges that students often enter college with varying degrees of art experience and that some applicants may not have a current or traditional portfolio. Applicants without a portfolio should ask an Admissions Counselor about substitute arrangements that may include alternative experiences or examples that illustrate an individual’s interest and potential in a professional art and design education.

How to get work to us

Portfolios may be hand delivered or mailed to the Admissions Office. If the portfolio is mailed, it should be packaged securely and mailed to: RMCAD/Admissions Office, 1600 Pierce St., Denver, CO 80214. It's best to use either first-class mail or parcel service so that the package arrives in good condition and in a timely manner. RMCAD is not responsible for damage or loss incurred during transit. Portfolios may also be submitted digitally, either on a disk (delivered via mail or in person) or via e-mail to: portfolios@rmcad.edu. Portfolios may also be submitted at any RMCAD open house or portfolio event review. Applicants should keep a copy of the submitted digital portfolio. RMCAD will not return portfolios upon conclusion of the admission review process. Need portfolio ideas? Please see the RMCAD website for project suggestions and formatting tips.

CREDIT EVALUATION

Evaluation of Transfer Credit

Applicants must arrange to have copies of official transcripts from all post-secondary institutions they have attended sent to the Admissions Department. Official transcripts for courses completed at colleges outside of the United States must be submitted to the College and to an approved evaluation agency before transfer credit will be evaluated by RMCAD (refer to the International Transcript Evaluation section of this Catalog). A student who does not list all colleges attended on their application may have their admission rescinded. Credit may not be awarded at a later date from colleges not listed on the application. Students must earn a minimum of 120 credit hours in order to receive the Bachelor of Fine Arts degree. A maximum of 60 credits can be earned from external sources, including transfer credit, Advanced Placement (AP), CLEP, IB, and credit given through a portfolio review. Sixty credits must be earned in residency, the last 15 of which must be earned at RMCAD. No transfer credit is accepted for the final term of study. Grades for external credit are not calculated into the RMCAD cumulative grade point average. External credit is good for the catalog year for which credits were evaluated. Students who defer their start date to a new catalog are subject to re-evaluation at that time. Official college transcripts are required, as well as a portfolio reflecting the prospective student’s highest college-level studio work (if applicable). RMCAD has access to an extensive library of course catalogs and course descriptions from most schools across the nation and we will attempt to locate course descriptions for prior courses in order to determine course equivalency. It is helpful, however, for prospective students to submit course descriptions for prior coursework whenever possible, as it is ultimately a student’s responsibility to provide information as it relates to prior schooling.
Courses are considered for transfer credit based on the following criteria:

The Accreditation of the sending institution
Credits may be considered for transfer if they were earned at an institution accredited by any of the six regional accrediting associations, the Council for Interior Design Accreditation (CIDA), or by the National Association of Schools of Art + Design (NASAD). Credits earned at non-accredited institutions are generally not accepted.

The comparability of credit to be transferred
Credits at Rocky Mountain College of Art + Design are semester credits. A student coming from a college on the quarter system will receive two-thirds of a semester credit for every quarter credit. The maximum transfer credit accepted for any given course is the amount of credits assigned to the course at RMCAD. For example, if a student took an 8 quarter-credit physical science class at another institution, he/she will receive only 3 RMCAD credits because RMCAD physical science courses are 3 credit courses.

Conversions are as follows:

<table>
<thead>
<tr>
<th>Quarter credits</th>

</tbody>
</table>

Appropriateness and applicability of the courses
Course equivalency is determined by a combination of course description review and portfolio review, depending on the nature of the course and how it compares to similar courses offered at RMCAD.

The grades received for completed courses - Only courses with grades of “C” or better are accepted.

Recency Requirements
There are no recency requirements for credits that are deemed equivalent to lower division (1000 or 2000 level) RMCAD art and design credits. Digital media and other computer-based courses are considered for transfer provided they were completed within the last two years prior to the date of matriculation. Credits that are deemed equivalent to upper division (3000 or 4000 level) RMCAD credits must have been completed within the last ten years prior to the date of matriculation. Once the ten-year period has lapsed, credit is contingent upon a clearly demonstrated ability, as determined by the department Chair, to complete a given program of study (portfolio credit). These requirements apply to the transfer of art and design courses only; they do not apply to liberal studies courses.

Courses in Progress
Credit is considered for courses in-progress at another institution so that students may be notified of potential transfer credit. In these cases, an official transcript documenting enrollment is required. The Transfer of Credit Statement will list how the courses in-progress will transfer if successfully completed. These courses do not become part of a student’s record unless they are successfully completed, as defined by RMCAD policy. Courses listed as pending do not meet prerequisite requirements for subsequent courses. Failure to successfully complete courses in-progress results in no transfer credit for those courses and may jeopardize the student’s admission status. An official transcript reflecting grades of the course(s) must be submitted before credit is awarded. Students are not permitted to register for subsequent terms at RMCAD until official transcripts are received.

Transfer and Articulation Agreements
Rocky Mountain College of Art + Design accepts transfer credit from institutions in the Colorado Community College System. Additionally, credits are accepted from two and four-year post-secondary institutions across the nation that are accredited by any of the six regional accrediting associations, the Council for Interior Design Accreditation, or by the National Association of Schools of Art + Design, provided they meet the criteria outlined in the Evaluation of Transfer Credit section. Credit from schools outside the United States is evaluated on a case-by-case basis (refer to the Application Process for International Students section). Contact the Admissions Department for information on specific transfer agreements.

Prior Degrees
Guidelines similar to those outlined in our Articulation Agreements are applied whenever possible in the evaluation of credits earned at regionally accredited institutions for applicants with Associate of Arts, Bachelor of Arts, or Bachelor of Fine Arts degrees (or higher degrees) in like majors in the visual arts. Students who have a prior Associate of Arts or Bachelor’s Degree (or a higher degree) from a regionally accredited college or university in the United States automatically receive credit for all of their Liberal Studies requirements except for art history (AH 1010 Art + Design History 1: Ancient to Medieval, AH 1020 Art + Design History 2: Renaissance to Contemporary, AH 2010 History of Art + Design in the Nonwestern World, and AH 3010 Advanced Studies in the History of Art + Design). Credit for art history is evaluated based on course equivalency. Associate of Science or other degrees not specified in the above paragraph, as well as degrees from schools outside the U.S. that are not regionally accredited are evaluated based on individual course equivalency. This prior degree policy applies to Art Education majors only after all state requirements are met. Recency requirements are also likely to apply. Grades received for completed courses - Only courses with grades of “C” or better are accepted.

International Transcript Evaluations
International transcripts are those transcripts a student receives from any institution outside of the United States, except those institutions that are accredited by one of the six regional accrediting associations. International transcripts must be evaluated by an approved organization and prospective students are responsible for paying the fees for all evaluations. Refer to the International Transcript Evaluations section of this Catalog for international transcript evaluation guidelines. Prospective students with international transcripts are not scheduled for courses until the international evaluation is received and processed. If prospective students have attended international schools and schools in the U.S., only the international transcripts need be submitted to the international evaluator. U.S. transcripts are evaluated by RMCAD staff as documented in the External Credit Policy. All official transcripts and the international evaluation must be received before they will be evaluated for RMCAD equivalency and credit. Therefore, early applications are strongly encouraged. Rush service is available for an additional fee.
Evaluation of Advanced Placement (AP) Credit
Advanced Placement gives students the chance to complete college-level work in high school, and to gain valuable skills and study habits for college. Students who earn a minimum qualifying grade of 4 on selected AP Exams are granted credit for selected RMCAD courses. AP Grade Reports (transcripts) include grades for all AP Exams taken. In order to evaluate and award credit, RMCAD requires a copy of the grade report no later than 30 days prior to the start of the term in which the student matriculates. Prospective students should contact The College Board or visit their web site at www.collegeboard.com for procedures for requesting AP transcripts.

Evaluation of College-Level Examination Program (CLEP) Credit
The College-Level Examination Program® or CLEP provides students of any age with the opportunity to demonstrate college-level achievement through a program of exams in undergraduate college courses. RMCAD grants credit for CLEP exams that meet the minimum qualifying score of 50 and are comparable to RMCAD course requirements. RMCAD requires a copy of the CLEP transcript in order to evaluate and award credit. Contact The College Board or visit the web site at www.collegeboard.com for procedures for requesting CLEP transcripts.

International Baccalaureate (IB) Credit
The International Baccalaureate is a comprehensive course of study for academically talented high school students in select high schools throughout the world. Decisions for or against awarding credit are based on individual scores on selected exams that have been determined to be comparable to RMCAD courses and degree requirements. In order to evaluate and award credit, RMCAD requires the official transcript no later than 30 days prior to the start of term in which the student matriculates. Transcripts must be requested in writing (by mail, fax or e-mail). Be sure to use the full name under which you originally registered; provide your seven-digit IB candidate code; give the name of the IB high school you attended; and include your month and year of graduation and your date of birth. Contact: International Baccalaureate North America, 475 Riverside Drive, 16th Floor, New York, NY, US-10115. USA Phone: +1 212 686 4464, Fax: +1 212 889 9242, E-mail: ibna@ibo.org

Portfolio Credit
The portfolios of all first-time freshmen are reviewed by the Chair of the Foundation Studies Department. In exceptional cases, incoming students may be granted portfolio credit for a maximum of three credits of Foundation Studies curriculum.

Military Credit
Experience in the Armed Services may be evaluated for college credit based upon a review of official AARTS or SMART transcripts, and according to the American Council on Education (ACE) guidelines and recommendations. AARTS transcripts may be requested at www.aartstranscript.leavenworth.army.mil/, or by contacting the Army/American Council on Education Registry Transcript System. Credit is considered for those courses that are Associate or Bachelor level, and that are deemed equivalent to courses in the corresponding RMCAD program of study that the student has applied for.

Appeal Process for Credit/Transcript Evaluation
Students who wish to formally appeal for additional external credit must complete an appeal form that is obtained from their Admissions Counselor or the Office of the Registrar. Appeals must be submitted by the end of the first term of study.

Continuing Students Seeking Transfer Credit
Current RMCAD students seeking transfer credit while attending RMCAD must obtain written approval from the department Chair, the Registrar, and the Vice President for Academic Affairs prior to registering at the other institution. Students must submit official transcripts with final grades from that institution to the RMCAD Registrar's office immediately upon completion of the courses. Official transcripts are due no later than one term after completion of the course.

Returning Students Who Have Prior Transfer Credit
Returning students who have not attended RMCAD for over one year must initiate their return through the Admissions office. The RMCAD Catalog that is in place during the term the student returns indicates degree requirements. Therefore, returning students who have prior transfer credit may be required to have their transfer credit re-evaluated prior to re-enrolling, particularly if they are declaring a different major. Credit to be evaluated includes credits taken before initial acceptance to RMCAD and any credits taken since last attending RMCAD. Returning students who have attended RMCAD within the last year may re-enroll through the Office of the Registrar, and external credit will not be re-evaluated.

Student Records
Transcripts and diplomas are not released to students with a Financial Hold on their student account.
CAMPUS SERVICES

CAMPUS SAFETY
A Campus Safety report containing calendar year crime statistics, campus policies, and a description of programs that promote campus safety is distributed to RMCAD students and employees annually. Students wishing to obtain our most recent report may request a copy of this report from the Dean of Students, or on the College’s website at www.rmacad.edu.

Career + Alumni Services
The Career + Alumni Services office assists students and graduates with career planning and job search strategies. The office promotes student and graduate alliances with art related businesses and associations, and provides a network of employment contacts as a resource to career seeking individuals. The office maintains information about employers and résumé preparation. Before graduation students may participate in internships, individual career counseling, networking, professional associations, Career Month activities, and a variety of professional development workshops.

Another important function of the Career and Alumni Services office is to provide job assistance to students in need of part-time work. The College’s job board is updated weekly and displays a variety of part-time and freelance opportunities. Students may begin their career planning early by attending workshops, industry group functions, gallery exhibitions, visiting artist lectures, portfolio reviews, and by investigating art related careers through meeting with the Director of Career + Alumni Services.

Graduates of RMCAD receive free life-long career counseling as well as access to the RMCAD Alumni Association. The Alumni Association offers graduates the opportunity to keep their e-mails, access to space and technology on campus, and also mentoring and networking opportunities and events.

College Bookstore
The College Bookstore carries most books and supplies necessary for classes. Anything that is not carried in the store, such as drafting tables, large marker sets, etc., may be special ordered. A deposit of 50% is required for all special orders. The store accepts cash, personal checks from enrolled students in good standing, and MasterCard or Visa for payment of supplies. Pre-paid charge accounts are available through the Student Accounts Office.

Counseling
A professional counselor is available on-campus to see students for a variety of concerns. This licensed professional can assist with personal issues, substance abuse, addiction, stress management, self-esteem, and other issues. This confidential service is provided to students free of charge.

Drug and Alcohol Abuse Prevention
Rocky Mountain College of Art + Design has adopted and implemented a program to prevent the use of illicit drugs and the abuse of alcohol by students. Standards of conduct clearly prohibit the unlawful possession, use, or distribution of illicit drugs and alcohol by students on school property or as part of any school activities. Violations of this policy will result in disciplinary action. Violators are also subject to prosecution under local, state, or federal law.

Gallery
Rocky Mountain College of Art + Design galleries enhance student learning by providing exhibitions of cutting-edge art and design and works of historical significance. The Philip J. Steele Gallery provides an average of twelve exhibitions annually of diverse artwork for students and the general public.

It presents a mix of faculty, student, and alumni work as well as group and solo shows by guest artists of regional and national prominence. Also featured are national traveling exhibitions and exhibitions of historical or cultural significance. The galleries enhance the class learning experience through exhibitions focusing on all fields of study at RMCD including fine art, interior design/architecture, graphic design, illustration, animation, and installation. Gallery talks augment the exhibitions giving students an in-depth look at the process and philosophy behind the work.

Housing
Located just off of I-25 at 38th Street in Denver, The Regency is the first housing development in Denver created specifically for college students. The Regency is designed with the needs and lifestyle of students in mind, and offers excellent amenities at an affordable price.

Personal Property
Although the best possible care is taken to protect belongings, the College is not responsible for the loss, theft, damage, or misplacement of student artwork, supplies or personal property.

Problem Resolution
RMCAD is committed to providing the best possible educational environment for its students. The College encourages an open and frank atmosphere in which any problem, complaint, suggestion, or question receives a timely response from RMCAD staff and/ or faculty. The step-by-step problem resolution procedure, as well as all other official student policies and processes, are described in the Student Handbook.

Student Activities
RMCAD provides a number of interesting and entertaining activities during the year. Activities include visiting artists and designers, videos, films, and lectures presented by featured artists and designers exhibiting in the galleries. Lectures and workshops are usually held during lunch break or after school, and are always free of charge. The Student Activities Office and Student Government Association, (SGA), sponsor social, recreational, and educational events on and off campus each term. These include movies, sports events, plays, festivals, lectures, concerts, and gallery tours. Organized outdoor activities including hiking, biking, whitewater rafting, skiing, and snowboarding, take place throughout the year.

Students with Disabilities
In compliance with the Americans with Disabilities Act, (ADA) and Section 504 of the Rehabilitation Act, the College affirms its commitment to make appropriate classroom accommodations for students with documented disabilities. Students seeking classroom accommodations must initiate a request by contacting the Dean of Students. Appropriate documentation will be required.

Visiting Artist + Designer Program
The Visiting Artist + Designer Program fosters creativity and innovation in the classroom by bringing leading national and international artists and designers to campus. Activities range from slide lectures to small sessions focusing on significant topics. Additional opportunities include hands-on workshops, informal round table discussions, and critiques. The Visiting Artist + Designer Program is integrated into the classroom whenever possible to enhance the curriculum.
TUITION + FEES

Tuition
The full-time tuition rate for new students starting in the fall of 2008 or after will be $11,496 per term for students enrolled in 12 - 18 credit hours. Tuition is $958 per credit for part-time students and per each credit over 18 credit hours per semester. Students wishing to take classes for non-credit will be charged a rate of $600 per credit hour.

A $150 tuition deposit is due after acceptance to the college. This deposit will be applied toward the first term of study. This deposit is non-refundable unless written request for refund is received by the student’s Admissions Counselor at least 120 days prior to the term start date. Tuition rates are effective through summer 2009. RMCAD is proud to offer FACTS as a convenient payment process that is required for all students. Enrolling online is simple secure, and easy. Connect to the e-Cashier Web site through the RMCAD Web site (www.rmcad.edu). Several payment plans are available and early enrollment allows for the maximum number of monthly payments. Before you click the Submit button, please carefully read through the Final Review and Terms and Condition. An immediate e-mail will be sent (if an email address is provided for the person responsible for payment) confirming enrollment in the payment plan of your choice through e-Cashier. Additional details about the payment process are provided in the Student Handbook, the RMCAD Parent Guide and the RMCAD Web site.

For all new students there is a one-time application fee of $50, which does not apply to tuition. The application fee should be submitted with an Application Form. In accordance with “The Buyers Right to Cancel”, the fee is fully refundable if a student cancels application within 3 business days.

Tuition Health Insurance Refund + Grade Policy Chart

It is the student’s responsibility to officially drop a class or withdraw from the College. Refunds will be calculated based on the date the student notifies the Registrar’s office of such intent, regardless of the last date of attendance.

* Grade as assigned by instructor based on work completed during the term.

Books + Supplies

Each student is required to furnish his/ her own books and supplies for completion of each course. The estimated cost of books and supplies is $600 - $800 per term for a full-time student. Books and supplies may be purchased through the College Bookstore.

FINANCIAL AID

The Financial Aid Office is open from 8am – 5pm Monday through Friday. Walk-ins are welcome on a first-come first-served basis, but appointments are encouraged. The Office is located on third floor of the Texas Building and can also be reached by phone (800.888.ARTS), fax (303.567.7280), or email (financial-aid@rmcad.edu). Federal, state, and institutional aid is available to qualified students. While most aid is need-based, RMCAD also offers merit-based scholarships to students who show exceptional talent. Prospective students are encouraged to talk with an Admissions Counselor for more information about available aid.

A variety of financial aid programs are available to students attending RMCAD. These programs are designed to assist students in meeting their educational expenses. Some financial aid funds are limited; so students are encouraged to apply early. Students can apply for all types of aid offered by completing the Free Application for Federal Student Aid (FAFSA). Applications can be completed online at www.fafsa.ed.gov or by paper, but online applications have a much shorter processing time and are encouraged. Students must sign and return their award letter before loan proceeds can be credited to their tuition account.

In order to receive financial aid from the State of Colorado, students must be a resident of the State and must have completed a Colorado residency form with the Financial Aid Office.

Financial Aid Programs

Grants
These funds do not have to be repaid.

Federal Pell Grants
Academic Competitiveness Grants (ACG)
Federal Supplemental Educational Opportunity Grants (SEOG)
Colorado Student Grant

Loans
Allow students and parents to borrow money for school and must be repaid.

Federal Subsidized Stafford Loans
Federal Unsubsidized Stafford Loans
Federal PLUS loans (Parent Loan for Undergraduate Students)

Work Study
This program provides part-time jobs for students with financial need and allows students to earn money to help pay expenses, but in general it will not help a student pay their charges during the term in which they are employed.

Federal Work Study
Colorado Work Study

Alternative Student Loans
Students can also apply for alternative student loans with private lenders. Eligibility for these loans is based on the borrower and co-signer's credit ratings. Loan limits are determined by the amount of other aid the student has/will receive and the total cost of attendance described above. Information on alternative student loans is available in the Financial Aid Office.
Veterans Educational + Vocational Benefits
These programs are available for qualified veterans of the U.S. Armed Forces. The Financial Aid Office can provide students with an application for educational benefits and will help students submit them to the Veterans Administration to determine eligibility. Students interested in Veteran Vocational Rehabilitation programs should obtain additional information from the following website: (http://www.vba.va.gov/bln/vre/index.htm). The Financial Aid Office recommends that all veterans of the U.S. Armed Forces contact the Veterans Administration to determine their eligibility for VA administered programs.

Verification
Verification is a process used by the federal government and Rocky Mountain College of Art + Design to ensure that information provided on the FAFSA is accurate and correct. The federal government randomly selects a percentage of applicants for this process. RMCAD may also select students to complete the verification process. Students selected for verification must complete this process in order to receive most types of federal, state, and institutional assistance.

Required Documents
If the student's application is selected for verification, the Verification Worksheet and signed copies of Federal Tax Returns must be submitted to the Financial Aid Office if that student would like to be considered for need-based assistance.

Corrections
If the application has an error that must be fixed by the student, RMCAD will notify the student via email at their RMCAD account, by mail, or by telephone that they must make the correction.

Deadlines
The priority deadline for submission of all financial aid application materials is March 15 of each year for fall enrollees, November 15 for spring enrollees, and February 15 for summer enrollees. A student may submit their documents at any time and will be awarded assuming they meet the minimum eligibility requirements for the available programs, and assuming that all documents are submitted and processed before the final deadline (the earlier of the student's last day of attendance of an academic year or June 30 of the award year). Students submitting documents after the final deadline will most likely not be eligible for financial aid for that year. Students should keep in mind that applications submitted after the priority deadline may not be considered for all sources of available funding as some funds are limited.

After Verification
Verification may result in a student's award being changed if any updates were processed. Students will be notified of any changes or new awards via RMCAD email or when they receive a revised award letter in the mail.

Referrals to the Office of Inspector General of the Department of Education (1.800.MISUSED)
RMCAD is required to submit for referral any credible information indicating that an applicant for Title IV (federal) assistance may have engaged in fraud or other criminal misconduct in connection with their application. Examples of the types of referrals that will be made include (but are not limited to):
- False claims of independent student status
- False claims of citizenship
- Use of false identities
- Forgery of signatures or certifications
- False statements of income
- Any credible information that any employee, third party servicer, or other agent of the institution that is involved in any way with Title IV aid may be engaged in fraud, misrepresentation, conversion or breach of fiduciary responsibility, or other illegal conduct involving Title IV programs.

Satisfactory Academic Progress
Federal regulations require the RMCAD Financial Aid Office to monitor the academic progress of all students receiving financial aid toward the completion of their degree. This process is called Satisfactory Academic Progress (SAP). The SAP policy is enforced in conjunction with all other institutional policies and procedures, including the academic probation and suspension policy. SAP is monitored using two factors:
1. Cumulative Grade Point Average (CGPA) AND
2. Cumulative Maximum Time Frame (CMTF)%: All completed courses. In addition to monitoring CMTF every term, students are also required to complete their degree within 150% of the minimum credits required to graduate. For example, a student may attempt a maximum of 180 semester hours as students are generally required to complete 120 semester hours in order to graduate. Once a student has attempted 150% of the minimum credits required to graduate they are no longer eligible for financial aid at RMCAD. Please see the RMCAD Student Handbook for complete details regarding Satisfactory Academic Progress.

WITHDRAWAL PROCEDURES
Return of Title IV Funds Policy
A student who leaves RMCAD during any term must contact the Office of the Registrar to obtain a Withdrawal Form AND notify the Financial Aid Office of the withdrawal. Please see the RMCAD Student Handbook for complete details of withdrawal procedures. Any student who begins classes at RMCAD, applies for financial aid, completes all of the requirements to obtain that aid, and then withdraws from classes may have their financial aid adjusted according to federal, state, and institutional regulations. Title IV funds are awarded to students under the assumption that they will attend school for the entire period that the aid is awarded. Upon withdrawing from RMCAD, a student may no longer be eligible for the entire amount of Title IV aid they were awarded and/or received. The RMCAD Financial Aid Office is required to calculate how much of the Title IV aid the student is eligible for. Federal regulations state that a student earns Title IV aid based on the period of time they remain enrolled for a particular term.
SCHOLARSHIPS FOR CURRENT STUDENTS

There are nine Memorial Scholarships awarded annually to RMCAD students who have proven themselves through outstanding work and effort during the academic year. Rocky Mountain College of Art + Design awards each of the following Memorial Scholarships three times per year:
- The William LeBarth Steele Memorial Scholarship Award for Freshmen
- The Paul Hall Memorial Scholarship Award for Animation
- The C.W. McNamara Memorial Scholarship Award for Art Education
- The David Bozeman Memorial Scholarship Award for Graphic Design + Interactive Media
- The Charlene Cosgrove Memorial Scholarship Award for Illustration
- The Roy Maddox Memorial Scholarship Award for Interior Design
- The Brooke McElwain Memorial Scholarship Award
- The Greg Quinlan Memorial Scholarship

ACADEMIC POLICIES

Grading and Evaluating Student Progress

Students are graded on the basis of prompt and satisfactory completion of assignments, attitude, attendance and individual progress. Students are expected to have materials and supplies necessary for the successful completion of assignments. Grade reports reflect standard letter grades. RMCAD uses a 4.0 scale to calculate grade point averages.

<table>
<thead>

</tbody>
</table>

The policies on late submission of assignments and grading criteria vary by department, and are clearly stated in the course syllabus distributed during the first week of classes. Every course undertaken is included in computing the grade point average, except those in which a P (pass), W (withdraw), N (grade not received from the instructor), or AU (audit) is posted. Withdrawals from individual courses are accepted any time, but only those made within the first nine weeks of the term are considered non-punitive and are not computed into the grade point average. Withdrawals after this deadline receive a grade as assigned by the instructor based on work completed during the term. Students are allowed to repeat courses; however, both grades for the course are computed into the grade point average and considered in the total time frame calculations for satisfactory academic progress.

Students receive their midterm and final term grades via RMCAD’s online student information system: Empower. Final grades are distributed within four weeks of the end of the term. The Financial Aid Office is notified of unsatisfactory academic progress.

All records of grades are kept on a permanent transcript by the College. Official copies are $4 each; student copies are $3 each. Student copies for currently enrolled students are free.

Freshman Forgiveness

RMCAD recognizes that establishing proper study habits and creating a balance in one’s life takes deliberate care and work, and that these goals may not be immediately met by students in their first term of study. Therefore, the College has established the Freshman Forgiveness policy: If a first-time freshman student fails a course during the first term of enrollment at RMCAD, and subsequently repeats it with a grade of C or higher, the first grade of F will be replaced by R on the transcript, and the student’s cumulative grade point average will include only the C or higher grade. Specific parameters of the policy include: (a) the failed course occurs in the first semester of study at RMCAD; (b) the failed course is retaken within one year; (c) the student earns a grade of C or above when the course is retaken. Freshman Forgiveness applies to one course only, and students are charged tuition for the repeated course.

Dean’s List/Distinguished Honors

Students must be enrolled at full-time to be eligible for honors. Students who begin a term as full-time students but withdraw from one or more courses resulting in less than full-time status for a term are ineligible. Honors are determined by the term grade point average as follows: Dean’s List: 3.5 – 3.9, Distinguished Honors: 4.0.

Satisfactory Academic Progress

All full-time and part-time students are expected to meet minimum standards of progress determined on the basis of cumulative grade point average. A student must achieve a minimum cumulative grade point average of 2.0 by the end of their first term and for the duration of the program. All Art Education majors must achieve a minimum cumulative grade point average of 2.5 by the end of their first term and for the duration of the program.

Academic Probation

Student progress is monitored at the end of each term. Students who do not attain the cumulative grade point average of 2.0 (2.5 for Art Education majors) will be placed on academic and financial aid probation for the following term. Students are notified of academic and financial aid probation in writing. Refer to the Financial Aid section for details on Financial Aid probation and suspension. Students who are on Academic Probation may not apply for an “Incomplete” grade in any course during the probationary period.
Academic Suspension
The minimum required grade point average of 2.0 (2.5 for Art Education majors) must be achieved by the end of the probationary term or students will be suspended from the College.

Academic Suspension Appeals
Students may appeal academic suspensions. Any student who plans to appeal a suspension must notify the Registrar of their intent to appeal prior to the start of the term of suspension. All appeals must be made in writing and must be submitted to the Vice President for Academic Affairs no later than the end of the week one of the term of suspension.

Students who appeal by this deadline will be permitted to attend class while the appeal is under review. Responses to appeals will be provided by the end of the add/drop period. In cases where appeals are denied, students will be administratively dropped from all classes. No charges will be assessed and no grades assigned. The original terms of suspension as stated in the original notice will apply.

Re-admittance Following Suspension
Upon re-admittance to RMCAD after academic suspension, students remain on academic probation for a duration that is at the discretion of the Registrar and Vice President for Academic Affairs but not less than one term. Students who do not meet the standards designated during this second probationary term will be suspended for not less than two consecutive terms. Future probation/suspension will be handled on an individual basis as is deemed appropriate by the Registrar and Vice President for Academic Affairs.

Contact Hours
In lecture courses, one semester credit hour represents 15 contact hours per term, plus two hours of work outside of class per week. Three-credit lecture courses meet for 45 hours during a term. In studio courses, one semester credit hour represents 30 hours of studio and/or laboratory time, with sufficient faculty contact to ensure the development of the knowledge and skills required by each course. Three-credit studio courses meet for 90 hours during a term. For internships and field experience, one semester credit hour represents 45 hours of internship or work-related experience. The credit-to-contact-hour ratio remains constant across all terms of study, regardless of the length of the term (see the academic calendar).

Due to departmental Council for Interior Design Accreditation (formerly FIDER) accreditation, contact hours for the Interior Design department differ from the above as follows: 2-credit hour courses meet for 45 contact hours and 3-credit hour courses meet for 90 contact hours.

Academic Integrity
Rocky Mountain College of Art + Design is committed to academic honesty and integrity. Academic dishonesty includes cheating, plagiarism, theft, alteration or falsification of academic records and/or violation of any college, state, or federal laws or policies.

Committing or assisting someone in committing academic dishonesty is grounds for disciplinary action and possible suspension or expulsion from the college. Students who observe or become aware of apparent academic dishonesty should report the matter to faculty or administration.

Plagiarism is a form of cheating. To plagiarize is “to steal and pass off the ideas or words of another as one’s own, use a created production without crediting the source, commit literary theft, or present as new and original an idea or product derived from an existing source” (Merriam-Webster’s Collegiate Dictionary, Tenth Edition. Springfield, MA: Merriam-Webster, Inc. 1993). Plagiarism is intellectual theft, a serious academic offense with serious consequences to be determined by the instructor and Department Chair.

1. Unintentional plagiarism can occur if you mistakenly forget to identify the author and source of another’s words or ideas, and may result in an “F” for that particular assignment.
2. Intentional plagiarism or academic dishonesty of any sort may result in an “F” for the course.
3. The second instance of intentional academic dishonesty may result in expulsion from the College.

Accountability
Rocky Mountain College of Art + Design courses are designed to assess student knowledge, capacities and skills developed in academic programs and art/design studio work. The College ensures that the methods and instruments used are appropriate for assessing student knowledge, capacities and skills and the stated objectives of undergraduate art and design professional education. The College continuously examines and adjusts the content and delivery of its curriculum to correspond with expectations of the knowledge, capacities, and skills of its students. RMCAD engages in ongoing self-evaluation and modification, consistent with the nature of the art and design fields.

Departmental program advisory committees review, evaluate, and update the curricula periodically, with faculty members directly involved in curricular development. Students have direct access to faculty, department chairs, and administration in order to ensure that student needs are known and addressed at RMCAD.

Academic Advising
The Director of Academic Advising, a full time member of the administrative staff, advises students through the first 45 credits of RMCAD study. Upon completion of the first 45 credits, students are assigned to a major-program academic advisor, a member of the faculty in the selected major department. Academic advising includes individualized class scheduling, registration, and discussions of RMCAD majors and course content. All degree-seeking students are required to meet with their advisor during registration each term.
Attendance Philosophy and Policies
Attendance matters. Research and experience both show that students who attend classes are more likely to persist and to succeed. Essential content is a part each class, as are the in-class discussions of content that are critical to conceptual development. RMCD academic departments each have a specific attendance policy; the policy describes class attendance expectations and the academic consequences if expectations are not met. Students are responsible for knowing and following the attendance policy published in each class syllabus.

Add/ Drop
Classes may be added through the end of the first week of the term and dropped through the end of the second week of the term. Timelines are published each term and distributed to the student body via e-mail. Tuition refund schedules are published in the Student Handbook. After week two, schedules may not be changed, but students can withdraw from courses until week nine. Classes must be dropped through the Office of the Registrar. No refunds are made on individually dropped classes after week two of the term. Please refer to the Student Handbook for additional information.

Change of Major
Some first-year course offerings are the same for all RMCD programs. While a change of major is possible, completing the new major may take longer than the original program chosen since there are many courses that are not common to each major. Courses completed that are not common to the new major cannot be credited toward that degree. However, some courses may be used to fulfill the elective requirements. Students must notify the Office of the Registrar in writing to change their major. A change in major may result in a change of catalog. A student who changes his/her major is subject to the program requirements as specified in the catalog that is in place at the time the request is received. Change of Major forms are available in the Office of the Registrar.

Portfolio Reviews
Portfolio reviews are held during the last week of every term as part of a continuing assessment of student outcomes at Rocky Mountain College of Art + Design. Each program of study includes non-credit portfolio reviews as a required part of the curriculum (refer to major requirements and course descriptions for details). A student wishing to enrich the opportunity for formal feedback and self-improvement may exercise the option of participating in additional evaluations.

Credits in Residency Requirement
Students are required to complete at least 50% of their total credits at RMCD, including the final 15 credits of study, which must be completed in residency.

Requirements for Graduation
In order for a student to graduate from any degree program offered by Rocky Mountain College of Art + Design he/she must:
1. Submit a Graduation Application by the end of the term in which he/she earns 90 credits.
2. Complete all required courses in a given program of study.
3. Have at least a 2.0 cumulative grade point average (2.5 for Art Education majors).
4. Have earned a minimum of 120 term credits for a Bachelor of Fine Arts Degree. At least 60 credits must have been earned at RMCD.
5. Have completed a minimum of three portfolio reviews.
6. Have an acceptable body of work for a Graduation Exhibition.

Graduation Honors
Students who maintain a high level of scholastic excellence throughout their college career receive the earned degree with honors. Honors are based on the following:
- Cum Laude: 3.5 – 3.6 Cumulative GPA
- Magna Cum Laude: 3.61 – 3.79 Cumulative GPA
- Summa Cum Laude: 3.80 – 4.0 Cumulative GPA
Honors designations on transcripts are based upon the student's complete academic record at RMCD. Only credits earned at RMCD are used to determine a student’s grade point average. Students whose grade point average qualifies them for graduation with honors the semester before they graduate will be recognized at the commencement ceremony.

Eligibility for Participation in Graduation Events
Students are eligible to participate in commencement exercises and the RMCD Graduation Show only if they are officially graduating in the same term. Students are added to the Graduation List when their Graduation Application + Academic Plan is on file and approved (plans are due by the end of the term in which students earn 90 credits toward their degree, and approved once all outstanding issues have been resolved). Students who are not on this official Graduation List by the last day of Week 4 will not be added to the list, and will not be permitted to walk or show that term. As a result, the students will not have met their degree requirement of participating in a Graduation Exhibition, and they will not receive a diploma until the following term.

Graduation Rates
The current six-year average graduation rate for Rocky Mountain College of Art + Design is 45% for those full-time first-time freshmen who started in the Fall Term of 2001. This graduation rate is comparable to that of other schools of similar size and focus.

Probation/Dismissal Policy
Rocky Mountain College of Art + Design reserves the right to place on probation or dismiss any student whose conduct or attitude, as determined by the College, is detrimental to the learning progress of any other student, the classroom environment, the presentation of a teacher or the well-being of RMCD students or school employees. RMCD also reserves the right to place on probation or dismiss any student who brings unfavorable criticism or disrepute upon his/her fellow students or the College. Students who are delinquent in their payments or who have poor academic progress, excessive absences, or who do not follow the rules and regulations posted in the catalog and/or in the Student Handbook are subject to probation or dismissal. The appropriate administrative office determines re-enrollment depending on the nature of the probation/dismissal.
Readmission
A student who has been suspended for unsatisfactory grade point average and who wishes to appeal should refer to the Probation and Suspension section of this catalog for additional information. A student who has been suspended for unacceptable conduct will not be readmitted without a successful appeal. If a student feels that there are mitigating circumstances, he/she may formally appeal a suspension. The appeal should be submitted to the party who issued the suspension/dismissal notice. Students may be readmitted on a probationary status if the appeal is approved.

Transferability of RMCAD Credits
Decisions concerning the acceptance of credits by any institution other than the granting institution are made at the sole discretion of the receiving institution. No representation is made whatsoever concerning the transferability of any credits to any institution. Students considering continuing their education at, or transferring to, other institutions must not assume that credits earned at this College will be automatically accepted by any receiving institution. An institution’s accreditation does not guarantee that credits earned at that institution will be accepted for transfer by any other institution. Students must contact the Registrar or art department of the receiving institution to determine what credits, if any, that institution will accept.

The Family Educational Rights and Privacy Act (FERPA)
The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. FERPA rights apply to students who are in attendance at Rocky Mountain College of Art + Design, and former students. Students are “in attendance” the day they first attend a class. These rights include:
1. The right to inspect and review education records within 45 days of the day the College receives a request for access. Students should submit to the Office of the Registrar written requests that identify the record(s) they wish to inspect. The Office of the Registrar will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the college official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.
2. The right to request the amendment of their education records if the student believes them to be inaccurate. Students may ask the College to amend a record that they believe is inaccurate. They should write the college official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate. If the College decides not to amend the record as requested by the student, the College will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.
3. The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent.
4. One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the College in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel); a person or company with whom the College has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees, the Board of Directors; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.
5. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.
6. Upon request, the College may disclose education records without consent to officials of another school in which a student seeks or intends to enroll.
7. The right to file a complaint with the U.S. Department of Education concerning alleged failures by RMCAD to comply with the requirements of FERPA.

Transferability of RMCAD Credits
Decisions concerning the acceptance of credits by any institution other than the granting institution are made at the sole discretion of the receiving institution. No representation is made whatsoever concerning the transferability of any credits to any institution. Students considering continuing their education at, or transferring to, other institutions must not assume that credits earned at this College will be automatically accepted by any receiving institution. An institution’s accreditation does not guarantee that credits earned at that institution will be accepted for transfer by any other institution. Students must contact the Registrar or art department of the receiving institution to determine what credits, if any, that institution will accept.

The Family Educational Rights and Privacy Act (FERPA)
The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. FERPA rights apply to students who are in attendance at Rocky Mountain College of Art + Design, and former students. Students are “in attendance” the day they first attend a class. These rights include:
1. The right to inspect and review education records within 45 days of the day the College receives a request for access. Students should submit to the Office of the Registrar written requests that identify the record(s) they wish to inspect. The Office of the Registrar will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the college official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.
2. The right to request the amendment of their education records if the student believes them to be inaccurate. Students may ask the College to amend a record that they believe is inaccurate. They should write the college official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate. If the College decides not to amend the record as requested by the student, the College will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.
3. The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent.
4. One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the College in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel); a person or company with whom the College has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees, the Board of Directors; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.
5. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.
6. Upon request, the College may disclose education records without consent to officials of another school in which a student seeks or intends to enroll.
7. The right to file a complaint with the U.S. Department of Education concerning alleged failures by RMCAD to comply with the requirements of FERPA.

Publication
Artwork and projects created by students as part of a course of study are done for educational purposes and represent both the student’s ideas and the influence of the College’s faculty. The College reserves the right to display, retain, and reproduce any student work for exhibition, publication, or any other purpose without the student’s consent. The College also photographs campus activities throughout the year for publication and public relations purposes. Photographs are included in RMCAD’s definition of directory information. Students who do not wish to have their photographs published must notify the Office of the Registrar in writing (refer to the Family Educational Rights and Privacy Act section).

ACADEMIC POLICIES 53
Library + Resource Center
The Library + Resource Center supports RMCAD’s teaching and learning activities by providing print and non-print materials, audio-visual equipment, training, instruction, and support services that allow our students to become future leaders in their chosen fields of art and design. The Library + Resource Center currently has a specialized collection of over 9,500 monograph titles; subscriptions to more than 130 art and general education related magazines and journals as well as back issues of five years worth of most titles; 2 daily local newspapers; over 30,000 slides of artists’ works consisting of painting, architecture, interior design, photography and sculpture; a large visual image/picture file arranged by subject; over 400 curriculum supporting videotapes and DVDs; 110 multimedia CD-ROMs and music compact discs. The Library/Resource Center also subscribes to the electronic full text databases of Britannica On-Line, EBSCO Full Text Magazines, SIRS Researcher, and the Grove Dictionary of Art. We also have borrowing agreements with the Denver Public Library, Jefferson County Public Library, Regis University and the Auraria Campus Library. Sixteen personal computers along with one high end printer allow Library + Resource Center patrons access to our web-based card catalog, electronic databases, the Internet and word processing.

FACULTY

Laurence Kresek, Chair, Illustration Department
MA, Syracuse University; BA, Illustration, Eckerd College. Formerly, Mr. Kresek was the first chair of Illustration at the Ringling School of Art and Design and was instrumental in its growth and national reputation. He has been a professional freelance illustrator since 1970, specializing in science fiction paperback book illustration with clients such as Doubleday, Warner Books, Fawcett and Dell publishing as well as a creator of art for movie posters, advertising agencies and magazines for clients in the New York City area, and throughout the Southeast and China. Mr. Kresek has been included in “Who’s Who Among America’s Teachers,” and has earned national recognition as an award winner, exhibitor, and judge for the New York Society of Illustrators, where he is currently serves as a member of the Student Outreach Committee. Currently, Mr. Kresek is developing a wide range of projects with his wife Joan for their business, Kresek Art Studio.

Lisa Hochtritt, Chair, Art Education Department
EdD, Art and Art Education, Teachers College, Columbia University; MA, Creativity and Creative Arts Education, San Francisco State University; BS, Radio/TV/Film, University of Wisconsin. Prior to her arrival at RMCAD, Dr. Hochtritt was Director of the Master of Arts in Teaching Program and a member of the faculty at The School of Art Institute of Chicago where she was selected as Faculty of the Year in 2004-05. Formerly at the college level, she taught at Teachers College, Columbia University, Bank Street College of Education, and Parsons School of Art and Design. She is an experienced educator at the elementary and secondary level as well, teaching in public schools in New York, Texas and California. Dr. Hochtritt exhibits her art nationally, and publishes and presents in the fields of art and education. Her research interests focus on the interrelationships between youth and popular cultures, lived experiences, and artist as critical researcher.

Dan James, Chair, Liberal Studies Department
MA, Lutheran School of Theology at Chicago; BA Southwest Missouri State University. Mr. James is Creative Director and Owner of Pursuit Advertising & Design, working with privately-held corporations, small businesses and industries, including the outdoor industry, event organizers, publishers, real estate, and the collectible industry. He creates and produces advertising campaigns, marketing materials, trade show displays, and web site planning and development. Mr. James works locally, nationally and internationally, and brings his passion for the study of people and times to RMCAD students in the classroom with enthusiasm and depth.

Jenny Stevenson, Vice President for Academic Affairs
PhD, Curriculum and Instruction/Cognitive Psychology, University of Wisconsin-Madison; MS, Education, University of Wisconsin-Madison; BA, English, College of Wooster. Dr. Stevenson has wide experience as an educator at all levels, elementary through college and adult, specializing in literacy research and education. She has a substantial background as an education leader, editor, and publisher in both the nonprofit and for profit sectors, including the International Reading Association and Highlights for Children, Inc. She is well published in professional books and journals, and is past president of the Educational Press Association of America and has been listed many times in “Who’s Who Among America’s Teachers.” At RMCAD, she was formerly a member of the faculty, Chair of the Liberal Studies Department and Dean of Instruction.

Dan James, Chair, Liberal Studies Department
MA, Lutheran School of Theology at Chicago; BA Southwest Missouri State University. Mr. James is Creative Director and Owner of Pursuit Advertising & Design, working with privately-held corporations, small businesses and industries, including the outdoor industry, event organizers, publishers, real estate, and the collectible industry. He creates and produces advertising campaigns, marketing materials, trade show displays, and web site planning and development. Mr. James works locally, nationally and internationally, and brings his passion for the study of people and times to RMCAD students in the classroom with enthusiasm and depth.

Laurence Kresek, Chair, Illustration Department
MA, Syracuse University; BA, Illustration, Eckerd College. Formerly, Mr. Kresek was the first chair of Illustration at the Ringling School of Art and Design and was instrumental in its growth and national reputation. He has been a professional freelance illustrator since 1970, specializing in science fiction paperback book illustration with clients such as Doubleday, Warner Books, Fawcett and Dell publishing as well as a creator of art for movie posters, advertising agencies and magazines for clients in the New York City area, and throughout the Southeast and China. Mr. Kresek has been included in “Who’s Who Among America’s Teachers,” and has earned national recognition as an award winner, exhibitor, and judge for the New York Society of Illustrators, where he is currently serves as a member of the Student Outreach Committee. Currently, Mr. Kresek is developing a wide range of projects with his wife Joan for their business, Kresek Art Studio.
David Mesplé, Chair, Fine Arts Department
MA, Fine Arts, California State University, Sacramento; BA, California State University, Sacramento. David Mesplé exhibits exclusively in public and private non-profit museums and galleries nationally and internationally with more than twenty-five one-person exhibits in California, Oregon, Michigan, Wisconsin, Maryland, Wyoming, Colorado, and Kentucky. He was honored to be exhibited in a two-person show with Rembrandt van Rijn in 1997, and is the recipient of the Innovation in the Arts Award, the Grumbacher Gold Medal for Watercolor, and grants from the Xerox Foundation and Canon USA, and has been featured in PBS specials, texts, and numerous arts periodicals. Selected exhibitions include: Wyoming State Museum, Western Center for the Arts, The Loveland Museum + Gallery, Foothills Art Center, Arvada Center for the Arts and Humanities, The International Association of the Fantastic in the Arts, and numerous university galleries. Mr. Mesplé has studied with such notable American artists as Joseph Raffael, Mel Ramos, Jim Nutt, Marcia Tucker, Jack Fulton, and seminal conceptual/ graffiti artist Steve Kaltenbach.

Frederick Murrell, Chair, Graphic Design + Interactive Media Department
MFA, College of Design, Basel, Switzerland; BFA, University of Washington. Fred Murrell has been a design consultant, design manager, creative director and educator for over 20 years, providing design/strategy solutions that have helped shape many leading companies with a new understanding of the value of design. Previous positions include: Vice President of Experience Design for Sapient, a global consultancy; Director of Design Worldwide at Texas Instruments, Corning Incorporated and Tenet Healthcare; Joyce C. Hall Distinguished Professor, Chair of the Design Department and Director for the School of Design at Kansas City Art Institute; member of the faculty at Carnegie Mellon University, SUNY Fredonia, Art Center, Rochester Institute of Technology and Alfred University. Mr. Murrell’s board memberships include American Center for Design; American Institute of Graphic Arts; Advisors Design Management Institute; International Experience Design Group for AIGA.

Lauren Pillote, Chair, Interior Design Department
MA, Design Education, Regis University; BA, Interior Design, Michigan State University. NCIDQ certified. Ms. Pillote has over twenty years of professional experience in commercial and residential design and actively advocates for advancement of the profession through the maintenance of rigorous educational and professional standards, with sustainability at the core of good design practice. Her research interests and areas of specialization include design pedagogy for creativity, curriculum development, lighting design, sustainability, and environmental impact upon human behavior. She has presented at national and international conferences; conducts workshops and seminars for members of the architectural and design community; and is co-authoring a textbook on sustainable design. Ms. Pillote is a professional member of IDEC, ASID, and is an IDEP Mentor for NCIDQ.

Dan Seely, Chair, Animation Department
MFA/Sculpture, University of Colorado at Boulder, in progress. BS, Art, Rockford College; Dan Seely partnered in 1990 starting Pixel Kitchen, Inc., to supply 2-D and 3-D computer animation to the film, video and web market place. His animations have been shown at several film festivals including the Siggraph Conferences and the Denver International Film Festival. Mr. Seely’s work has earned several national awards including an Emmy and a NAGC award. He was awarded a Fellowship at the University of Colorado’s Journalism School and also serves as President of ASIFA-Colorado.

Jeff Sheppard, Chair, Foundation Studies Department
MH/Art History, University of Colorado at Denver; BA, Regis University; BFA, Rocky Mountain College of Art + Design; additional studies at Western State College. For over 20 years Mr. Sheppard has worked in the field of graphic design. Projects he has worked on include publication design, books, annual reports, brochures, and identity programs.

Gary Emrich, Head, Photography and Video Art
MFA, The School of the Art Institute of Chicago; BA, Political Science, University of Colorado at Boulder. Gary Emrich owns a successful film production company. He’s been a fine arts instructor at Metropolitan State College and the University of Colorado at Denver. His work has shown in three Denver International Film Festivals as well as the Atlanta and Dallas Film Festivals. He has received two individual arts fellowships from the Colorado Council on the Arts, grants from WESTAF and the National Endowment for the Arts. His work is in the collection of the Art Institute of Chicago, the Denver Art Museum, the State of Colorado and the City of Denver Public Art Collection. He has a 25 year exhibition history across the country and his work is represented by the Robischon Gallery in Denver.

Kiki Gilderhus, Head, Art History
PhD/ABD and MA, Art History, University of Wisconsin-Madison; BA, Gustavus Adolphus College. Kiki Gilderhus is an art historian and writer. She specializes in Modern European and Latin American art, focusing on the Mexican themed work of German-born artist Josef Albers. Her essay “Homage to the Pyramid: The Photocollages of Josef Albers” appears in the Josef and Anni Albers exhibition catalog, published by the Reina Sophia Museum, Madrid, Spain. Ms. Gilderhus has taught at the University of Wisconsin-Madison, Kent State University, and Colorado State University. She is an art critic for the Rocky Mountain Chronicle.

Clark Richert, Head, Painting
MFA, University of Colorado; BFA, University of Kansas. Mr. Richert’s group and solo gallery exhibitions span the last 25 years. In addition to public and corporate commissions, his work can be found in the collections of the Nelson-Atkins Museum, Wichita Art Museum, Denver Art Museum, Amoco, Container Corporation of America, and many others. Currently, Rule Modern and Contemporary Gallery in Denver, Cornell Devitt Gallery in New York, and Linda Fairchild Gallery in San Francisco represent Mr. Richert’s work.

Rebecca Vaughan, Head, Sculpture
MFA, Carnegie Mellon University; BFA, University of Colorado at Boulder; foreign study at Bernardinus College, Netherlands and the Nova Scotia College of Art and Design, Halifax, Canada. Rebecca Vaughan has exhibited sculptural installations, mixed media concept projects and installations in the Colorado region, New York, Los Angeles, Mexico and Canada. Publications include the Chicago Art Journal and KnitKnit. Ms. Vaughan has also received state grants from the Colorado Council on the Arts and Humanities and the Ohio Arts Council. Her research centers on gift economies and the cultural and biological methods by which we regulate and maintain our social relationships. Her work explores the unique resonance between organisms and the manners in which they embody the concepts of distribution and networking.
Core Faculty
Hugh Alexander, Illustration

David Collins, Illustration
MFA, Painting, New York Academy of Art; BA, Art History and BFA, Creative Arts/Painting, University of Colorado at Denver. Mr. Collins has worked in various fields of artistic production, including fine art figure, still-life and landscape painting, portraiture, advertising, interior design (murals), toy/novelty design, and graphic design. He has worked for Parker Blake Design on designing and/or painting murals for Casinos in Blackhawk, Colorado, and Las Vegas (The Green Valley Ranch Hotel and Casino). An expert in human and animal anatomy for artists, his oil paintings have been shown in the National Arts Club, New York City; Tribeca Hall, New York City; R.L. Foster Gallery, Denver; Gallery 821, Denver; Millsap-Moore Gallery, Evergreen, Colorado; and the Millicent Rogers Museum, Taos, New Mexico.

Sam Fleming, Animation
BFA, Painting and Drawing, University of North Texas; graduate of Sheridan College International School of Animation, Toronto. Mr. Fleming is skilled in 2-D and 3-D animation, direction, and production, including professional film, television, and commercial credits that span more than 20 years in the animation industry. Feature film project credits include: Jimmy Neutron, Boy Genius, 3-D character animator, Anastasia, Space Jam. Studio Producer/ Texas Unit, TV Credits include: King of the Hill - directed the original test pilot for Fox. The Proud Family, animation and lay-out for first episodes. Ren and Stimpy, assistant animator on the pilot episode. 2-D character animator for games and new media including: Sponge-Bob Square-Pants and Disney’s Villain’s Revenge. Active member of ASIFA-COLORADO.

Randy Fox, Graphic Design + Interactive Media
BFA, Rocky Mountain College of Art + Design. Graduate of studio arts at Clark University, Massachusetts. Freelance graphic designer creating interpretive exhibits for visitor centers. Projects include: Boulder Recycling, Boulder, Colorado; Waubay Refuge, Waubay, South Dakota; Great Plains Nature Center, Wichita, Kansas; Golden Gate State Park Visitor Center, Golden Colorado; The National Elk Refuge, Jackson Hole, Wyoming; and Holy Cross Visitors Center, Minturn, Colorado.

Ania Gola-Kumor, Foundation Studies
MFA, Academy of Fine Arts, Warsaw, Poland, specializing in Painting and Exhibition Design. Ms. Gola-Kumor is published in 100 Creative Drawing Ideas, Anna Held Audette, Shambhala, Bost & London, 2004 and in Mixed Media Big and Small. Her art has appeared in numerous publications including Art Space and ART news and has been exhibited in New York, London, New Mexico and Colorado. She has exhibited at the Inkfish Gallery in Denver, Colorado; Curfman Gallery at Colorado State University, Sena Galleries East in Santa Fe, New Mexico, Fred Dofman in New York and the PowerPlant Visual Center in Fort Collins, Colorado. Since graduating in 1994, Ms. Yeagle has worked for several award winning commercial and residential design firms gaining the experience and opportunity to work nationally as well as internationally. She is a partner in Studio 9000 LLC, a multi-media and design studio. Areas of specialization include space planning, construction documentation, project management, and office design.

Russel Gabriel, Liberal Studies
MA, Art History, University of Colorado at Boulder; BA, Psychology. In addition to teaching, with a specialization in nonwestern in art history, and working toward a PhD, Mr. Gabriel is a freelance photographer and working toward a PhD, Mr. Gabriel is a freelance photographer.
Mark Hubley, Animation
BFA Fine Art, University of Colorado Boulder. A second generation animator, Mr. Hubley has 25 years of experience in the field; he has designed, directed, animated and/or produced countless commercials and industrial spots for various production companies and clients nationwide. His short films have been selected for screening by the Olympiad of Animation and the 3rd Animation Celebration in Los Angeles. Mr. Hubley has produced several educational spots for Sesame Workshop. In addition to commercial work, he is always busy developing ongoing independent projects that deal with personal, social, environmental, or just plain weird topics.

Shane Kendrick, Graphic Design + Interactive Media
MFA, Virginia Commonwealth University; BFA, Virginia Commonwealth University. Mr. Kendrick has created design solutions within the print, web, broadcast and exhibit disciplines. Formerly, he was the creative director at Group360, an advertising, graphic design and public relations firm in Washington DC. Prior to this he was an art director at Diesel Design, a graphic design firm in San Francisco, where he specialized in identity system creation and implementation. Mr. Kendrick has also instructed at the Corcoran School of Art + Design, in Washington, DC.

Joan Kresek, Illustration
BFA, Ringling College of Art and Design. Ms. Kresek’s career includes publication designer, mural painter, interpretative painter, and instructor. She paints for gallery and commission, having worked with designers for 20 years. Her work is in collections in Florida, New York, Pennsylvania, Virginia and Colorado.

Teddy Schmedeke-Lee, Foundation Studies
BFA, Rocky Mountain College of Art + Design. She paints for gallery and commission, having designed, directed, animated and/or produced countless commercials and industrial spots for various production companies and clients nationwide. Her short films have been selected for screening by the Olympiad of Animation and the 3rd Animation Celebration in Los Angeles. Mr. Hubley has produced several educational spots for Sesame Workshop. In addition to commercial work, he is always busy developing ongoing independent projects that deal with personal, social, environmental, or just plain weird topics.

Kimberlee Lynch, Foundation Studies
BFA, Visual Communications, Kendall College of Art and Design. Ms Lynch was the Art Director for 5280 Publishing, Inc, and responsible for entire production of 5280 Denver’s Mile-High Magazine and Mile-High Weddings. She designed and illustrated the covers, ads, editorial, and all collateral material. The Society of Illustrators has published her illustrations, and she has published several books featuring full-sized illustrated patterns for the stained glass windows that she designs.

Matthew McFarren, Illustration

Tony Pfeiffer, Liberal Studies
PhD, Rutgers University. Dr. Pfeiffer is the son of a science writer who specialized in anthropology. From a young age, he lived the discipline, participating in his first archeological expedition at age nine. Dr. Pfeiffer’s specialties are human evolution, primate behavior, gatherer-hunter studies, nonverbal communication, and Japanese culture.

Rance Eric Poole, Animation
BFA, Fine Art, University of Colorado at Boulder; AS, Computer Animation, Art Institute of Colorado. Work on permanent display at the University of Colorado at Boulder’s education department. Mr. Poole’s privately owned business specializes in graphic design and animation. He’s designed story boards, layouts for commercials, for a variety of businesses nationwide, served as lead character animator for Learn.com and works on national advertising campaigns with Little Wolf Pictures.

Bruce Price, Fine Arts
MFA, Maine College of Art; BFA, Rocky Mountain College of Art + Design. In addition to solo shows in New York City, Mr. Price has exhibited paintings and installations in Denver, Mexico, and China. Mr. Price teaches design, experimental drawing, painting, and modern and contemporary art history.

Marcia Sanders, Foundation Studies and Art Education
MFA, Printmaking, University of Colorado at Boulder; M.Ed. K-12 Art Education, University of South Alabama; BFA, East Carolina University; AAS, Graphic Design and Communication Arts, Pitt Community College. Ms. Sanders has expertise in lithography, large-scale relief, intaglio, alternative, photographic, non-toxic printmaking techniques and methods, secondary language studies in French and Spanish. She is the owner of UnderPressure Fine Arts, a printmaking and fine art facility in Arvada, Colorado. Her teaching experience includes undergraduate, graduate and high school levels. She plays and records several stringed instruments professionally.

Teddy Schmedeke-Lee, Foundation Studies
BFA, Rocky Mountain College of Art + Design. A professional fine artist and portrait painter since 1975, Ms. Schemedeke-Lee is the recipient of multimedia and figure awards in watercolor, pastel and oils. She teaches traditional degree classes in life drawing. She has taught for North Jefferson County Recreation, Arvada Center for the Arts and Humanities, and Foothills Metropolitan Recreation and Park District. Her work is represented by the Arrowhead Gallery in Golden, Colorado.
Cathie Seiler, Interior Design
MS, Interior Design, Drexel University; BS, Business Administration, University of Colorado. Ms. Seiler is President of Symmetry, Inc. an interior design firm specializing in residential environments and life style design. She is a member of American Society of Interior Designers (ASID), International Interior Design Association (IIDA), Interior Design Educator’s Council (IDEC), and Kappa Omicron Nu. Previously she has held a variety of positions with the Peak Association of the Arts, Inc., the Boulder Ballet, and the Friend's School, all in Boulder Colorado, including board chair and executive director. Her areas of teaching expertise include history of interiors and furniture design, textiles and residential environments.

Sarah Shay, Art Education
MAAE, Art Education, The School of the Art Institute of Chicago; BA Anthropology, BFA Photography, University of Iowa. Ms. Shay has taught in a wide variety of K-12 schools including private, charter, and public schools in Illinois, Wisconsin, Tennessee and Colorado. In 2004 she was named Mile High Teacher of the Year. Ms. Shay is a frequent presenter at CAEA and NAEA conferences. Her research focuses on multiculturalism in contemporary art curriculums, and her artwork explores the personal narrative through multi-media.

J’Lyn Simonson, Liberal Studies
MA, English, University of Central Florida; BA, English, Colorado Christian University. Ms. Simonson is completing her PhD in Literary Studies at the University of Denver. Her dissertation focuses on the collaboration of text and visual image in the novels of W.G. Sebald. Her main areas of interest are theory, twentieth-century literature, lyrical essay, and visual art and text. She is also a poet, and has authored a lyrical essay that includes photographs and found art, as well as a book of prose poetry.

Katie Thorsheim, Liberal Studies
MS, Southern Oregon University, Geography/Communications; BS, Colorado State University, Botany/Soils. Ms Thorsheim has extensive experience in sales and marketing, as well as in soils. Formerly she taught at the University of Texas.

Delane Ingalls Vanada, Art Education
MEd, Arts in Education, Lesley University, Cambridge; BA Art and Design, Purdue University; AA Fashion Design, Fashion Institute of Technology. Delane Ingalls Vanada, a nationally recognized art educator, has been teaching, directing, and coordinating art programs for 18 years. Her former careers as a fashion designer/illustrator, textile designer and painter have influenced her approach to educating artists and shaping twenty-first century thinkers. Ms. Ingalls Vanada is the owner of Simply Radiant, an art and design firm. She was named Pikes Peak Art Educator of the Year in 2003, National Art Education Association’s Pacific Region Art Educator of the Year in 2004, and led the Colorado school at which she was the art director/curriculum coordinator to win the J.F. Kennedy Center School of Distinction award. Ms. Ingalls Vanada frequently presents at local, state and national art education conferences, and is pursuing a PhD. at the University of Denver.

Kelly Webb, Interior Design
MS Environmental Policy, Certificate, Green Building Program, Colorado State University; BS Business Administration, University of Oklahoma; BFA Interior Design, Emphasis Green Design, Rocky Mountain College of Art and Design. Ms. Webb is the owner of Context Designs, LLC specializing in green commercial and residential design projects. She is an Allied Member of ASID, a member of USGBC and the Boulder Green Building Guild.

BOARD OF DIRECTORS

James R. Schoemer, Chairman of the Board
EdD, MA, Higher Education Administration, Indiana University; BA, Business Education, University of Wisconsin; Dr. Schoemer is semi-retired. He has had senior vice president positions at Colorado State University, Regis University and the Auraria Higher Education Center, and New Ventures of Regis University. He also has been interim president at a number of universities. Jim was also Executive Director of P@GE (Partnership for Accelerated Global Education) New Ventures, Regis University. He currently is president of the Community College Advocacy Fund and has served on a number of non-profit Boards.

Richard L. Behr, Jr.
MS, Finance, University of Colorado with an emphasis in securities analysis; CFP, College for Financial Planning; BS, Business Finance, St. Francis College. Postgraduate studies with the Wharton School of Economics. Part of the “Best Practices” consulting group to Fidelity Investments for registered investment advisors. Mr. Behr is founder and managing partner of Investment Management Consultants, Ltd. and 401K Squared.

Christopher A. Marconi
MBA, Rollins College, Crummer Graduate School of Business; BS, Accounting and Finance, Marquette University (Charles Evans Scholarship recipient). Mr. Marconi is the Vice President of Strategic Planning at Full Sail Real World Education in Winter Park, Florida. He has been instrumental in sourcing principal led investments in a wide array of industries, as well as working with management teams to effect growth in their companies. Prior to joining Full Sail, he was an Associate in investment banking at Merrill Lynch & Co. and Ridge Capital Partners. Mr. Marconi currently serves on the Board of Governors for the Orlando Regional Chamber of Commerce.

David J. Nygren
PhD, Social/Organizational Psychology, Boston University; MA, Psychology, Boston University; MDiv, Pastoral Theology; MA, English Literature, The Catholic University of America; BA, Philosophy, St. Thomas College; graduate, Institute for Educational Management, Harvard University. Dr. Nygren established Nygren Consulting, LLC in 2007 after ten years as Senior Partner at Mercer Delta Consulting, LLC where he was the founding leader of the Corporate Governance Consulting Group. He specializes in Board effectiveness, organizational strategy, and executive leadership. He currently serves as: Chairman of the Board of the National Association of Corporate Directors Northern California Chapter; Vice Chairman of the Board of Directors of Board Source, formerly the National Association of Non Profit Boards; member of the Board of Directors of Larkin Street Youth Services and the Jesuit School of Theology in Berkeley, CA.

Sage Ann Scheer
PhD, Human Organizational Development with an emphasis in Marketing and Systems Design; MA in Communication (Negotiation and Arbitration); BA in International Communications. Ms. Scheer is Vice President of Strategic Sales for EDmin.com, Inc., an educational technology company specializing in assessment and accountability role-based decision support systems. She heads up national account sales and is responsible for developing state and federal department of education accounts. Dr. Scheer has been associated with the RMCAD Board twice since 1994.

Mark M. Steele
BFA, Boston University. Mr. Steele is a nationally renowned illustrator, producing work for publications including The New York Times, Sports Illustrated, Time Magazine, Fortune, Business Week, and others.

Steven M. Steele
BFA, Syracuse University, School of Visual and Performing Arts. Mr. Steele has served as President of Rocky Mountain College of Art + Design for over 20 years. Additionally, he has taught beginning and advanced courses in the areas of two- and three-dimensional design, drawing and sculpture. He is a practicing artist specializing in sculpture and installation art. Mr. Steele is Director of the International Council of Design Schools.

H. Curt Wiedeman
MPA and BA, University of Colorado. Retired Chief Finance Officer, Auraria Higher Education Center. Previously served as Deputy Director in the State of Colorado Office of State Planning and Budgeting and as Assistant Vice President for Hanifen, Imhoff Inc. Currently serves as an elected director for the Willows Water District in Arapahoe County, CO.

The policies, regulations, degree requirements, procedures and fees published in this catalog are subject to change without prior notice, if necessary, to keep RMCAD policies in compliance with State and Federal laws and/or rules set forth by accrediting institutions or organizations. RMCAD reserves the right to change the curricula, rules, policies, fees and any other requirements stated in this catalog. Requirements listed in unofficial degree plans or catalogs do not constitute a contract, express or implied, between any applicant, student or faculty member of Rocky Mountain College of Art + Design or its governing board.
